PUBLIC FACILITIES DEPARTMENT AWARDS GRANT TO AIDS HOUSING CORPORATION

Director Mary Nee awards a \$65,000 grant to members of the AIDS Housing Corporation to provide technical assistance to organizations developing housing for persons with AIDS. The funds will be used to organize a conference for agencies providing services to AIDS housing clients.

Efforts to increase housing opportunities for persons living with AIDS have been given a boost by the City of Boston Public Facilities Department (PFD). PFD has awarded the AIDS Housing Corporation of Boston a \$65,000 grant for the development of low-income Supportive AIDS Housing.

The funds come from the US Department of Housing and Urban Development (HUD) through its Housing Opportunities for People With AIDS Program (HOPWA). Boston was one of five cities to receive HOPWA funds from a highly competitive category for projects of national significance.

The AIDS Housing Corporation will use its HOPWA grant to provide technical assistance to organizations that develop housing for people with AIDS and will organize a conference regarding the provision of services to AIDS housing clients.

"This grant to the AIDS Housing Corporation will address the urgent need to create more Supportive AIDS Housing in Boston," said PFD Director Mary Nee. "More than 80

percent of all persons who contract AIDS will be in need of housing assistance at some point in their illness."

PFD has also awarded the AIDS Action Committee HOPWA grant funding to provide counseling and emergency financial assistance to persons with AIDS at risk of losing their homes. The organization will also use the funds to train agencies that provide services to AIDS clients and their families.

MWRA BOARD SEEKS TO ELIMINATE WALPOLE LANDFILL

The Massachusetts Water Resources Authority Board of Directors voted today to seek an accommodation with the Town of Walpole that would, if approved by the Federal Court overseeing the Boston Harbor Project, allow the MWRA to seek out-of-state alternatives to establish a landfill adjacent to the Cedar Junction Prison.

Under the proposal, MWRA would seek a long term 25 year contract with one of four out-of-state disposal contractors which have been under review since January. Walpole would agree to drop lawsuits over the landfill siting process and issue local permits to the MWRA.

MWRA would retain ownership of the Walpole site, and state and local environmental permits approving the site would be extended for 10 years.

The existing Federal Court order requires MWRA to have an in-state backup landfill to be used in the event MWRA is unable to process or market sludge fertilizer.

"Not a drop of sludge has entered Boston Harbor since late 1991 and constructing a landfill in Walpole which might never be used would be expensive and unnecessary when facilities exist elsewhere that can handle potential problems," said MWRA Executive Director Douglas B. MacDonald. "As such, we may seek commercial disposal of sludge as our preferred option while retaining control of the Walpole site only as a secondary backup."

(Continued on next page)

LANDFILL . . .

(Continued from front page)

MacDonald said that MWRA has clearly demonstrated that it can successfully produce sludge fertilizer. "When we had a brief problem at our Fore River processing facility last year, we found an out-of-state landfill quickly to receive the sludge."

Secretary of Environmental Affairs Trudy Coxe, who chairs the MWRA Board, stated, "We are seeking to do what is reasonable, cost effective and good for the environment. Part of our proposal also incorporates commitments from state agencies to use MWRA fertilizer pellets or sludge cake."

The Walpole site was selected by MWRA in 1989 after a lengthy review process. Environmental approvals for the site were received last week.

MWRA will file a status report on the landfill issue with the Federal Court on June 30 and needs Walpole's concurrence with the plant to ask the Court to delay or revise existing orders.

THE SEWER AND WATER FEE DEDUCTIBILITY ACT OF 1993

Sens. John Kerry and Edward M. Kennedy last week met with over thirty residents in East Boston, a community in the MWRA's district, to update concerned residents on their continued efforts to provide relief for ratepayers burdened by skyrocketing water and sewer rates that have come as a result of the mandated Boston Harbor cleanup.

"We understand the problem, we've heard you and that's why we're here," Kerry said. "This problem is bigger than Boston Harbor. It is a Massachusetts problem and a responsibility of the federal government to ensure the people, the ratepayers, will not continue to carry the burden alone."

During the meeting Kerry and Kennedy announced the introduction of The Sewer and Water Fee Deductibility Act of 1993. The bill would allow lower and middle income taxpayers to deduct water and sewer fees from federal income taxes and would eliminate the tax deduction available to corporations which make financial settlements with the federal government for environmental damages.

Kennedy, a cosponsor, explained details to the East Boston residents.

"This should be a partnership between the federal government, the state and local communities. It is not now. Ratepayers are picking up almost the entire tab, and that's unfair," Kennedy said. "It is unfair for a corporation like Exxon to get a tax deduction for payments for environmental damages in Alaska, while a citizen of Massachusetts cannot get a deduction for water and sewer fees that are skyrocketing due to federal environmental mandates."

This year, Kerry and Kennedy worked with others in the Massachusetts delegation to obtain \$100 million in direct funding for the construction of a wastewater treatment facility. Both Senators have lobbied President Clinton to support this and more funding in a delegation letter to the President, in meetings in Washington and during the Presi-

dent's recent visit to Boston. In February, Kerry and Kennedy introduced legislation to provide \$1 billion in federal funding over the next five years to help pay for the clean up of the Boston Harbor.

"The tax deduction legislation is a part of a continuing effort to end this intolerable situation," Kerry said. "Sen. Kennedy and I will continue to work with the Massachusetts delegation and the President to provide relief for these burdened communities."

Peter Lynch and Carol Goldberg present the United Way of Massachusetts Bay Alexis de Tocqueville Society Award for volunteer leadership to Diddy and John Cullinane of Dedham for their extensive contributions to our community. Goldberg and Lynch are co-chairs of the Alexis de Tocqueville Society of Massachusetts Bay, which is comprised of 108 philanthropic individuals who annually contribute \$10,000 or more to the United Way of Massachusetts Bay.

UNITED WAY HONORS JOHN AND DIDDY CULLINANE

The United Way of Massachusetts Bay recently presented the Alexis de Tocqueville Society Award for volunteer leadership to John and Diddy Cullinane of Dedham for their extensive contributions to our community.

"John and Diddy exemplify the true spirit of volunteerism," said United Way of Massachusetts Bay President and Chief Executive Officer Marian L. Heard. "Their service has been consistent and far-reaching. They are willing to do any job required to make this community a better place for us all to live and work. In the challenging times facing not-for-profits, volunteers such as John and Diddy Cullinane are an incredible human resource."

The Cullinane's were presented with the award as part of United Way's Alexis de Tocqueville Society Annual Dinner, held this year at the home of Carolyn and Peter Lynch in Marblehead.

The Alexis de Tocqueville Society of Massachusetts Bay is comprised of 108 philanthropic individuals who annually

contribute \$10,000 or more to the United Way of Massachusetts Bay. Last year, contributions totaling \$1.45 million from the members of the Alexis de Tocqueville Society made a difference in the lives of more than 1.7 million people served by United Way supported agencies.

The Society was named after the 19th century French philosopher and historian, Alexis de Tocqueville, who highly praised the American principle of volunteerism in his 1831 work *Democracy in America*. The United Way formed the Alexis de Tocqueville Society to recognize volunteerism in the Boston area as well as honor those who contribute generously to the United Way's volunteer-driven effort.

Said John Cullinane, "It's quite special to receive an award from the United Way, an organization that cares so much about people in the community. The United Way truly does make a difference in people's lives."

Added Diddy Cullinane, "I'm honored to be recognized by the United

Way. With its reliable information and research capabilities, the United Way can direct a person's charitable dollars to those who need it most, and that makes me feel good."

John Cullinane is president of the Cullinane Group, Inc. He is the founder of Cullinet Software, Inc., one of the first companies to specialize in computer software products. Cullinet was also the first company to be listed on the New York Stock Exchange and reach \$1 billion in valuation.

Cullinane recently completed a book on entrepreneurship entitled "The Entrepreneur's Survival Guide — 101 Tips for Managing in Good Times and Bad." He is also co-chairing with his wife, Diddy, a major fund-raising effort for the Boston Public Library and is president of its Foundation.

In addition, Cullinane is interested in bridging the communications gap between business and government. As a result, he organized and chaired a series of seminars for CEOs sponsored by the John F. Kennedy School of Government at Harvard University. One seminar entitled "The Credit Crunch," focused on credit problems impacting New England banks, real estate developers, and other businesses. Another seminar called, "Winning the Global Telecommunications Race," recommended forming the new Massachusetts Telecommunications Council. It was hosted by Governor William Weld and Congressman Edward Markey.

Cullinane is also a member of Harvard's New Foundation Committee, which specializes in emerging corporate governance issues. In May of 1993, he and his wife organized a conference at the Kennedy School entitled "Boston Black & White Business Coming Together," designed to establish more communication between CEOs of the rapidly growing number of black-owned businesses located in Greater Boston and their counterparts in the traditional Boston business community.

A graduate of Northeastern University, Cullinane has been a member of the United Way of Massachusetts Bay Board of Directors since 1991. He also served as co-chairman of United Way Trailblazer Campaign in 1991.

as head of development for the Boston Public Library Foundation, s. Cullinane created a new program renew and strengthen the ties between the Library and the Boston Public Schools. Working with Superintendent of Schools Lois Harrison-Jones and staff, 20,000 new library card registrations were secured. Also, billboard signs were created by Middle School students to highlight the importance of books, reading and libraries. These signs will be displayed on 250 billboards throughout the city. Furthermore, an anthology of creative writing by Boston school students will be published as a book by the Boston Public Library in the Fall of 1993.

Most recently, Mrs. Cullinane organized, together with a Ladies Committee of 33 women, a gala in the newly restored McKim Building raising over a million dollars for the "Campaign for the Library."

As chairwoman for the Development Committee for Catholic Charities of the Archdiocese of Boston (a United Way supported agency), Mrs. Cullinane organized a committee called "Black & White Boston Coming Together," consisting of a cross section of business and professional people as a demonstration of goodwill between the races. This group is now in its fourth year and held its first and very successful Dinner Dance in February at the John F. Kennedy Library to benefit programs in the inner city. The group also plans to have a Black & White CEO Golf Tournament at Franklin Park in September.

Mrs. Cullinane served as co-chair of the United Way's Alexis de Tocqueville Society of Massachusetts Bay in 1989 and 1990.

Past winners of the Alexis de Tocqueville Society Award include Atteys David Pokross and Edward Hickey, Helen Chin Schlichte, Arthur Margery Katzenberg, Hessie Leventhal, Norman B. Leventhal and Edward E. Phillips.

Whereas, Without a comprehensive financial plan the City's ability to deliver basic services is in jeopardy; and

Whereas, No overall plan for the fiscal stability of Boston over the next few years has been developed by the administration; and

Whereas, The Mayor and city officials have demonstrated an inability to reach agreement with state officials and, in fact, have seen a deterioration in the City's relationship with the state demonstrated by the increasingly frequent exchange of public criticisms, therefore be it

Meeting Time and Date

Rule 1. Unless otherwise ordered from time to time, and except on holidays, the regular meeting of the City Council shall be held on every Wednesday at ten o'clock A.M. in the council chamber, City Hall, 1 City Hall Square, Boston. Special meetings may be called at the president's discretion, provided, however, that no special meeting of the Council shall be called, except in the case of an emergency and with the consent of two-thirds of all the members, upon less than forty-eight hours from the time the notices are mailed or dispatched by special messenger.

Quorum

Rule 2. A quorum of the City Council shall consist of seven members and any member may call for a roll call on the question in the presence of a quorum. If at any time any meeting is called to order, or if during a meeting a roll call shows less than a quorum present, the presiding officer shall declare a recess of not more than ten minutes, after which time, if a quorum is not present, the meeting shall be adjourned.

Presiding Officer

Rule 3. The president of the council shall assume the chair at the hour set by the previous adjournment; shall call the members to order and after a roll call showing a quorum present, shall proceed with the regular order of business. If no president has been chosen, the senior member by age present shall preside as temporary president until a presiding officer is chosen.

Rule 4. The presiding officer may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal from the decision of the chair, but no appeal shall be considered unless properly seconded. No other business except a motion to adjourn or to lay on the table shall be in order until the question on appeal has been decided.

The question shall be put as follows:

"Shall the decision of the chair stand as the judgment of the Council?" The vote shall be by a roll call, and it shall be decided in the affirmative unless a majority of the votes are to the contrary.

Rule 5. The presiding officer may at any time, during debate or otherwise, declare a recess for not more than ten minutes, and such action shall not be subject to appeal, nor shall any motions apply thereto.

Rule 6. The presiding officer shall propound all motions in the order in which they are moved, unless the subsequent motion shall be previous in its nature, provided that in naming sums and fixing times the largest sum and the longest term shall be put first.

Rule 7. Subject to the provisions of these rules, the presiding officer shall, without debate, decide all questions relating to priority of business to be acted upon.

Rule 8. The presiding officer shall, at the request of any member, make a division of a question when the sense will admit of it.

Rule 9. The presiding officer shall declare all votes; but if any member doubts a vote the president shall cause a rising vote to be taken and, when two members so request, shall cause the vote to be taken by a roll call.

Rule 10. When the presiding officer shall desire to vacate the chair he may call any member to it; but the president or the president *pro tempore*, as the case may be, may resume the chair at will.

Rule 10A. The president of the City Council, when absent, shall appoint a president *pro tempore* who will conduct meetings and assume all duties and responsibilities of the president of the City Council when absent.

Agenda

Rule 11. The original and twenty-one copies of any message, ordinance, resolution, vote or other measure submitted by the Mayor shall be delivered to the office of the City Clerk before 10:00 A.M. on the regular work day preceding any meeting of the Council as a prerequisite to its consideration at such meeting; the original and two copies of any order, ordinance, resolution or committee report submitted by a Councillor (excepting reports of the Committee of the Whole voted during a recess of the Council meeting) shall also be delivered before such time to such place as a prerequisite to its consideration at such meeting. Nineteen copies of each are to be delivered to the City Messenger by each Councillor's office submitting the same.

Rule 12. It shall be the duty of the City Clerk, acting as the clerk of the Council, to prepare and cause to be printed for each meeting a list in detail of matters submitted for consideration to the Council in accordance with Rule 11 and it shall be known as the agenda, which shall be divided into two sections, the latter of which shall be known as the consent agenda. One copy of each matter to be considered on the Consent Agenda is to be given to the City Messenger.

Said agenda shall include unfinished business of preceding meetings, matters on the table, assignment, and thirty-day and sixty-day orders not acted upon in previous meetings. Said matters shall be listed in accordance with the order of business as described in Rule 13.

After an ordinance is passed, but prior to its presentation to the Mayor, the City Clerk, with the assistance of the Corporation Counsel if necessary, may make such changes therein as will make it correct as to form; provided, however, its substance is not thereby affected.

Rule 12A. In the event that resolutions or orders concerning the same subject matter are filed with the City Clerk for consideration by the Council, the Clerk shall cause to have entered on the agenda only that resolution or order which was first filed and the name of the sponsor(s) to the similar resolution shall be added as a sponsoring member to the resolution or order which is placed on the agenda. Such action, however, shall not preclude any member from offering an amendment to said resolution.

Resolutions of condolences and congratulations filed in accordance with the provisions of Rule 37 shall be listed upon the consent agenda; provided, however, that upon the objection of any member to the Clerk of the City Council, prior to the scheduled start of said meeting, the matter being objected to by said member shall be removed from the consent agenda and placed on the agenda of regular Council business. No such resolution shall bear the name of any councillor not indicating consent to sponsorship.

All matters contained on the consent agenda shall be read as one and the question of adoption or passage of all said matters shall be by a single motion. The question shall be put as follows:

"The question now comes on approval of the various matters contained within the consent agenda."

Said agenda shall be delivered to each member of the council by 1:30 P.M. on the regular work day preceding the scheduled meeting. Upon receipt of matters submitted by the Mayor and/or Council members to be considered at a Council meeting, it shall be the duty of the City Messenger to promptly deliver a copy of any such message, report or any other document, commonly known as "the packet", to each Council Member.

Rule 16. A motion to adjourn shall be in order at any time, except on an immediate repetition or pending a verification of a vote; and that motion, the motion to lay on the table, the motion to take from the table, and the motion for the previous question shall be decided without debate.

Rule 17. No motion or proposition of a subject different from that under consideration shall be admitted under color of an amendment.

Any motion, order, or resolution which in the opinion of the presiding officer does not have a direct bearing on the business of the Council shall be referred to the Committee of the Whole, and shall not be further considered by the Council except upon report by that Committee. There shall be no appeal from the decision of the chair hereunder, and this rule shall not be subject to suspension. No motion shall apply, nor shall unanimous consent to speak on the matter so referred be in order.

The Committee of the Whole may report that any motion, order, or resolution so referred to it is out of order because of not having a direct bearing on the business of the Council, and its report shall be a final disposition of the matter, subject to an appeal which shall be governed by the same provisions as those governing appeals from rulings of the presiding officer.

Rule 18. Any order, ordinance, resolution, vote, or other measure submitted by the Mayor shall be rejected without prejudice, unless when it is filed with the City Clerk, it bears the certificate of the Corporation Counsel that, if adopted or passed in the form submitted by the Mayor, it will be in accordance with law.

Rule 19. After a motion has been put by the presiding officer it shall not be withdrawn except by unanimous consent and every motion to amend shall be reduced to writing and copies of it given to the members.

Committee Assignment and Action

Rule 20. When a petition, order, or resolution relates to a subject which may properly be examined and reported upon by an existing committee of the Council, such order or resolution shall, upon presentation, be referred to such committee. When a motion is made to refer any subject, and different committees are proposed, the motions shall be put in the following order:

1. To a standing committee of the Council.
2. To a special committee of the Council.

Any member offering a motion, order, or resolution which is referred to a committee may be given a hearing on the same by the committee before a report is made thereon if he so requests at the time of offering the same or before final action thereon by the committee.

If, within twenty-one days, a matter referred to a committee other than a committee of all the members is not reported upon, it may be called by a majority vote of all members.

If, after twenty-one days, a matter referred to a committee other than a committee of all the members is not reported upon, it may be recalled by a standing vote of four members of the Council.

If, after forty-two days, a matter referred to a committee is not reported upon, any member may recall such matter from the committee, and such matter shall not again be committed to any committee other than the Committee of the Whole. A majority of any committee may refer all or part of any matter referred to it to another committee of the Council.

After the last regular meeting of the year, any matter which has been in committee longer than forty-two days and not reported on, shall be placed on file by the City Clerk.

Upon the request for a call of the ayes and nays, the president shall hold the calling open for a period no longer than five minutes, during which time the City Messenger shall summons all members who are absent from the chamber. The Clerk shall then call the names of the members in alphabetical order without interruption. Each member shall respond to his name as it is called by the Clerk. No member shall be recorded after the name of the next member has been called in the prescribed manner, except by unanimous consent of all the members present.

Rule 23. Every member who shall be present when a question is put, unless he is excluded by interest, shall vote in the affirmative or negative or shall respond "present" unless the Council for special reason shall excuse that member from voting.

Rule 24. In the event that the sponsoring member of any order, resolution, or other matter, excepting those contained upon the consent agenda, is not present when the Clerk reads said matter, the presiding officer shall instruct the Clerk to withdraw said matter from consideration at that meeting.

Reconsideration

Rule 25. When a vote has been taken any member may move reconsideration thereof only at the same meeting. Debate on motions to reconsider shall be limited to thirty minutes, and no member shall occupy more than five minutes, but on a vote upon any subsidiary or incidental question debate shall be limited to ten minutes, and no member shall occupy more than two minutes.

Rule 25A. When a motion to reconsider has been decided that decision shall not be reconsidered, and no question shall be twice reconsidered unless it has been amended after the reconsideration; nor shall any reconsideration be had upon the following motions:

1. To adjourn.
2. The previous question.
3. To lay on the table.
4. To take from the table.
5. To close debate at a specified time.

A motion to reconsider may be laid on the table or postponed indefinitely, and the effect of such action in either case shall be to defeat the motion to reconsider.

Readings

Rule 26. Except for matters listed on the consent agenda, every ordinance, order and resolution, unless reported upon by a committee or rejected, shall have two separate readings, both of which may take place at the same session unless objection is made; provided that all orders for the expenditure of monies, unless reported upon by a committee of the Council, shall lie over for one week before final action thereon. Whenever the second reading immediately follows the first reading, the document may be read on the second occasion by its title only. All orders releasing rights or easements in or restrictions on land, all orders for the sale of land, all appropriations for the purchase of land, and all loans voted by the Council shall require a vote of two-thirds of all the members of the Council, and shall be passed only after two separate readings and by two separate votes, the second of said readings and votes to be had not less than fourteen days

after the first, except in cases in which a shorter period is authorized by law. Any order rescinding an order for any of the foregoing purposes shall require the same number of readings and of votes as was required for the passage of the original order.

Rule 26A. No ordinance may be adopted at the meeting at which it is submitted.

Committee Structure

Rule 27. No meeting of any committee shall be called upon less than forty-eight hours from the time the Council staff shall have mailed the notices or dispatched them by special messenger; provided that meetings of the Committee of the Whole may be held upon a two-thirds vote of the Council, at the completion of other Council business and prior to final adjournment of any meeting of the council without such notice.

At the start of any committee hearing or meeting the committee chairman shall state the procedure by which the hearing shall be governed. Unless changed by a majority of the committee members, the chairman's procedure shall govern. The chairman and members of any committee shall speak and question witnesses for not more than ten minutes at a time; provided that the sponsor or sponsors of the various committee proposals shall be given the opportunity to make the initial presentation.

NO. 29

WILLIAM J. BRATTON COMMISSIONER BOSTON POLICE DEPARTMENT

William J. Bratton, the new Police Commissioner of the City of Boston, has been in the law enforcement field for over twenty years.

For the past 17 months, Commissioner Bratton has served as the Boston Police Department's Superintendent-in-Chief, the organization's top uniformed position. In that post, he directed planning and implementation of a program to transform all the systems and operations of the Department to the practice of Neighborhood Policing. At the start of his tenure, he solicited the views of all sworn and civilian personnel on the Department's training, equipment, facilities, and policies. He then created a plan for revising all these elements in a coordinated and systematic fashion. The purpose of the plan is eventually to enable every member of the Department to prevent crime and reduce fear in every Boston neighborhood by building working partnerships with citizens to solve crime and quality-of-life problems one at a time.

Prior to his return to Boston, Commissioner Bratton served as Chief of the New York City Transit Police from 1990 to 1992 where he directed a 5,000 member police agency, seventh largest in the country, which was responsible for safeguarding the New York City subway system and its 3,500,000 daily riders.

During his tenure as Chief, the department was accredited by the Commission on Accreditation for Law Enforcement Agencies. He also developed a Plan of Action which strategically repositioned and re-equipped the department to deal with the issues of crime, disorder and fare evasion. One result of this plan was

a 15% decline in reported crime in 1991, after three straight years of double digit increases.

Commissioner Bratton has also previously served in three major Boston area police agencies. During the period of 1970 thru 1983, he served with the Boston Police Department, rising through the ranks to the position of Executive Superintendent, the highest ranking sworn position in that 2,500 member agency.

In May 1983, he was appointed as Chief of Police for the Massachusetts Bay Transportation Authority, a regional transit agency serving 78 cities and towns in the Metropolitan Boston area with a daily ridership of 500,000 passengers. While in that position, he designed and implemented a comprehensive seven point modernization and crime reduction plan which included doubling the size of the department, and the installation of a six million dollar state of the art communications system. In addition, he initiated that department's accreditation project which culminated in the granting of accreditation status to the MBTA Police Department by the Commission on Accreditation for Law Enforcement Agencies in January, 1986.

In July 1986, he left the MBTA Police Department to assume the position of Superintendent of the 650 member Metropolitan Police Department, a division of the Commonwealth of Massachusetts Metropolitan District Commission, which had multi-jurisdictional responsibilities for many of the commuter highways, beaches and parks in the Greater Boston area.

(Continued from front page)

Commissioner Bratton has been the recipient of many honors and awards including the Boston Police Department's highest award for valor, the Schroeder Medal. In 1988, he received the Police Executive Research Forum (PERF) 'Gary P. Hayes' Award for innovative contributions to the police profession.

Commissioner Bratton holds a Bachelor of Science degree from Boston State College where he also completed significant coursework in the Master of Public Management program. He has attended numerous specialized training programs including the Harvard University Kennedy School of Government *Program for Senior Executives* and the *Senior Executive Fellows Program* at that institution. He is a graduate of the FBI *National Executive Institute*, as well as the New England Institute of Law Enforcement Management *Command Program* and Police Executive Research Forum *Senior Management Institute for Police*. He was also an invited participant in the National Institute of Justice's *Executive Session on Policing* at Harvard University's John F. Kennedy School of Government.

Commissioner Bratton is the 33rd Commissioner of the Boston Police Department. He is 45 years of age, a Boston native and is married to Cheryl Fiandaca, an East Boston attorney, and daughter of the late Joseph Fiandaca, the first Clerk Magistrate of East Boston Court for 32 years. He has a son, David, 21 years from a previous marriage. David is a senior at Suffolk University.

His parents, William and June Bratton, are Boston natives now residing in Weymouth. He has a sister, Patricia.

PFD Director Mary Nee (far left, front row) and Boston City Councillor Thomas Menino (far right) enjoy the ground breaking ceremony at the future home of WINGS (Women's Institute for New Growth and Support). The former City-owned abandoned building will house seven women who have successfully completed substance abuse recovery programs. Dimock Community Health Center will provide supportive services which will help the residents find permanent homes and jobs.

WINGS TAKES FLIGHT WITH FIRST HOME IN ROXBURY

Construction on a new home for women recovering from substance abuse has officially begun in Roxbury. In June, the Women's Institute for New Growth and Support (WINGS) welcomed community residents and city officials to its start of construction ceremony marking the rehabilitation of an abandoned house at 9 Valentine Street.

WINGS, with the help of the City of Boston Public Facilities Department (PFD), will convert the building into a lodging house with 7 single room occupancy units (SRO). The units will be occupied by homeless women who have successfully completed substance abuse programs and are in the process of finding permanent jobs and homes. PFD sold the abandoned City-owned building to WINGS for the sum of \$1.00 and provided construction financing with a \$222,000 loan from its LEND program (Loans to Encourage Neighborhood Development). Support services will be provided by the Dimock Community Health Center in Roxbury.

"Creating affordable housing more than just putting a roof over one head," said PFD Director Mary Nee. "Often it involves providing critically needed support services. This new home for women recovering from drug and alcohol addiction will help them return to a healthier life. Not only will the women who live here benefit, the community will benefit by seeing an eyesore transformed into a place the neighborhood can be proud of."

Founded in 1989, WINGS was formed to help women recovering from substance abuse reunite with their children and create more stable lives. The Valentine Street project is WINGS first development project.

"Yes, it would be great news. WINGS were just celebrating the development of a lodging house for seven homeless women recovering from substance abuse," said Savina Martin, founder of WINGS. "But let's also celebrate this as the construction of a neighborhood clearinghouse of information about drug addiction and recovery."

It is the policy of the City of Boston to award at least 15 percent of the City's contract dollars to minority-owned businesses and at least 5 percent to women-owned businesses.

which also offers housing to homeless women."

The project also enjoys financial support from the Boston Community Loan Fund, the Federal Home Loan Bank, the Massachusetts Cooperative Bank and several non-profit charitable foundations. WINGS new home will be called the Living and Learning Center. Construction is expected to be completed by December of 1993. WINGS is presently located on Elm Hill Street in Dorchester.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, used on the following communications:

BOSTON COMMUNITY CENTERS

Girl Centers Program

April 1, 1993

Dear Mr. Mayor:
I respectfully request your permission to dispense with public advertising and to award a contract to the Jackson Mann Community School & Council, Inc., a non-profit corporation, located at 100 Cambridge Street, Allston, MA 02134, for support and stimulation of services for the Girls' Centers Program. This contract is exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter.

Under the terms of the contract, the Jackson Mann Community School & Council, Inc. will provide support and stimulation of health, recreational, educational, social, and developmental services for the Girls' Centers Program, a federally funded project for which the City of Boston has been chosen as a model city. In fact, this program has again been refunded and is now entering its fourth year, demonstrating its success and giving its value to the citizens it serves.

The Jackson Mann Community School Council, Inc. is uniquely qualified to do this work because it has demonstrated the ability to provide these services, and will provide these services at no cost.

Compensation under this contract shall not exceed \$113,000.00 which I have determined to be reasonable for the work to be performed. The term of this contract shall be May 1, 1993, to April 30, 1994.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Respectfully yours,

William P. Doherty,
Executive Director.

HEALTH AND HOSPITALS DEPARTMENT

Genetic Diagnostic Testing Services

Dear Mr. Mayor:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Trustees of Boston University, located at 80 East Concord Street, Boston, MA 02118, for provision of Human Genetic Testing. This contract is exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter.

Under this contract Dr. Aubrey Milunsky will perform genetic diagnostic testing services to include:

Amniotic Fluid Genetic Studies	\$527.00
Amniotic Fluid Acetylcholinesterase	85.00
Alpha-fetoprotein Assay	27.00
Etsriol Assay	19.00
Blood Chromosomes	400.00
Fragile-X Blood Chromosomes	425.00
High Resolution Blood Chromosomes	425.00
Bone Marrow Chromosomes	400.00
Tissue Chromosomes	375.00
HeG	27.00
DNA Studies	\$170-\$400.00

Dr. Aubrey Milunsky's laboratory is located next to Boston City Hospital. This location removes the need for specimen transport. For genetic diagnostic tests, the most important of which depend upon cell culture and hence viability and survival of cells, transport invites failure rates which would otherwise be totally avoided.

In addition, the special nature of genetic tests frequently requires direct explanation and assistance to the physician requesting these usually sophisticated studies. The firmly established interchange between BCH physicians and Dr. Milunsky, directly through a BCH extension, al-

On February 4, 1993, this property, which is owned by the City of Boston, was cited by the Inspectional Services Department of the City of Boston for deteriorating porches that are attached to the building. This is a danger to the public and to the families that live in the building. On February 5, 1993, the following contractors, normally engaged in this type of service, were called to view and bid on this work. The results are as follows:

CONTRACTOR	BID AMOUNT
Camdele Construction Co.	\$15,830.00
Don Clancy & Sons, Inc.	\$18,300.00
McKenna & McCoy, Inc.	No Bid Submitted
Murphy & Many Constr.	No Bid Submitted
Tri Construction Co.	No Bid Submitted

The term of this contract shall be thirty (30) days from execution.

Camdele Construction Co. is the lowest eligible and responsible bid. I request your Honor's permission to award a contract to Camdele Construction Co., with offices at 154 Salem Street, Boston, MA 02113, in the amount of fifteen thousand eight hundred and thirty (\$15,830.00) dollars to perform the emergency porch repairs.

The contract is awarded pursuant to and in accordance with M.G.L. C. 30, s. 39M and, therefore, is exempt from M.G.L. C. 30B.

Respectfully,

Mary Nee,
Director.

million dollar claims have already been properly made on some of the other projects. These services will assist this Department in preparing its defense in the lawsuits and preparing a negotiating position on the claims. This contract is exempt from the provisions of M.G.L. c. 30B as it is for the services of an expert witness in anticipation of litigation.

Compensation under this contract shall not exceed nine thousand nine hundred sixty dollars (\$9,960.00), which is based on an hourly rate of \$60.00, which I have determined to be reasonable for the work to be performed. The term of this contract shall be three months from the date of execution.

Because of the nature of services to be performed, I believe that public advertising would serve no useful purpose.

Respectfully,

Mary Nee,
Director.

VETERANS' SERVICES DEPARTMENT

Veterans' Graves Registration

Flagging of Graves and Decorating Hero Squares

C3424-93
April 29, 1993

Dear Mr. Mayor:

I respectfully request your permission to dispense with public advertising and to award a contract to the Lt. Lawrence J. Flaherty Post #30, American Legion, c/o Anthony J. Giannetti, 152 Chelsea Street, East Boston, MA 02128, for the flagging of veterans graves at various Boston cemeteries and decorating hero squares on Memorial Day, May 31, 1993. This contract is awarded under the authority of the City Charter, and is exempt from the provisions of G.L. c. 30B.

Compensation under this contract shall not exceed two thousand seven hundred forty-five dollars and fifty cents (\$2,745.50) and is based upon a cost of \$1.50 for each grave flagged and \$5.00 for each hero square decorated. The term of this contract shall be from May 15, 1993, through June 30, 1993. The funds for this contract will be charged against appropriation 011-740-0741-VS-01-0290.

The Lt. Lawrence J. Flaherty Post #30, American Legion, has received a contract for the flagging of graves in these locations and the decorating of hero squares for the previous three fiscal years: 1992 received \$2,745.50; 1991 received \$2,742.50 and 1990 received \$2,579.00.

For the reason that the services to be performed are unique and that, consistent with G.L. c. 115, s. 9, contractor has traditionally taken the responsibility to dedicate itself to the decorating of graves at this particular cemetery, no solicitation of alternative price quotation is required and public advertising would serve no useful purpose. The contractor is also unique because this veterans organization is a non-profit entity that is not a contractor in any business sense.

Very truly yours,

Thomas B. Materazzo,
Commissioner.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

LAW DEPARTMENT

Legal Services

C1901-93
May 4, 1993

Dear Mr. Mayor:

On December 18, 1992, your Honor approved an award of a contract to Hare & Chaffin, a law firm located at 50 Federal Street, Boston, MA 02110, to provide legal services in the case of *Pierre v. Bates*. This contract pertains to services required by the Law Department during the period commencing November 4, 1992, and ending June 30, 1993; the total cost, as originally estimated, was not to exceed five thousand dollars (\$5,000.00) at an hourly rate of one hundred and five dollars (\$105.00).

At this time, your approval is requested to amend this contract by increasing the total amount by an additional ten thousand dollars (\$10,000.00), which I have determined to be reasonable. The contract, as amended, shall not exceed fifteen thousand dollars (\$15,000.00). The hourly rate shall remain the same and the period of performance shall remain the same.

This amendment is necessary because it is now apparent that the original contracted amount was insufficient to meet the cost of services that will be rendered in FY93. This case has reached the pre-trial stage involving extensive discovery processes and the involvement of expert witnesses and consultants which have generated expenses beyond those originally estimated.

Because of the professional nature of the services to be performed, and the reasonable cost of the services to be provided it is my opinion that public advertising would serve no useful purpose.

Sincerely,
Albert W. Wallis,
Corporation Counsel.

C1863-93
May 12, 1993

Dear Mr. Mayor:

On July 17, 1992, your Honor approved an award of a contract to John P. Roache, an attorney located at 66 Long Wharf, Boston, MA 02110, to provide legal representation for the City of Boston in five pending court actions. These services will be required by the Law Department during the period of July 1, 1992, through June 30, 1993, at a cost not to exceed forty-two thousand five hundred dollars (\$42,500.00). The contract was amended on April 14, 1993, to increase the amount an additional twelve thousand five hundred dollars (\$12,500.00).

Your approval is requested to further amend this contract to provide the same legal services previously stated. The cost of this amendment which is effective May 15, 1993, shall not exceed ten thousand dollars (\$10,000.00), which I have determined to be reasonable. The contract, as amended, shall not exceed sixty-five thousand dollars (\$65,000.00). The period of performance shall remain the same.

This amendment is necessary because the original contracted amount was insufficient to the cost of services that have been rendered.

Because of the professional nature of the services to be performed, and the reasonable cost of the services to be provided it is my opinion that public advertising would serve no useful purpose.

Sincerely,
Albert W. Wallis,
Corporation Counsel.

Expert Testimony

C192
May 13,

Dear Mr. Mayor:

On July 17, 1992, your Honor approved an award of a contract to Martin J. Kelly, M.D. individual located at 850 Boylston Street, 303, Chestnut Hill, MA 02167, for expert psychiatric review and testimony for the case *Sirigos v. City of Boston and David v. City of Boston* during the period July 1, 1992, to June 30, 1993, at the rate of two hundred dollars (\$200.00), per hour at a cost not to exceed thousand dollars (\$5,000.00).

Your approval is requested to amend this contract to provide the same expert psychiatric review and testimony. The cost of this amendment which is effective May 13, 1993, shall not exceed three thousand five hundred dollars (\$3,500.00) which I have determined to be reasonable. The contract, as amended, shall not exceed thousand five hundred dollars (\$8,500.00). The period of performance shall remain the same.

This amendment is necessary because the original contracted amount is insufficient to meet the cost of services that are expected to be rendered through the end of the contract on June 30, 1993.

Because of the professional nature of the services to be performed, and the reasonable cost of the services to be provided it is my opinion that public advertising would serve no useful purpose.

Sincerely,
Albert W. Wallis,
Corporation Counsel.

PUBLIC WORKS DEPARTMENT

Engineering Services

C769
May 7,

Dear Mr. Mayor:

On March 1, 1987, his Honor the Mayor approved the award of a contract to Universal Engineering Corporation, a Massachusetts company with offices at 100 Boylston Street, Boston, Massachusetts, for engineering services related to the reconstruction of the McArdle Street Bridge Fender System (Contract 7690 (87)) at a cost not to exceed sixty-five thousand dollars (\$65,000.00), for the period February 1, 1987, to December 30, 1988. The contract was amended for time for the periods December 1, 1988, to December 30, 1989; December 1, 1989, to December 30, 1991; and further amended to December 30, 1991, to December 31, 1993.

The contract was amended for cost on March 1, 1989, for seven thousand five hundred dollars (\$7,500.00); amended on August 21, 1989, for ten thousand one hundred dollars (\$10,100.00) and further amended on July 15, 1991, for

Twenty-eight thousand two hundred eighty-eight dollars (\$78,288.00), bringing the total cost of this contract to one hundred sixty thousand eight hundred eighty-eight dollars (\$160,888.00). This contract is exempt from the provisions of G.L. c. 30B as it is a contract for design services and as such is controlled by and awarded under G.L. c. 7, Section 38 A1/2-0.

Your permission is hereby requested to further amend this contract amount for current and additional Out-of-Scope Services. Since the contract was awarded and the work started, circumstances have arisen that an engineer, following generally accepted standards for engineering practices, reasonably would not have been able to foresee at the time the original proposal was prepared, and the contract was awarded. By order of the United States Coast Guard and new dredging proposals by the Army Corps of Engineers, the new design of the McArdle Fender System will incorporate the following:

1) The new fender system will incorporate sheet pile cofferdam dolphins at each end, and be placed as close to the bridge piers as practical without infringing on the current navigable channel.

2) Piers and dolphins will be designed to accommodate the Corps of Engineers' latest proposed dredge depth of E1. -40.00, with a two-foot allowance for over-dredge, for a total dredge depth of E1. -42.00 at the face of the front piles.

The proposed combined additional costs of the amendment shall not exceed thirty thousand, two hundred fifty-eight dollars (\$30,258.00), a fixed cost, which I have determined to be reasonable for the additional work. The contract as amended, shall not exceed one hundred ninety-thousand one hundred forty-six dollars (\$191,146.00).

In order to optimize existing time constrictions and minimize cost, and since this work is related directly to and in conjunction with an existing contract, I feel that public advertising would serve no useful purpose.

Very truly yours,
Joseph F. Casazza,
Commissioner.

C2983-86
February 26, 1993

Mr. Mayor:
On May 15, 1986, his Honor the Mayor awarded the award of a contract to Purcell Associates Consulting Engineers, a Massachusetts company, with offices at 50 Redfield Street, Boston, Massachusetts, for engineering services relative to the reconstruction of Blue Hill Avenue from Morton Street to River Street in the Dorchester section of Boston (Contract 2983 (86)) at a cost not to exceed one hundred sixty-two thousand dollars (\$162,000.00), for the period March 1986, to June 30, 1987. It was amended to one hundred sixty-six thousand one hundred fifty dollars (\$266,150.00). It was also extended for to December 31, 1993. This contract is exempt from the provisions of G.L. c. 30B as it is a contract for design services and as such is controlled by and awarded under G.L. c. 7, Section 38 A1/2-0.

Your permission is hereby requested to further amend this contract amount for current and additional Out-of-Scope Services. Since the contract

was awarded and the work started, circumstances have arisen that an engineer, following generally accepted standards for engineering practices, reasonably would not have been able to foresee at the time the original proposal was prepared, and the contract was awarded. The additional work consists of the following:

- 1) In order to complete the project, approval and authorization is necessary from the Federal Highway Administration on the proposed, revised design concept. Therefore, the contractor was required to prepare the designs, as well as schedule additional meetings with the City.
- 2) Upon receipt of approval from the Federal Highway Administration, the contractor was required to prepare and submit the 75% design for review and comments to the FHWA, the MHD Traffic Section, the BWSC, the BTD, and the BPWD.

The proposed combined additional costs of the amendment shall not exceed twenty-four thousand dollars (\$24,000.00), a fixed cost, which I have determined to be reasonable for the additional work. The contract as amended, shall not exceed two hundred ninety thousand six hundred fifty dollars (\$290,650.00).

In order to optimize existing time constrictions and minimize cost, and since this work is related directly to and in conjunction with an existing contract, I feel that public advertising would serve no useful purpose.

Very truly yours,
Joseph F. Casazza,
Commissioner.

SKIN CANCER

When the Sun Is No Longer Fun

The sun gives life — but it can also be a deadly force. Exposure to the sun is responsible for more than 90 percent of skin cancers. This year more than 500,000 Americans will develop some form of skin cancer, and between 7,000 and 8,000 will die from it. In fact, one out of every seven Americans will develop the disease during his or her lifetime.

Recent research indicates that both consistent, long-term exposure to the sun and intense periods of exposure can be equally harmful. The good news, however, is that almost every type of skin cancer is preventable.

OFFICIAL CHRONICLE, MUNICIPAL AFFAIRS

PRESIDENT, CITY COUNCIL

VOL. 85

NO. 30

ACTING MAYOR MENINO SAYS SAFETY, YOUTH, A PRIORITY

Acting Mayor Thomas M. Menino this week outlined his goals for his new administration, making public safety and youth services top priorities.

"This summer, we are going to work one street at a time, one neighborhood at a time, to ensure that Boston remains a city where families can feel safe and secure," Menino said.

"We are going to work one young person at a time to let them know that we believe in them and that their future is as bright as they are willing to make it. My first responsibility over the next few months is to ensure that the City of Boston continues to move forward — that we continue to work hard together to make Boston a place we are all proud to call home."

Menino was sworn in as Acting Mayor of the City of Boston Monday, shortly after former Mayor Raymond L. Flynn formally delivered his resignation. Flynn leaves Boston to become US Ambassador to the Vatican.

Acting Mayor Menino, on his first day in office, met with Boston Police Commissioner Bratton and members of the Boston Police Department's command staff, District Attorney Martin, and the chiefs of other law enforcement agencies that serve Boston and its neighborhoods. He directed the Police Department to formulate and implement a new safety plan for the neighborhoods — a plan he said would succeed within the framework of community policing.

Earlier in the day he met and talked with a number of teenagers about his plans to ensure that they have work, fun and safety this summer.

"I told the young people that I was going to do everything within my power as Acting Mayor to ensure that there were enough summer jobs and enough educational and recreational opportunities available to them," he said. "If we believe in young people, we need to invest in young people. It's in everyone's interest — government, the business community, and other institutions —

to provide opportunity and hope to our youth."

Menino takes office after serving several months as President of the Boston City Council and nine years as the District 5 City Councillor. He has been a key player in the City's budget process, helping guide nine consecutive balanced budgets to the Mayor's Office for approval.

"This is no time to be resting on past achievements," he said this week. "Boston is at a critical point in its history, and we must work together to move our City ever forward."

MENINO PLEDGES \$500,000 FOR YOUTH JOBS

Acting Mayor Thomas M. Menino this week reallocated \$500,000 in city funds to ensure that every young person who called the city's summer jobs "Hope Line" will get work.

The allocation came as Menino announced a three-pronged effort to increase summer job opportunities for Boston youth — a strategy that includes lobbying the state for additional jobs funding and working with the city's business community to create more work for local teens.

"As most of you know, we're facing a shortage of about 3,500 jobs this summer," Menino said. "The City of Boston has already found jobs for approximately 1,600 young people. But there are another 1,200

kids out there who have already called us for jobs who we need to help. The \$500,000 reallocation will allow us to offer a summer job to those young people."

The Acting Mayor's announcement came a day after he met with Boston Youth Clean Up Corps "Red Shirt" workers in several Boston neighborhoods. Menino talked with the youngsters last Tuesday as they filled dozens of trash bags with weeds and debris from area parks and sidewalks. He called the program a national model for summer jobs.

In addition to the new City funding, Menino is seeking an additional \$2.05 million from the state for a statewide summer jobs program. Menino wrote to the Boston delegation at the State House, urging passage of the jobs package, which would help Boston and other cities and towns employ more youngsters.

"I believe that every time we give a young person a job or something productive to do, we're making an investment in their future and in the future of the neighborhoods," Acting Mayor Menino said.

Finally, Menino challenged the city's business community and its major non-profit institutions to "go the extra step the way Boston has done" and provide more jobs for youths this summer.

"In the grand scheme of things, one or two jobs here or there may not seem like much, but it means everything to the young people who get the chance to work," the acting mayor said. "I am calling on every small business to pitch in and provide just one more job each. And I am calling on every large business to provide five, ten or twenty jobs each."

END OF AN ERA — Former Boston Mayor Raymond L. Flynn is sworn in as US Ambassador to the Vatican by Vice President Al Gore. Flynn's wife, Cathy, held the family Bible as their children watched. Thomas Menino was sworn in as Acting Mayor three days later.

CITY TRUSTS RECEIVE DESIGN AWARD, ACHIEVE TOP 15% PERFORMANCE

Boston's Treasury Department announced today that the Edward Ingersoll Browne Trust Fund has received an important design award from the Boston Preservation Alliance. It was also announced that Boston's trust fund investment performance over the last five years ranks in the top 15% of public funds nationwide.

The Browne Fund received the "Creative New Landscaping" award for the design and construction of a reading garden at the West Roxbury branch library. The Browne Fund has funded over eighty public space improvement projects, such as the James Michael Curley statues and park in Dock Square and the Angell Memorial Park in Post Office Square, totalling in excess of \$10.0 million throughout Boston. Browne Fund assets currently total \$10.8 million.

In total, the Treasury Department manages more than 265 testamentary

bequests that have been entrusted to the City since 1630. These funds are managed by the Treasury Department's Trust Office under the administration of Collector-Treasurer Lee F. Jackson. Over the last five years (ending December 31, 1992), these funds have performed in the top 15% of public funds nationwide.

Boston's trust funds have enjoyed an average rate of return of 13.1% for the last five years generating more than \$25 million in income for a variety of neighborhood projects and municipal programs. Projects funded with trust fund revenues include the renovation of neighborhood pools in Charlestown and the North End, health center improvements in East Boston and Dorchester, landscaping and pedestrian lighting at Franklin Park and Jamaica Pond as well as park renovations in Roxbury, Brighton, Roslindale, West Roxbury, South Boston and the South End. Collector-Treasurer Jackson stated that, "during these difficult financial times, it is imperative that we make every effort and use every resource available to strengthen our commit-

ment to improve the quality of life in our city's neighborhoods."

By comparison the Commonwealth of Massachusetts retirement fund (PRIT/PRIM), which realized an average rate of return of 9.5% for the same period, would have grown an additional \$375 million if it had matched the City's investment performance.

Mr. Jackson further commented that for a long time the trusts were overlooked as a source of money. "These funds were given to the City many years ago, in some cases, and went largely unnoticed," Jackson said. "We looked at these Trusts several years ago and concluded that they could serve an important role in our activities in the neighborhoods."

The enhanced performance of the Trust can be credited to the action taken by the City Trust Office more than six years ago when Robert J. Fleming, Executive Secretary of the Trust Office, working with New England Pension Consultants, restructured the Trust for long-term growth. The resulting earnings have outpaced the average fund with significantly less financial risk.

The market value of the City Trust Funds currently stands at approximately \$100 million, an increase of more than \$45 million since 1984. While this amount may be tempting to those looking for additional sources of funds in these cash-strapped times, Mr. Jackson states that restrictions in the original gift disallow spending anything but the income from these Trusts. "This makes it all the more imperative that we maximize the amount we are able to withdraw, without robbing the long-term purchasing power of these Trusts."

Jackson, whose background includes several years on Wall Street and an M.B.A. from Stanford, is quick to point out that the good returns have been achieved without taking excessive risk. "You can always find someone who invests speculatively and hits an occasional home run. We have been more conserva-

ve than the average investor, but
ve still been able to nicely exceed
at other funds have been able to

Robert Fleming noted that "every-
y tens of thousands of Boston resi-
nt, and visitors receive direct ben-
its from the City trusts. It is
atifying to know that our efforts to
hance trust fund performance have
d such a demonstrable effect in
oston's neighborhoods."

an insignificant contribution. Prizes
for the game show were donated by
Stewart's Department Stores.

Transportation Commissioner Rina

our children. Here's proof!"

More than 13,000 visitors to Baby

OUR BOSTON

Each week the *City Record* will publish the background of Boston's forty-six mayors. The information presented was collected and researched by the former editor of the *City Record* Mr. Joseph Fahey with the assistance of Robert Hannon, Chief of Research, Boston City Council, and the late Francis Moloney, former Assistant Director of the Boston Public Library.

37th Mayor
JAMES M. CURLEY
1914-1917
1922-1925
1930-1933
1946-1949

One of the most colorful and prominent figures in Boston's political history was James Michael Curley, who was elected to the office of Mayor of Boston four times.

James Michael Curley was born on November 20, 1874, the second surviving son of his Irish immigrant parents. Their home was at 28 Northampton Street, Boston, which at that time fringed Boston Harbor.

His father, Michael Curley, and mother, then Sarah Clancy, had both arrived on Boston's shores from County Galway, Ireland, in 1864, though they were on separate ships, and not acquainted with each other at the time. By that time, the immigrants escaping the potato famine in their native Ireland numbered 50,000 of Boston's total population of 310,000, and accounted for a third of the City of Boston's registered voters. The ward boss was firmly established along the waterfront, and Michael Curley, father of James, obtained work as a hod carrier for the rising boss of Ward 17, P. J. (known as Pea Jacket) Maguire.

Michael Curley remained a hod carrier for Maguire, and he and Sarah Clancy were married in 1871.

When James Michael Curley was old enough, he attended public school, along with his older brother John. At the age of ten, he went to work selling papers, and soon afterward, his father died, at the age of thirty-four.

The period following his father's death left a deep impression on him. His mother was forced to work as a scrubwoman, working nights in office buildings, to support him and his brother, though they both obtained part-time work to contribute money to maintain their household.

When James graduated from school, he went to work for a grocer, C. S. Johnson, delivering groceries in a horse-drawn cart. He spent his free evenings at "One-Arm" Peter Whalen's cigar store, which had become a regular stop on every politician's list. It was there he became indoctrinated into ward politics. From the store he was petitioned to canvass for various officeholders as he delivered Johnson's groceries. His politics began to interfere with his job, so he decided to give up the grocery business.

He reached voting age in 1895, and in 1896 campaigned against the ward boss's choice for mayor, Thomas Hart, and worked for the election of Owen Galvin instead. Though Galvin lost the election, young James M. Curley became a figure to be reckoned with in Ward 17.

When the next election time arrived, James Michael Curley ran for Common Council. Opposed by ward boss Pea Jacket Maguire, he lost that bid. Undaunted, he ran for Common Council a second time, and won a seat for the 1900-1901 term.

As a freshman councillor, he was responsible for the order to provide a permanent half-holiday on Saturday to city employees. He began to establish his reputation as a friend of the workingman.

In 1900, still serving as councillor he ran for chairman of the Ward 17 Democratic Committee. Running against his old adversary, P. J. Maguire, he found the contest vicious. When the votes were counted, though, James M. Curley twenty-six, was boss of Ward 17.

Politics became his full-time job. He formed the Tammany Club in Roxbury, a group of loyal political supporters he carried with him throughout his political career. In 1901, when his term as councillor ended, he took the next political step, and won the contest as state representative for the 1902-1903 term. In the legislature he concentrated on labor measures and furthered his political education, developing his art of public speaking. Even his enemies concurred that an orator James Michael had no peer.

After his term as state representative, he was successful in his bid for the Board of Aldermen, the higher body of Boston's bicameral government. Curley was a member of the Board of Aldermen from 1903 to 1909.

Alderman Curley met Mary J. Herlihy at St. Philip Church, on Harrison Avenue, at a minstrel show, and after a steady courtship they were married on June 27, 1901.

When James Michael Curley returned to the City Council in 1911, he was under great expense since a councillor was poorly compensated then, he decided to try for the higher salary and position of Congressman.

Boston had never seen such showmanship in a political campaign. Candidate Curley gathered more publicity than any other political candidate in the city's history. In 1911, James Michael Curley's family joined him in Washington, where he served two terms as a Congressman, until 1914.

Mr. Curley wasn't happy in Congress. It was too far away from his ward and his city. In 1914,

returned to Boston and announced his candidacy for Mayor. He ran against the popular John F. Fitzgerald, who was running for reelection. Congressman Curley had consulted none of the ward bosses about his candidacy, a great break in tradition, and a battle was brewing. Mr. Fitzgerald dropped out of the election, and the panicked city committee chose a scholarly lawyer, Thomas Kenny, as James Curley's opponent, but since Mr. Curley's showmanship improved with each campaign, the outcome was no surprise. James Michael Curley began his first term as Mayor of Boston in 1914.

As Mayor of Boston, he reshuffled 100 city employees. It was no coincidence that most of those who were transferred had worked for Thomas Kenny. Mayor Curley plainly declared: "Mr. Fitzgerald has left in office a number of people who are hostile to me, and as I have no desire to be ambushed in my own camp, I am removing them. Every time I drop a friend of his from the payroll, I substitute an equally competent citizen, who has the additional advantage of being a friend of mine."

Mayor Curley's first term established the Curley machine and what became known as "Curleyism" in Boston politics. Because of his policy of personally seeing any citizen who came to his office, he eliminated the ward boss system, and ward boundary lines were never again important in mayoral campaigns. He started Boston on a spending spree, and reconstruction of the city was prolific. Many jobless persons in the city gained employment.

During the first year of his mayoral term, the United States was at war, which kept business booming. Unemployment was not an issue. The ward bosses were hungry for control of the city again, and the bankers and financiers had become angry and frightened by the ease in taxation caused by Mayor Curley's spending. Andrew J. Peters, Republican of unquestionable integrity, defeated Mr. Curley for

mayor, and started his term in 1918. James Michael Curley became politically unemployed for the first time in eighteen years.

James Michael Curley returned as Mayor of Boston for his second term in 1922, successfully defeating John R. Murphy. He embarked once again on reconstruction of the city, wiping out slums, building roads, and expanding City Hospital.

While serving this second term, Mayor Curley made an unsuccessful attempt to become governor of Massachusetts. He was defeated by Alvan T. Fuller, who had been the Republican lieutenant governor.

Mayor Curley returned to City Hall, and one of his accomplishments during his second administration was the establishment of the George Robert White fund for the administration of seven new health units.

Since a statute had been added to the city charter to prevent a mayor from succeeding himself, Mr. Curley did not serve his third term until 1930. Within months after his election, bulldozers were knocking down buildings. He revitalized all of Boston's beaches, including the now world-famous L Street bathhouse.

His personal life was one of great tragedy during this period. His beloved wife died, and six months later his son James Michael, Jr., died also. Five of his family members were now dead, including the twins, and his daughter Dorothea, who had died six years earlier.

From his position as Mayor of Boston, he again ran for governor of Massachusetts, this time against Republican Gaspar G. Bacon. Mayor Curley's record in Boston was good. He kept the people working. On his second try, James Michael became governor of Massachusetts.

His two years as governor have been chronicled as having produced some phenomenal successes. One of his better legacies as governor was the establishment of one of the most efficient tax departments in the country.

In 1936, James Michael Curley was defeated for the United States

Senate seat by Henry Cabot Lodge, Jr.

In 1937, prior to leaving the governor's office, James M. Curley married Gertrude Casey Dennis. That same year, 1937, he was defeated in his next bid for Mayor of Boston by young Maurice J. Tobin of Mission Hill, Roxbury. The defeat was bitter, for Maurice Tobin had learned the art of politics from the great James Michael.

Mr. Curley gained the Democratic nomination for governor in 1938, but lost the election to Republican Leverett Saltonstall. He later ran for Congress and won, serving from 1943 to 1946.

Again he returned to Boston as mayor in 1945, with the great support of Boston's voters.

James Michael Curley died on November 12, 1958. His body was viewed by thousands in the rotunda of the State House. His final resting place is in Calvary Cemetery, Dorchester, Mass.

LECTURE

SEPTEMBER 1993

What Follows Six Is More Than Seven: Understanding African Art

Rowland Abiodun, professor of fine arts and black studies, Amherst College, Wednesday, September 29, at 7:30 p.m. Remis Auditorium.

The African proverb, "What follows six is more than seven," tells us that we must look beyond what is easily observed to understand a thing. In the West, appreciation of African art is still tied to its role as a catalyst for revolutionary, early 20th-century art by Picasso, Matisse, and others. But we must now look beneath the surface to understand the art as an expression of the thoughts and beliefs of African peoples. In this lecture, Professor Abiodun will lead us away from a western perspective toward a deeper understanding of African aesthetics.

TICKETS: \$7.50, Museum members, students; \$9, general admission. To charge tickets to VISA or MasterCard, call 267-9300 x306. CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

ADMINISTRATIVE SERVICES DEPARTMENT

Office of Budget & Program Evaluation

Consultant Services

C1277-93
May 17, 1993

Dear Mr. Mayor:
I respectfully request your permission to dispense with public advertising and to award a contract to Morgan Memorial Inc., a non-profit corporation located at 1010 Harrison Avenue, Boston, MA 02119, for the provision of administrative and consultative services to the Mayor's Health Care Commission. This contract is awarded under the authority of the City Charter and is exempt from the provisions of G.L. c. 30B because it is a contract with a non-profit organization to carry out a public purpose of support or stimulation rather than procuring supplies or services for the use or benefit of the City.
Under the terms of the contract, Morgan Memorial will provide staff support to, and serve as fiscal agent for, the Mayor's Health Care Commission. The President and CEO of Morgan Memorial is a member of the Commission which is charged with:

- a. Recommending appropriate roles and relationships among the neighborhood health centers, teaching hospitals, and the Department of Health and Hospitals to improve public health and provide access to primary care for Boston residents;
- b. Developing strategies to assure the long term programmatic and financial viability of the new 357-bed Boston City Hospital; and
- c. Anticipating the likelihood of health care reform, recommending a health care delivery system model that best serves Boston residents.

Compensation under this contract shall cover one (1) full-time permanent staff director, one (1) full-time secretary, office expenses, fees for consultant(s) selected by the Commission through an RFP process, and miscellaneous related expenditures, all in accordance with the budget attached hereto. The term of this contract is March 1, 1993, to June 30, 1994.

The cost of the Commission's expenses will be shared equally by the City of Boston and member hospitals of the Conference of Boston Teaching Hospitals. The City's share, and the amount of this contract, shall not exceed three hundred eighty-four thousand three hundred seventy dollars (\$384,370), subject to the availability of an appropriation in subsequent fiscal years, an amount which I have determined to be reasonable for the work to be performed.

Because the President and CEO of Morgan Memorial serves on the Commission and has volunteered Morgan Memorial to provide fiscal and administrative services to the Commission at no cost, I believe that public advertising would serve no useful purpose and that the award of this contract is in the City's best interest.

This request for your approval is being processed late due to extended negotiations to finalize the scope of services covered under this contract.

Sincerely,
Barbara Gottschalk,
Director.

December 14, 1992

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the Trustees of Boston University, acting by the Boston University School of Medicine, a corporation, located at 80 East Concord Street, Boston, MA 02118, for provision of a professional staff of qualified anesthesiologists. This contract is exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter.

The term of this contract shall be July 1, 1992, to June 30, 1993.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

May 13, 1993

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Medicus Systems Corporation, located at One Rotary Center, Suite 400, Evanston, IL 60201, for maintenance of the Nursing Patient Classification System. This contract is exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter.

Under this contract Medicus Systems Corporation will support and maintain the hardware/software of the Nursing Patient Classification System located at Boston City Hospital and Boston Specialty and Rehabilitation Hospital. The maintenance cost is thirty-seven thousand three hundred ninety dollars (\$37,390.00), an additional twenty-two thousand dollars (\$22,000.00) has been included for consultant services. The consultant fee is one thousand dollars (\$1,000.00) per eight-hour day. Thirty-three thousand three hundred ten dollars (\$33,310.00) has been included for forms/cards which cost as follows:

Interact Type VI	\$83.00/1000
Emerge Cards	\$60.00/1000
LADPAQ Forms	\$75.00/1000
LADPAQ Procedure Forms	\$83.00/1000
Classification Tool	\$83.00/1000

The cost of the forms/cards is subject to increase.

Compensation under this contract shall not exceed ninety-two thousand seven hundred dollars (\$92,700.00) which I have determined to be reasonable for the work to be performed.

The term of this contract shall be March 1, 1993, through February 28, 1995.

This award is being processed late because the request for contract was not received from the department until March 31, 1993, and the necessary documents were not returned from the vendor until April 15, 1993.

Because Medicus Systems Corporation is the manufacturer of the equipment, because the software is proprietary and also because the cost, in my opinion, is reasonable no benefit would inure to the City by publicly advertising for bids.

This contract encompasses more than one fiscal year and the City's financial obligations are subject to the availability of an appropriation in accordance with the requirements of City of Boston Code, St. 4, ss. 4 & 8.

Very truly yours,

Judith Kurland,

POLICE DEPARTMENT

Catering Services

C2828-93
April 5, 1993

Mr. Mayor Flynn:
I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Famolare Enterprises Inc., d/b/a Famolare Caterers, located at 301 E Street, South Boston, MA 02127. Under the terms of this contract, Famolare Caterers supplied coffee and assorted donuts to the one thousand (1,000) guests at the funeral of Police Officer Thomas Rose. As you are aware, the entire department was astounded by the news of the loss of this officer while in the line of duty. Due to the fact that there is insufficient time to publicly advertise for any of the necessary funeral services, the Bureau of Administrative Services solicited three (3) quotes on February 23, 1993, from vendors engaged in catering services. The vendors were asked to supply coffee and assorted donuts to two (2) locations, the marching site at One Victory Road, Dorchester and the DPW at Granite Avenue. The bids were as follows:
Magic Downeast Chowder, Co., 109 East Keely Street, Boston, MA 02119: Three (3) phone calls with no response.
Famolare Caterers, 301 E Street, South Boston, MA 02127: Two dollars and seventy-five cents (\$2.75) per person.
Bernie's Deli, 295 D Street, South Boston, MA 02127: Three dollars (\$3.00) per person.
The bid submitted by Famolare Caterers reflects coffee and donuts fully delivered at a price of two dollars and seventy-five cents (\$2.75) per person, a price I deem reasonable given the short time presented to all vendors.
Compensation under this contract shall not exceed more than two thousand, seven hundred and seventy dollars (\$2,750.00). The term of this contract was February 24, 1993. Given the fact there is insufficient time to publicly advertise for this and that three (3) quotes were solicited in accordance with M.G.L. c. 30B, I respectfully request your Honor's approval.
This contract is submitted late due to the nature of the contract (that of funeral provisions) and the fact that paperwork could not be completed by my party until after the conclusion of this tragedy.

Respectfully,
Francis M. Roache,
Commissioner.

The contractor is specially qualified to do this work because the firm has met the specifications for the training and has submitted the lowest quote.

Prior to selecting Professional Development Group, alternative vendors were solicited by three written quotes.

Compensation under this contract shall not exceed three thousand eight hundred dollars (\$3,800.00), which I have determined to be reasonable for the work to be performed. The term of this contract shall be from May 7, 1993, to June 30, 1993.

Because of the contractor's ability to provide the required PC training and the reasonable cost of these services, I believe that public advertising would serve no useful purpose.

Sincerely,
James F. O'Donnell,
Executive Officer.

MAYORAL PROCLAMATION IN SUPPORT OF SAFE KIDS WEEK

Greater Boston

SAFE KIDS

A Mayoral Proclamation in support of Safe Kids Week was presented by Edwina Cloherty (Boston Transportation Department) at the "Be Safe On Your Bike" rally recently held at the State House. Information on bike helmet legislation (S. 1078), a presentation of bike safety teaching kits and raffles for bicycles and other prizes were all part of the event.

The Greater Boston Safe Kids Coalition includes representatives of programs within several City of Boston Departments: Fire (Fire Safety Education), Health and Hospitals (Child Injury and Prevention Program), and Transportation (Keep Boston Moving Safely). Other state and federal agencies and health associations also participate.

Kim Hesse (Massachusetts Department of Public Health), Alison Cohen (National Highway Traffic Safety Administration), Barbara McEachern (U. S. Consumer Products Safety Commission), and Steve Petrycki (Boston Children's Hospital) planned the rally under the direction of Kim Wolski, acting chair of the Greater Boston Safe Kids Coalition.

Beth Blanchette (Massachusetts Governor's Highway Safety Bureau), Elaine Mesiti and Paul Covington (Boston Fire Department), and Diane Butkus (Massachusetts Department of Public Health) each contributed significantly to implementing the plans: securing speakers, obtaining prizes and setting up displays. More than 100 people attended the rally.

Michelle Sorocco can smile again, thanks to the care she received from South Shore Visiting Nurse and Health Services, an agency supported by the United Way of Massachusetts Bay.

LOCAL WOMAN RECEIVES THE GREATEST GIFT OF ALL

By Tony Ferullo

In celebrating her 20th birthday recently, Michelle Sorocco of Holbrook received the greatest gift of all — her independence.

"Discharging her from our care was our present to her," said Donna Cogswell of South Shore Visiting Nurse and Health Services in Braintree. "She was ready to be on her own and we were very proud of what she had accomplished."

Sorocco, who was born with cerebral palsy, had major surgery on her left leg in October of 1992. She left Children's Hospital in Boston uncertain how she would be able to function each day wearing a cast that went from her hip to her toes.

"There were times when things got real bad," she said. "I started having anxiety attacks. It got to the point where I would just scream to break the tension."

Christine Sorocco, Michelle's mother, remembers some of the fran-

tic calls she received at work. "Michelle would call me saying she couldn't breathe," explained Mrs. Sorocco. "I would just stop what I was doing and rush home."

Life regained normalcy in the Sorocco household upon the arrival of South Shore Visiting Nurse and Health Services, an agency supported by the United Way of Massachusetts Bay. Over the course of eight months, Michelle Sorocco received physical therapy, occupational therapy, home health aide assistance and rehabilitation nursing care in the security of her own home.

"They were extremely helpful and always there when I needed them," said Michelle of the people at South Shore Visiting Nurse and Health Services. "I don't know what I would've done without them."

Thanks to South Shore Visiting Nurse and Health Services, her condition steadily improved, highlighted by her walking up and down a flight of stairs (with the help of crutches and leg braces).

"The first time it was scary because I had a fear of falling," she said. "I really didn't know what to expect."

Her achievement produced plenty of happy faces at South Shore Visiting Nurse and Health Services, an agency which serves people from 15 South Shore communities. "We've all been impressed with Michelle's progression," said Cogswell, a certified registered rehabilitation nurse. "She's a real go-getter, someone who never gives up. She has worked hard to get where she is today."

Right now, Sorocco, a 1991 graduate of Holbrook High School, is enjoying life. She likes shopping, listening to music, and going out to eat with her boyfriend, Dan Toy, who lives only a few houses away. She is in the process of getting her driver's license, allowing her the freedom of getting around on her own. In a couple of months, she will be attending Massasoit Community College in Brockton.

Her dream is to have a career in broadcasting. "I want to become a

radio personality," she said. "I think it would be fun."

Don't bet against her. Michelle Sorocco prides herself in setting goals and then going out and attaining them. Her passion to succeed is matched only by her determination to conquer any obstacle that gets in her way.

"When people say I can't do something, I like proving them wrong," she said. "One day when I was sick, I looked in the mirror and told myself that I can get over this and be able to do anything I want with my life. I still believe that."

AIDS ACTION COMMITTEE WINS IMPORTANT GRANT

Mary Nee (center), Director of the City of Boston Public Facilities Department (PFD), presents the AIDS Action Committee of Massachusetts with a check for \$524,000 in federal grant funding from the U.S. Department of Housing and Urban Development (HUD). The grant funds were made available under Housing Opportunities For People With AIDS (HOPWA), a HUD program which provides funds for emergency housing assistance and housing counseling to people living with AIDS and their families.

Through a grant application filed by PFD, the City of Boston received more than \$1 million out of the \$47 million in competitive HOPWA funds available in Fiscal Year 1992. PFD also awarded the AIDS Housing Corporation \$65,000 to provide technical assistance to organizations developing low-income housing for people with AIDS and to organize a conference regarding the provision of services to people with AIDS.

Joining Mary Nee from AIDS Action Committee (left to right) are Robert Greenwald, Director of Public Policy and Legal Affairs; Cheryl Schaffer, Acting Executive Director; Harold Cox, Director of Client Services; and Cyndi Koeber, Housing Resource Developer.

OUR BOSTON

Each week the *City Record* will publish the background of Boston's forty-six mayors. The information presented was collected and researched by the former editor of the *City Record* Mr. Joseph Fahey with the assistance of Robert Hannon, Chief of Research, Boston City Council, and the late Francis Moloney, former Assistant Director of the Boston Public Library.

38th Mayor ANDREW J. PETERS 1918-1921

Andrew J. Peters was born in Jamaica Plain April 3, 1872. He prepared for college at St. Paul's School, where he excelled in athletics, particularly aquatic sports. He was a clever oarsman and skipper, and swimming was also a favorite pastime.

He entered Harvard College in 1892. While at Harvard, he maintained his interest in sports, but never allowed it to interfere with his studies. Mr. Peters received his degree in 1895, and entered Harvard's Law School, obtaining his law degree in three years.

Mr. Peters entered the political arena in 1901, running as the Democratic candidate for State Representative in his district. Although campaigning in a heavily Republican district, he was successful in his effort, and entered the House of Representatives in 1902.

From 1904 to 1905 he was a member of the Massachusetts Senate, and in 1911, he served as United States Congressman from the Eleventh District, and served four terms as Congressman.

In 1910, Mr. Andrews married Martha R. Phillips, a descendant of John P. Phillips, the first mayor of Boston. Six sons were born to them, but two died at a young age.

Andrew J. Peters' reputation as a man of integrity helped elect him Mayor of Boston in 1917, and he served from 1918 to 1921.

During his administration, he concentrated on fiscal responsibility for the city. He consolidated many departments for this purpose, and he was a proponent of a "metropolitan control" system that eventually became reality in 1930 under Mayor James M. Curley, when the Metropolitan District Commission was established.

Unfortunately, Mayor Peters' administration was marred by the

great Boston police strike, which occurred September 8, 1919. Prominent citizens enrolled as special police to protect the city during the strike, and the State Guard was called out. Mayor Peters refused the strikers' demands; the strike was broken; and all strikers, who were the majority of the force, were discharged.

Although Mayor Peters himself was of the highest integrity, a few less than honest persons disgraced his administration, and he left his office a disillusioned man.

Mr. Peters subsequently served as Assistant Secretary of the Treasury. He died on June 26, 1938.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

SCHOOL DEPARTMENT

Legal Services

C-7211-93
April 2, 1993

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to the following firm for confidential legal investigative services:

Legal Investigative Consultants, Inc.
6 Beacon Street
Suite 215
Boston, MA 02108

This contract is exempt from the provisions of G.L. c. 30B because it is for expert investigative services in anticipation of litigation and is, therefore, awarded under the authority of the City Charter.

Under the terms of this contract, the contractor will perform investigative, examination and inspection functions as directed by the Corporation Counsel or his designee, and to provide such oral and written reports as may be requested from time to time. The specialized nature of these services require the expertise which this contractor is able to provide and which is needed for effective litigation strategy and results. The contractor is uniquely qualified to do this work because it will provide personnel with the requisite education, training and experience to perform the stated functions. The contractor was solicited based upon its reputation and demonstrated experience and competency.

Compensation under this contract shall not exceed twenty-one thousand dollars (\$21,000.00) at an hourly rate of forty-five dollars (\$45.00) for actual time. Also included in the contract is an amount for reimbursement of necessary and reasonable expenses incurred in the performance of the contract subject to prior Law Department approval. I have determined the hourly rate of compensation to be reasonable for the work to be performed. The term of this contract shall be from April 30, 1993, through June 30, 1994.

Because of the professional nature of the services to be performed and the reasonable cost of the services to be provided and because of the importance of not jeopardizing the security and confidentiality of these services, it is my opinion that public advertising would serve no useful purpose. Submission of this letter has been delayed pending receipt of the completed contract documents.

Very truly yours,

Robert S. Roy,
Director.

SUFFOLK COUNTY SHERIFF'S DEPARTMENT

Medical Examinations

C2984-93
March 31, 1993

Dear Mr. Mayor:

Your Honor's permission is requested to dispense with public advertising and to award a contract for professional services to Workers Comp Management, Inc., a Pennsylvania corporation

located at Highpoint Business Campus, Suite 215, Chalfont, PA 18914, for the period of April 1 through June 30, 1993, in an amount not to exceed thirty thousand dollars (\$30,000.00).

Under the terms of this contract, Workers Comp Management, Inc. will provide initial and follow-up medical examinations related to on-the-job injury claims of staff of the Suffolk County Sheriff's Department at the request of the Suffolk County Sheriff or his designee.

Workers Comp Management Inc. shall provide the above-mentioned services at the rates set forth in the specifications attached hereto and incorporated herein.

This contract is exempt from G.L. c. 30B by s1, clause (b), sub-clause 16 thereof and is being awarded under the authority of the City Charter. Because of the professional nature of the services to be rendered, I believe that public advertising for this contract would serve no useful purpose.

Very truly yours,

Robert C. Rufo,
Sheriff.

HEALTH COMMISSIONER CONDUCTS SITE VISIT

Boston Health Commissioner Larry Dwyer received a big welcome last week from patient Joanna Clements at Boston Specialty & Rehabilitation Hospital in Mattapan. Commissioner Dwyer toured the city's specialty hospital with Hospital Director Dorothy Turner-Small, R.N. (center) to announce a new agreement with Harvard Community Health Plan.

Boston Health Commissioner Lawrence A. Dwyer conducted a site visit July 22 at Boston Specialty and Rehabilitation Hospital in Mattapan, the city's newly renovated subacute hospital within the Department of Health and Hospitals.

Commissioner Dwyer informed Mattapan community leaders, hospital staff and patients that a new provider agreement between the hospital and Harvard Community Health Plan (HCHP) has just been signed. This is the second agreement between HCHP and the city's public hospitals over the last six months. In March, HCHP signed a provider contract with the primary care physicians at Boston City Hospital that vastly expanded the eligibility of HCHP members to receive quality health care at BCH. The agreement, announced in Mattapan, is a natural extension of the full-services contract with HCHP at BCH. The result of extensive negotiations, reviews and site visits by HCHP, the new provider relationship recognizes clinical and facilities improvements at Boston Specialty which make it one of the leading hospitals facing the transition from chronic to specialty care.

Currently, Boston Specialty Hospital has contractual agreements for patient care with other managed care health plans, including Neighborhood Health Plan and Community Medical Associates.

Helping to secure an additional \$3.3 million in support for Boston

Specialty in this fiscal year's budget was one of the first efforts made by Commissioner Dwyer in his new appointment at Health & Hospitals this month. The additional funding will enable BSRH to continue its turnaround strategy as a provider of specialty care.

"We have a one-year window," said Commissioner Dwyer, "and the responsibility rests with all of us, the hospital, department and communities served by Boston Specialty, to work together to overcome the obstacles facing BSRH. We must demonstrate self-sufficiency, discipline and ingenuity."

Currently, the former chronic disease hospital on River Street which was re-dedicated one year ago to a new mission of specialty care in response to state reimbursement policy changes, has driven down daily bed costs; shortened the average length of stay (ALOS) for patients; increased its volume; and, reduced its operating deficit from \$7 million in FY92 to less than \$2 million (projected) in this fiscal year.

Dwyer pointed out, however, that the most important successes have been the ability of BSRH to return patients to their own homes, after shorter hospital stays, and avoid the nursing home choices which have so often faced families in the past.

Recognizing the progress to date, Commissioner Dwyer and Hospital Director Dorothy Turner-Small, R.N., reviewed for community leaders, including Rodney Taylor, director of the Mattapan Community Health Center, a number of future opportunities for Boston Specialty that are being aggressively pursued, including:

- community health services on the campus of BSRH;
- state interest in extensive medical/service beds at BSRH;
- linkages with private support & BSRH funding;
- research-related leasing of beds; and,
- managed care plans looking for contracts with BSRH.

MENINO FREEZES WATER RATES

*Says homeowners, businesses,
need help*

Acting Mayor Thomas M. Menino last week ordered the Boston Water and Sewer Commission to freeze water rates — killing a planned 4.5 percent price hike and bringing rate relief to beleaguered consumers.

"Skyrocketing water and sewer rates are having a devastating effect on homeowners and businesses in Boston and throughout Massachusetts," Menino said. "I have made rate relief a priority of my administration."

As water and sewer rates continue to skyrocket throughout the state, Menino last Wednesday ordered Water and Sewer Commissioner Bob Ciolek to ensure that Boston customers will have no rate increase in Fiscal Year 1994, which began earlier this month.

Sam Tyler, head of the Municipal Research Bureau, an independent financial watchdog agency, later told reporters that the move is "good news for the ratepayers in Boston."

The Menino-ordered zero increase in water rates for 1994 comes after the Boston Water and Sewer Commission projected an 11 percent increase in rates this fiscal year. Through effective management techniques, Ciolek and the Water and Sewer Commission were able to reduce that increase in half.

"I told him that wasn't good enough," Menino said. "A zero percent increase is what homeowners and businesses need, and that's what they're going to get."

The Acting Mayor said he has worked with State officials to bring rate relief to Boston residents, working for the recent signing of a \$30 million "debt service assistance package" by the governor and the legislature.

In addition to ordering a freeze in water rates, Menino directed the Water and Sewer Commission to continue to reduce operating costs and to defer plans for capital borrowing that are not necessary at this time — but which would have raised costs substantially.

Shut-off concerns

Water customers in Boston have been facing some of the steepest increases in history to pay for the Boston Harbor cleanup — a project mandated by federal court without enough federal funding — and some have been unable to keep up with their payments.

"In these tough economic times, it's important that we make every possible effort to protect the poor, the elderly, and people out of work, from water service shut-offs," Menino said, shortly after announcing the rate freeze.

"I have instructed the Water and Sewer Commission to review its shut-off policies and procedures. He will present me with a plan in two weeks that will propose revisions to further expand the safety net so that innocent rate payers do not have their water services terminated."

Menino did, however, have strong words for those who intentionally try to cheat the system.

"To issue a blanket policy banning shut-offs would be a blessing to those few who have cheated," he said. "And it would be a slap in the face to the good people who work hard and make an honest effort to pay their bills."

MENINO SAYS "BEAT COPS" NOW PLAY KEY ROLE IN CITY SERVICE DELIVERY

Acting Mayor Thomas M. Menino last week ordered "neighborhood policing" to go one step further, saying that when residents ask beat cops for basic city services, those requests will now get top priority.

Calling the idea "common sense," Menino said the new way of doing business will allow police officers walking the beat to help make neighborhoods safer.

"One of the key concepts behind neighborhood policing is its active approach to problem solving in the neighborhoods," Acting Mayor Menino said last week. "To deal with crime and fear in the fullest sense, we can not be content to simply make arrests after a crime has occurred. We must find ways to stop crime before it happens. Part of this means making our neighborhoods attractive places that discourage criminal activity and give residents a feeling of order and security."

In outlining the new approach, city officials said if a street light is broken or a stop sign missing, a neighborhood resident can speak directly with the beat cop, who will relay the problem to the community service officer.

Working with the Mayor's Office of Neighborhood Services, the community policing officer will ensure that the appropriate City department or agency addresses the problem quickly. More than 100 community policing officers are assigned to the city's neighborhoods, and each will be trained in handling requests for basic city services and identifying which agency is involved.

The Mayor's Office of Neighborhood Services and its 24-Hour Constituent Services Hotline (635-4500) will play a key role in the development of this new approach to neighborhood policing, officials said. Calls from the community service officers will go to ONS coordinators and 24-hour personnel, which will make the calls a top priority.

"As Acting Mayor, I take pride in the ability of my administration to respond to neighborhood issues rapidly and effectively," Menino said. "So I am pleased to have Commissioner Bratton and Boston's finest playing such a vital and visible role in keeping our neighborhoods safe and secure. Working one street at a time, one neighborhood at a time, we are making Boston a city that all people will be proud to call home."

"MAKE WATER RIGHT AGAIN"

By Douglas B. MacDonald

In this year's MWRA essay and poster contest, more than 5,000 entrants focused on why it is important to continue to conserve water and improve water quality. In verse, prose and rap, students in grades 4 to 12 impressed MWRA judges with their understanding of the need for water conservation and the environmental and economic necessity for completing the Boston Harbor Project. The writers expressed support for the improved condition of the harbor and the hard work — and investments — required to preserve this vital natural resource.

Daniele Minichiello from Revere High School set a tone followed by many of the contest entrants. She ordained "The Constitution of Boston Harbor" on behalf of the residents of Massachusetts: "to establish our beautiful beaches once again, to provide beauty for us and the tourists of the world, and to secure the lives of Boston Harbor's inhabitants..."

Revere student Maura Harrington from the Whelan School added a poignant note to her essay. Urging everyone to pitch in now and preserve our precious environment, Maura wrote: "I've lived in Revere all of my life and only swam in Revere's Beach once...My parents tell me stories about when they were young and used to spend summers at the beach, swimming [yet] they won't let me swim because of pollution in the water." Even now, this story is changing.

Memory and fantasy are combined in an essay by Jennifer Hill from Quincy's Central Middle School. Jennifer imag-

ined sitting on a Boston Harbor beach watching her grandchildren playing in the water. Jennifer listed the changes made by the MWRA — a sludge processing plant, regulating chemical discharges and limiting toxic waste dumping — and advised us to "forget the good old days." It wasn't easy to heal the harbor but the MWRA and the communities worked together to do it.

Timothy Haire of Worcester's Burncoat Middle School used a rhyme to describe the beneficial reuse of sludge that the MWRA now sells to growers and landscapers:

They took out the sludge

And dried it 'til hard.

To make into fertilizer

To spread 'round the yard

Weston's James Ollen-Smith from the Woodland School continued in the same vein, creating a fish named Alf who may survive because folk have started to care:

Alf thought for a moment,

Then said, "I'll stay.

Cause I know Boston Harbor,

Will be clean one day."

These young writers understand that there is a high cost associated with making water and sewer infrastructure improvements, but they argue persuasively for their future. Andrew Nighswander from the Marblehead Middle School agrees that Boston area waters are clearer and cleaner than at any time in his life. The main question now is how to pay for "a gleaming harbor with great recreational uses, healthy, thriving wildlife and clear water. . . ." Andrew suggested that the federal government help ratepayers with clean water costs as they do with new highway construction. Otherwise, it's clear to him that "we still value a faster commute over a cleaner environment."

Environmentalism Shannon McCue from Everett's Webster School imagined the "Make Water Right Again" — or MWRA — club of children and adults who accepted the challenge to help the harbor and worked until they saw victory. Russell Simmons from Swampscott High School recalled when his grandfather would catch, clean and cook his dinner from harbor waters.

The memories of those fishing trips are very special, and he would like other children to enjoy fishing as he did with his grandfather.

The last word belongs to Brian Mardirosian from Boston Latin School whose description of 3 days recently spent on the harbor verify that the Boston Harbor Project has truly made a difference:

At night, near the mouth of the harbor, the stars shone brightly as the calm rocking of the boat lulled us to sleep. Wildlife abounded; the bluefish were running, forcing sardines up towards the surface, . . . crabs were seen during low tide between the rocks . . . A passing lobsterman shows us his catch of lobster, tasty as any [and] the harbor seal . . . stayed beside our boat while we ate dinner.

Thanks Brian, and all of the contest entrants, for reminding us of the beauty and value of our unique harbor and of the young men and women who will inherit its future.

Douglas B. MacDonald is the Executive Director of the Massachusetts Water Resources Authority.

When the Sun Is No Longer Fun

The sun gives life — but it can also be a deadly force. Exposure to the sun is responsible for more than 90 percent of skin cancers. This year more than 500,000 Americans will develop some form of skin cancer, and between 7,000 and 8,000 will die from it. In fact, one out of every seven Americans will develop the disease during his or her lifetime.

Recent research indicates that both consistent, long-term exposure to the sun and intense periods of exposure can be equally harmful. The good news, however, is that almost every type of skin cancer is preventable.

MWRA BOARD TO ADOPT NEW STANDARDS FOR FINANCE FIRMS

BOSTON — The Board of Directors of the Massachusetts Water Resources Authority (MWRA) recently voted to distribute for public comment a new set of fiduciary standards that would require financial advisors and underwriters to provide the agency with complete disclosure regarding business relationships between them.

A report prepared by Gerald Rath, a partner in the Boston law firm of Bingham, Dana and Gould, recommended that the Authority take a number of steps to ensure the integrity of its financing programs by defining both prohibited conduct and the disclosure of business relationships.

The specific recommendations include requiring written disclosure of potential conflicts of interest and the appearance of conflict through the adoption of a Statement of Fiduciary Responsibility Standards.

MWRA Executive Director Douglas B. MacDonald said that the adoption of the guidelines would put the Authority in a leadership position nationally among public agencies. "We are looking to be out front in the movement to provide the municipal bond industry with improved standards," MacDonald said. "We want to start a new chapter in municipal finance by requiring a lot more disclosure than issuers have in the past."

At the same meeting, the MWRA dismissed First Albany, its financial advisor and its underwriting team, led by Merrill Lynch, Goldman Sachs and Bear Stearns.

The MWRA has issued \$3 billion of the \$6 billion worth of bonds necessary for the Boston Harbor Project and associated work on eastern Massachusetts water and sewer systems.

MASSACHUSETTS WATER RESOURCES AUTHORITY AWARDS \$140 MILLION CONTRACT TO CONSTRUCT SECONDARY SEWERAGE TREATMENT FACILITIES

The Massachusetts Water Resources Authority recently announced the award of a \$140.4 million contract to the J.F. White/PKF Mark, III companies of Newton to construct two secondary sewerage treatment facilities at Deer Island.

The contract is the third largest awarded by the MWRA to date and will help achieve final compliance with the federal Clean Water Act. Debate over the need for such facilities in Greater Boston led to lengthy delays at the state and federal levels in the 1970s and 1980s and the loss of then available 90% funding for such projects.

"This contract is great news for our coastal environment and helps assist our local economy, creating 250 private sector construction and engineering jobs," said MWRA Executive Director Douglas B. MacDonald. "With secondary treatment, 90% of the pollutants in sewerage arriving at Deer Island will be removed from the waste stream, providing a much cleaner Boston Harbor and Massachusetts Bay."

MacDonald said MWRA's new primary treatment plant will go on-line next year and that the 2 secondary facilities under this contract will go on-line in 1996 and 1998 respectively, ahead of the original federal court ordered deadline of 1999. He noted that MWRA is reviewing the need for 2 additional secondary facilities as it seeks to reduce overall Boston Harbor Project costs without sacrificing overall environmental quality.

Primary sewerage treatment is a settling process where solids separate out of the wastewater creating sludge which is processed into fertilizer at MWRA's Fore River Plant. Secondary treatment provides oxygen and aeration to the primary treated effluent, encouraging the growth of bacte-

ria to react with remaining impurities in the wastewater to remove additional solids.

Minority and women-owned firms will receive 16.7% of the total contract award in compliance with MWRA's affirmative action guidelines.

FIRE DEPARTMENT ORDERS

July 20, 1993.

General Order No. 33

I. HIGH COMMENDATION

On April 16, 1993, at 1108 hours, incident 13055, companies responded to a still alarm at Boston City Hospital on report of a man threatening to jump. Ladder Company 15's aerial was positioned on the Massachusetts Avenue side of the Dowling Building. Fire Fighter Edward T. Loder of Rescue Company 1 was positioned and locked in for about one hour on the tip of Ladder Company 15's aerial which was fully extended a five feet short of the roof line.

A distraught person on the roof approached Fire Fighter Loder and threatened to jump if the aerial was not moved. The man suddenly climbed over the edge of the roof and proceeded down the conduit pipe. The aerial was quickly lowered to reach the victim who suddenly lost his grip and began to fall. Fire Fighter Loder, while extending himself from the very tip of the aerial, reached out and grasped the man's shirt as he passed the aerial. As he took hold of the man's arms, Fire Fighter Loder was pulled over the beam of the aerial as his life belt was pulled beneath his hips. Two members came to his assistance. Fire Fighter Loder suffered multiple cuts and abrasions on his arm and shoulder as the aerial was being lowered to an adjacent roof.

Because of his life saving actions, the Fire Commissioner is pleased to highly commend Fire Fighter Edward T. Loder of Rescue Company 1 who performed the rescue under great personal risk, and refers his case to the Board of Merit for further consideration.

II. COMMENDATION

On April 16, 1993, at 1108 hours, incident 13055, companies responded to a still alarm at Boston City Hospital on report of a man threatening to jump. Ladder 15's aerial was positioned on the Massachusetts Avenue side of the Dowling Building.

District Fire Chief Michael C. Liotta of the Safety Operational Unit and Fire Fighter Senior Man Lawrence C. Holt of Rescue Company 1 who were both on the turntable of Ladder 15, served Fire Fighter Edward C. Loder of Rescue Company 1 struggling to hold onto a rescued person at the tip of the aerial. They quickly ascended and assisted in holding and steadying the two while the ladder was being lowered to an adjacent roof.

Because they were instrumental in preventing injury to the victim and a fellow member, the Fire Commissioner is pleased to commend District Fire Chief Michael C. Liotta, Safety Operational Unit and Fire Fighter Senior Man Lawrence C. Holt of Rescue Company 1 and makes this commendation a part of their personnel folder.

III. HIGH COMMENDATION

On April 22, 1993, at 638 hours, incident No. 13864, Box 2-1565 was struck for a building fire at 25 Follen Street, District 4. Heavy fire was showing from the first and second floors of a four-story brick building upon the arrival of Ladder Company 15. A working fire was reported.

Screams for assistance could be heard from the second floor apartment. After being denied entrance to the front of the building due to the first floor staircase being fully involved in fire, Fire Lieutenant Michael E. Tierney, Fire Fighters Brendan Collins and Sheldon K. Jackson of Ladder Company 15 raised a 35-foot ladder to the second floor window where a woman was previously seen. Entry through this window was unsuccessful due to permanent kitchen material blocking half the window.

Fire Fighter Collins climbed from the ladder, proceeded across the ledge of the building and gained entrance through the living room window. Encountering poor visibility, he crawled the perimeter of the apartment passing the original room of fire. He located an unconscious sixty-year-old female wedged behind a kitchen door. He removed his faceplate and placed it on the victim. Facing near exhaustion he dragged the victim towards the voice of Fire Fighter Jackson who was near the window. They proceeded in removing the victim. Fire Fighter Collins suffered lacerations to both hands and smoke inhalation. The victim suffered first and second degree burns to the face and smoke inhalation.

Because of his swift life saving actions during serious deteriorating fire conditions, before ventilation or placement of lines of hose and while under extreme personal risk, the Fire Commissioner is pleased to highly commend Fire Fighter Brendan Collins of Ladder Company 15 and refers his case to the Board of Merit for further consideration.

Immediately after the placement of the first ground ladder, Fire Lieutenant Tierney, with members of Ladder Company 17, were ordered to raise an additional 35-foot ladder to the third floor for the rescue of a person hanging from a window. Upon completion of this task, Fire Lieutenant Tierney returned to the ladder at the second floor where members of Ladder Company 15 had entered the building. He ascended to the ledge of the second floor window where he assisted Fire Fighters Jackson and Collins in removing the victim from the second floor apartment. In performing this rescue, Fire Fighter Jackson suffered burns to the chest and Fire Lieutenant Tierney burns to the neck.

Because of their assistance in the life saving rescue of the woman, while performing under great personal risk, the Fire Commissioner is pleased to highly commend Fire Lieutenant Michael E. Tierney and Fire Fighter Sheldon K. Jackson of Ladder Company 15 and refers their case to the Board of Merit for further consideration.

IV. COMMENDATION

On Monday, June 21, 1993, Fire Alarm Operator Kenneth Fitzgibbon of the Special Services Division, while off duty and participating in a Boston Firefighters softball game at M Street Park, District 6, responded upon request for aid to parents attending Little League at an adjacent field. A young boy had been hit by a batted ball which shattered his eyeglasses, causing a deep laceration over his right eye.

Fire Alarm Operator Fitzgibbon immediately controlled the bleeding and calmed the young

boy. He reconstructed the shattered lenses until satisfied that no pieces had entered the eyes. While awaiting the arrival of the ambulance, he calmed and reassured the child's mother that the boy was not seriously hurt.

Because of his quick actions, reflecting a high level of professionalism and compassion, the Fire Commissioner is pleased to commend Fire Alarm Operator Kenneth Fitzgibbon of the Special Services Division and makes this commendation a part of his personnel file.

from the rear of a three-story wood framed duplex building.

Upon arrival, Fire Fighter Senior Man Torin M. Little of Ladder Company 4 was ordered to search for two children trapped on the third floor. He immediately ascended the stairway to the second floor where companies were operating on the fire. Upon reaching the third floor, he encountered heavy smoke and advancing fire as he proceeded down the hallway. He entered a bedroom and while crawling, located and removed an unconscious child to the hallway and called for assistance.

Engine Company 14, at this time, was advancing a line up the stairs to the third floor. Fire Fighter David Crespo, hearing the cry for assistance, moved down the hall, located Fire Fighter Senior Man Little and the child and assisted them to the stairs and out of the building. ACTING MAYOR MENINO SIGNS AGREEMENT FOR CITYWIDE RECYCLING

Acting Mayor Thomas M. Menino last week signed a grant agreement with the Commonwealth of Massachusetts that moves Boston closer to curbside recycling in every city neighborhood. In other recycling related actions, Mayor Menino announced a new initiative to recycle newsprint in Boston City Hall and a "Buy Recycled Products Day" for September 14th in City Hall Plaza.

"I want the City of Boston to be a leader, not a follower, in the recycling and environmental movement," Mayor Menino said upon signing the grant agreement. The planning grant paves the way for \$3.7 million additional state dollars for a Materials Recycling Facility (MRF) to be built in Boston, creating 35 to 70 jobs and the capacity for Boston's curbside recycling program.

The City of Boston currently captures about 10 percent of its waste stream for recycling, mainly through neighborhood dropoffs and a curbside pilot in Jamaica Plain. The new facility, which will be operational early in 1995, is estimated to collect 30 percent of Boston's waste to be recycled. Glass, tin, and plastics will be collected in "blue box" containers and processed for recycling markets.

"Recycling is not only the right thing to do for the environment, it also helps create new green jobs," Menino stated. "By supporting recycling and expanding the market for recycled products, thousands of local jobs can be created in the years to come," he said.

In keeping up with a commitment to expand recycling markets, Mayor Menino also announced a new program to collect and recycle newspapers in Boston City Hall.

"Boston City Hall employees probably take in more newspapers than any other office building in Boston. We should be collecting and recycling these newspapers," Mayor Menino said. He urged all City employees to recycle whenever possible. A newspaper recycling collection bin and information kiosk will be constructed and placed in the public lobby of Boston City Hall.

The Mayor also presented a letter that had been sent to the State House leadership regarding a \$100,000 appropriation from the Clean Environment Fund for Boston's recycling education program. The Mayor urged the leadership to support the current Senate language as the House-Senate conference committee prepares its final report. In the letter, Mayor Menino emphasized the steps the City of Boston is taking to encourage recycling and stated the importance of educating city residents and businesses about recycling. The Clean Environment Fund receives money from uncollected bottle deposits and has been formed to support important environmental programs.

The Mayor also announced significant progress in the amount of recycled products purchased by the City of Boston. All of the City's 2.5 million sheets of letterhead, 4 million envelopes, paper towels and tissue, and 1 million plastic bags are made from recycled components. Mayor Menino called for a "Buy Recycled Products Day" for September 14th in City Hall Plaza. Several corporations will display products now produced with recycled material. Many will be surprised at the level of innovation that has been achieved in this exciting new market.

REPORT SHOWS BOSTON HARBOR PROJECT \$500 MILLION UNDER BUDGET

The Massachusetts Water Resources Authority recently released a progress report on the Boston Harbor Project indicating that the project is \$500 million under the budget initially projected in 1988. One-third of all construction needed to end pollution entering Boston Harbor has been successfully completed.

The report also indicates 3,000 direct private sector construction, engineering, management and support jobs have been created and that the overwhelming majority of contracts and jobs have gone to local firms and residents.

"The MWRA needs to report to the public on how, where and why its money is being spent," said MWRA Executive Director Douglas B. MacDonald. "Residents living in our service area have made a considerable investment in new pollution control facilities to end a legacy of inaction and the collapse of water and sewer infrastructure. We are making progress."

MacDonald said controversies over water and sewer rate issues have often obscured the environmental and economic benefits of the Boston Harbor Project. He said rate relief remains his number one priority for residents living in the MWRA service area. "The good news is the project is now one-third complete and \$500 million under budget. Three thousand private sector employees are working on the largest environmental construction project in the nation."

(Continued on next page)

Boston Harbor Project . . .

(Continued from Front Page)

According to the MWRA Report:

86% of all prime contracts and 87% of all subcontracts awarded by MWRA have been won by Massachusetts companies with a total of 690 firms involved in the project to date.

68% of all planned construction contracts have been awarded with contract awards totaling \$2.1 billion. The design of the project is 85% complete.

2,750 workers are on-site at Deer Island on a daily basis with an additional 210 support workers at off-island locations.

The first half of the new primary sewerage treatment plant on Deer Island is 53% completed and scheduled to go on-line next summer. A new pilot plant goes on-line in August, 1993.

33% of all construction is complete and the project is \$500 million below 1988 estimated budget.

Minority and women-owned firms have received 12.1% of all construction contracts. 16% of the construction workforce is comprised of minorities and women.

Construction of secondary treatment facilities has commenced with \$250 million in contracts awarded.

8 million hours of labor have been worked to date.

"The Boston Harbor Project comes at a very good time in terms of making the downturn in the Massachusetts economy, particularly the rapid decline in the construction industry, less painful," said economist Edward Moscovitch, president of Cape Ann Economics. "There's a multiplier effect for every job that has been created by the work being done to end harbor pollution. The 3,000 on-site jobs translates into as many as 9,000 total jobs for the overall Massachusetts economy." Moscovitch has studied the MWRA project for Associated Industries of Massachusetts and the Artery Tunnel Business Council.

"With over 8 million man-hours of work completed, the Boston Harbor

Project has been a godsend in a depressed economy for thousands of local construction workers and their families," said Joseph Nigro, Secretary Treasurer and General Agent of the Building and Construction Trades Council, Metropolitan District of Boston.

MAGIC CIRCLE THEATER Presented SNOW WHITE'S RESCUE, August 8-10, 1993

The Magic Circle Theater at Tufts University is pleased to announce its second production of the 1993 summer season: *Snow White's Rescue* from Tuesday, August 8 through Thursday, August 10. Performance times were 10:30 a.m. and 2 p.m. on Tuesday and Wednesday, and 10:30 a.m. and 7:30 p.m. on Thursday.

Snow White's Rescue, our second production of the 1993 summer season, is an original play by Michael Eldridge, resident director at Magic Circle Theater. If you think you're familiar with the story of Snow White, try this adaptation on for size! This not so familiar retelling was presented from the dashing prince's point of view, complete with wiffleball playing dwarves (including a new one), a stodgy old knight, and some important lessons about the true meaning of being a prince! *Snow White's Rescue* is original fun for the whole family!

The Magic Circle Theater is New England's oldest theater by and for children. Each summer, two complete productions are presented in the newly constructed Marston Balch Arena Theater. This was the perfect opportunity to introduce children to the theater.

GROUNDBREAKING FOR NEW DOWNTOWN CROSSING

On Thursday, August 5, 1993, at 1 p.m., at the intersection of Washington and Summer Streets, the City of Boston Public Facilities Depart-

ment (PFD) and the Downtown Crossing Association hosted the groundbreaking ceremony for the reconstruction of the Washington Street pedestrian mall in Downtown Crossing, the heart of Boston's Commercial District. The event was attended by the Acting Mayor of Boston Thomas M. Menino, PFD Director Mary Nee, Boston Redevelopment Authority Director Paul Barrett, and various other city and business representatives who support the revitalization of one of Boston's most important economic centers.

The \$3.5 million project is funded by the city's "Rebuilding Boston" program; a five-year, \$1.23 billion capital improvement strategy to restore the city's schools, parks, roads, and public buildings. The scope of work includes the complete reconstruction of Washington Street from Harvard Place to Temple Place with new sidewalks and acorn lighting to illuminate the district. Construction crews will work at night to minimize disruption to commercial activity. The project is expected to be completed in about 12 months.

BPL'S CURLEY ELECTED PRESIDENT OF AMERICAN LIBRARY ASSOCIATION

39th Mayor
MALCOLM E. NICHOLS
1926-1929

Arthur Curley, director and librarian of the Boston Public Library since 1985, has been elected president of the American Library Association (ALA) for the 1994-1995 term.

Mr. Curley has been active in the ALA for 30 years, serving in various capacities including as a member of the ALA Council, the association's governing body, for more than 2 years, and the Executive Board for four years. He is currently a member of the Association's Self-Study Committee and previously served as the president of the Association of Research Libraries.

Prior to being named director of the Boston Public Library, Mr. Curley served as deputy director of the Research Libraries of the New York Public Library and directed libraries in Massachusetts, Illinois, New Jersey, and Ohio; served on the staffs of the Boston Public Library and the Widener Library at Harvard; and taught management in the graduate library schools at Rutgers and the University of Michigan.

A resident of Boston's Back Bay, Mr. Curley holds a bachelor's degree in political science from Harvard and a master's degree in library science from Simmons College. He is the author of five books and several dozen articles and has given numerous papers and speeches in addition to presenting commissioned papers at international conferences.

He has also served as the editor of the quarterly publication *Collection Building* since it was founded in 1978, and has been the recipient of the "Best of the Library Literature" and the national Dorothy Field Fisher Award.

The ALA is the world's largest professional organization for library and information science professionals, with a membership of 56,000. Mr. Curley will serve as vice president for 1993-1994 and will assume the presidency in June 1994.

"Bostonians wherever they live should get behind Boston."

The words of Malcolm E. Nichols, Boston's last Republican mayor, uttered in his 1929 annual address, sounded the message that still prevails today, and goes out to suburbia.

Nichols, as mayor, as a tax lawyer, and during service in both legislative branches on Beacon Hill, realized that Boston's vitality determined the economic lifeblood for the entire region. He fathered the Greater Boston proposal that would have federal census figures group the forty-one communities in this metropolitan area.

In his four years closing out the roaring twenties at Old City Hall Mayor Nichols concentrated on municipal services, building the physical plant and raising city worker salaries almost \$3 million. He saw work start after ten years of discussion on the East Boston vehicular tunnel; built 197 new streets and two dozen new schools; started repair work to the Central Library foundations; and established the Boston Traffic Commission and Boston Port Authority.

Police authorized strength was increased. A seven-year wrangle which prevented the union label going on products of the municipal printing plant was resolved. Expansion got under way at the city's airport in East Boston. Charles River basin improvements began. Exchange Street (now New Congress) was widened. And in a move to combat downtown traffic congestion the Mayor proposed a \$5 to \$10 annual parking fee. He said that better than four out of every five cars parking on downtown streets were owned by nonresidents.

Mayor Nichols' administration culminated in a building boom resulting from the 1928 pyramidal building statute. This allowed more flexibility for skyscraper construction and tapering structures such as the United Shoe Machinery Building. Other major projects encouraged by the zoning relaxation

were the Sears Roebuck Fenway building, the North Station-Boston Garden-hotel complex, the 75 Federal Street Tower, and the start of Boston University's Commonwealth Avenue campus.

The Nichols administration encouraged plans for the water supply system drawing from Western Massachusetts rivers. Nichols proposed an overpass at Commonwealth Avenue near Charlesgate three decades before it materialized. A supporter of better mass transit, he helped pilot the first car opening the Ashmont-Mattapan Square high-speed trolley line.

One of two Maine natives to occupy the Boston mayor's chair, he was born in Portland on May 8, 1876. While attending Harvard College he worked at odd jobs and sold newspapers to pay expenses, and was graduated in 1899. Turning to elective service, he was in the City Council in 1905 and 1906; served three years as a state representative and six years as a state senator; became chairman of the legislative committee on taxation; and helped direct passage of the state income tax law in 1916.

He served briefly in 1919 on the Boston Schoolhouse Commission; then was named to the Transit Commission. He was named Collector of Internal Revenue by President Harding in 1921, and two years later was chosen president of the Boston Federal Business Association.

After several tries at the mayoralty the GOP member won an upset in the nonpartisan 1925 election over three Democrats. His first year as mayor saw a tax rate increase, followed by three consecutive cuts.

Unable to succeed himself by law, Nichols stood aside during the next four-year term of James Michael Curley. Trying again in 1933, he lost to Democrat Frederick W. Mansfield.

Old timers today recall a personal glimpse of "Mal" Nichols sporting his familiar derby hat, a trademark,

and often displayed at Boston parades.

In one little-known aspect he was a forerunner for consumerism. One of his early actions as mayor was the order to carry on the city's fight for telephone rate reductions.

Mr. Nichols died at age seventy-three on February 7, 1951, at his Centre Street home in Jamaica Plain, a little over twenty-one years after leaving Old City Hall.

MENINO ORDERS AGGRESSIVE ANTI-DOMESTIC VIOLENCE CAMPAIGN

Acting Mayor Thomas M. Menino and Police Commissioner William Bratton announced a tough new policy on domestic violence last week. Menino directed the police to investigate domestic violence cases for possible civil rights violations, which carry tougher prison sentences.

Here, Menino unveils a poster that is part of a 12-language anti-domestic violence campaign.

In a move that could mean tougher prison sentences for batterers, Acting Mayor Thomas M. Menino last week ordered the Boston Police Department to review all domestic violence cases for possible civil rights violations.

"If the Police Community Disorders Unit determines that a case meets the criteria for prosecution under the civil rights law — which includes 'gender crimes' — it will be forwarded to the District Attorney or the Attorney General with a request for prosecution under the civil rights statute," Acting Mayor Menino said. "This will result in longer and stricter sentences for domestic criminals."

Menino's announcement of the City's tough new stand on domestic violence is part of a multi-pronged effort to stem the skyrocketing number of domestic violence cases in the Boston area. Last year, the Boston Police Department's Domestic Violence Unit logged 900 cases per month. This year, the number jumped to 1,070 cases each month.

In addition to the civil rights review, the City is undertaking a major domestic violence awareness campaign this month. Posters promoting awareness of domestic violence and help for its victims will

soon start appearing in stores and other public places throughout Boston's neighborhoods.

Menino said that stores in every neighborhood have been asked to display posters that encourage

women in violent situations to seek help. Additionally, materials have been printed in 12 different languages that will allow Boston Police to inform victims of their rights and about abuse laws. "Resource cards" printed in seven different languages will also be made available in neighborhood health centers, social service agencies, child care centers and through the city's Healthy Boston coalitions.

"This effort is part of a comprehensive program to help women get out of violent situations and to let them know they don't have to face this terrible problem alone," Acting Mayor Menino said. "I have directed the front-line City agencies to take part in this important campaign."

A joint effort of the city's Women's Commission, the Boston Police Department and advocates for battered women, this awareness campaign is part of a federally-funded domestic violence education effort.

The posters depict a woman with a child leaving a violent situation at home and walking towards "a brighter future." The posters encourage women to "be safe — take the first step." It includes phone numbers for the police department and the Battered Women's Hotline at Casa Myrna Vasquez — 1-800-992-2600.

In conjunction with the posters, the resource cards list numbers for battered women's shelters, legal services, and other social services, as well as which agency employs multi-lingual staff.

Boston Police will use the abuse law cards, as well as brochures that tell victims where they can find help in securing safe housing, legal

resources, medical care and counseling.

The posters and resource cards are being distributed throughout the neighborhoods by staff from the Mayor's Office of Neighborhood Services, the Public Facilities Department, Community Centers, Health and Hospitals and several other agencies.

In each neighborhood police station, specially-trained Boston Police domestic violence officers are on hand to help victims, and Boston City Hospital and the Mayor's 24-hour hotline has workers trained to help domestic violence victims. Additionally, the city has submitted to the state legislature a home rule petition that would give police more flexibility in revoking firearms permits of batterers.

In announcing these efforts, Menino said he has also directed School Superintendent Lois Harrison-Jones to expand the violence prevention curriculum and to make domestic violence a primary focus of education. "Boys and young men must learn that violence against women is wrong — period. The time has come to rethink the way we define and address the problem of domestic violence. We must call domestic violence exactly what it is — a reprehensible act of violence."

AMERICAN CANCER SOCIETY ORGANIZING BOSTON CITY HALL TEAM FOR FIVE-MILE WALK TO FIGHT BREAST CANCER

A team from Boston City Hall will join the fight against breast cancer on Sunday, September 26, by walking in Making Strides Against Breast Cancer, a five-mile fundraising walk in Boston to benefit the American Cancer Society.

Geraldine Wyse, R.N., of the Employee Health Services department, who is coordinating the Boston City

Hall Making Strides Against Breast Cancer team, has set a goal of recruiting 1000 people for a day of "fun raising" and fundraising for an important cause.

"Today everyone knows someone who has been touched by breast cancer," said Ms. Wyse, noting that breast cancer has been declared an epidemic in Massachusetts. "Just being a woman is the greatest risk factor for breast cancer, so early detection is vitally important. More women can survive breast cancer if the disease is found early enough and effectively treated."

The Making Strides Against Breast Cancer route starts and ends at the Hatch Shell on Boston's scenic Charles River Esplanade. Registration begins at 10 a.m. and the walk starts at 11:00. For more information about joining the group from Boston City Hall, information about the event, or the American Cancer Society, call Gerry Wyse at 617-635-4983, or Meg Goldberg at ACS, 267-2650.

Approximately 5100 Massachusetts women will be diagnosed with breast

cancer this year, and 1300 Bay State women will die from the disease, according to the American Cancer Society. Local breast cancer programs sponsored by the Society include Reach to Recovery, a one-on-one support program for women with breast cancer that served 100 Boston women last year; breast self-examination teaching in schools and workplaces; and low-cost mammography screening in areas around Boston.

All of the dollars raised through Making Strides Against Breast Cancer will support these local American Cancer Society programs, as well as scientific research into breast cancer, and advocacy work to insure that every woman has access to high quality, affordable mammograms.

The American Cancer Society is the nationwide community-based voluntary health organization dedicated to eliminating cancer as a major health problem by preventing cancer, saving lives from cancer, and diminishing suffering from cancer through research, education, and service.

CRIME FIGHTER OF THE YEAR

Eartha Mumford

Eartha Mumford set out to organize the Rainier Road Crime Watch in March of 1990. Her Mattapan neighborhood was beset with speeding cars, youths gathering on street corners and drug dealing. She has inspired her neighbors to join her in spotting the drug dealers and working with the police to get them arrested and off of their street. At the same time she has worked with young people, providing them with a safe haven on her property and organizing field trips and other activities as alternatives to hanging on the corner. Eartha once risked her personal safety to come to the rescue of a youth in a drugged state by confronting the two attackers with persistence and determination. She works closely with Sgt. Chambers who provides her group with current crime statistics. This partnership enables Rainier Road to keep close watch on incidents in their neighborhood. By her watchfulness Eartha prevents more incidents from happening. Her alert presence has frightened off burglars and sent the message out that Rainier Road is not up for grabs; the neighbors care enough to keep it safe.

Here, Acting Mayor Thomas M. Menino, Crime Watch Director Chris Hayes and Police Commissioner William Bratton congratulate Ms. Mumford.

production in the Balch Arena Theater on June 4-5, 1994. Due to the fact that the program will be limited to 15 young actors, auditions for all interested participants will be held on Saturday, September 18 from 1:00-5:00 p.m. Tuition for the full year program of Tufts Scene Study is \$500.

ACTING MAYOR MENINO ANNOUNCES \$1 MILLION PLAN FOR ELDERLY SAFETY

Acting Mayor Thomas M. Menino this week announced a \$1 million plan to beef up security in Boston's elderly public housing developments, saying that "seniors have the right to live without the fear of violence."

Menino and Boston Housing Authority Director David Cortiella said Wednesday that the \$1 million security plan is part of a five-year, \$16 million capital improvement project in the city's elderly housing developments.

"It is my sincere hope that the steps we are taking today will convince people that they no longer need to hide indoors, that it's all right to step outside and visit a friend or a neighbor," Acting Mayor Menino said.

Among the physical improvements to be made at elderly developments across the city are the installation of intercom systems to give tenants greater control over who is allowed to enter a building, and improved lighting to eliminate dark corners and to make public spaces in each development usable and safe.

Further, roof access will be eliminated to help police and public safety personnel prevent illegal activity, and public entranceways will be redesigned.

BHA officials also said they will reduce the number of entries into each building and install more secure doors and locks.

Menino said that BHA police officers will adopt the "neighborhood policing" approach to its patrols of elderly developments — a way of policing that greatly strengthens cooperation between residents and the police. The Boston Police Department recently adopted neighborhood policing, with "beat cops" working closely with neighborhood residents to prevent crime.

The \$1 million investment in safety for the elderly comes from existing federal public housing modernization funds and from Community

Development Block Grants, Menino said. "This is a common sense approach to increase the safety and confidence of our elderly neighbors," the Acting Mayor added.

CHILDREN'S WINDOW FALLS SAFETY INITIATIVES

*Statement of
Acting Mayor Thomas M. Menino
August 6, 1993*

Every year in Boston, approximately 30 children are treated for injuries sustained from window falls. In the past several weeks, seven children were injured in window falls, including one fatality. The terrible tragedy of children being hurt and killed in window falls is compounded by the fact that these injuries are preventable.

So we are asking the help of health centers, children's services and Boston's media to get the message out to parents and providers for young children. Our message is simple: for the sake of your children, take care to open windows from the top; install window guards; and lock outside doors and windows that are not fire exits.

It is my sincere hope that the children's window falls safety initiative we are announcing today — with its proposals for short and long term education and prevention measures — will prevent any more of these tragic injuries and fatalities from taking place. New York City's window falls prevention program is a clear example of how successfully these childhood injuries can be prevented.

Since New York's building code was changed to require window guards, the number of preventable falls has dropped by 86%. With a population nearly twelve times larger than Boston, New York City now has fewer injuries from preventable falls than Boston.

Beginning today, Boston will expand its public education and outreach efforts to alert parents and guardians to the risks of children falling from unsecured windows and porches. Working with private housing companies, city departments, City Year, and regulatory

agencies, our education and outreach campaign will be bolstered with legislative actions outlined in this report.

Window devices are not readily available throughout the city, so we are contacting local retailers to provide these products right away. Homeowners and parents looking for these products should contact the Mayor's Office or the Childhood Injury Prevention Program. We will answer any safety questions and direct them toward local retail outlets for safety equipment.

Window and porch fall injuries are preventable. By working together, we can educate families to the dangers that exist in their own homes. And if our efforts result in the prevention of just one injury or tragic death of a child, the time, energy, and resources have been well spent.

ACTING MAYOR MENINO TAKES CITY'S FINANCIAL CASE TO WALL STREET

Acting Mayor Thomas M. Menino led a team of City finance officials to New York to meet with representatives of Moody's Investors Service and Standard & Poor's on Monday, August 16.

The City was looking to reaffirm its bond rating as part of a \$50 million general obligation bond sale scheduled for early September.

Despite the large reductions in state aid in recent years, the City has maintained its "A" bond ratings — the highest in Boston's history. As former Chair of the City Council's Ways and Means Committee, Mayor Menino played a key role in achieving eight consecutive balanced budgets and high bond ratings.

For the past four years we've kept the line on spending," said Menino, noting a 17.6 percent reduction in the City workforce during the period. "We've been able to maintain our high bond ratings and low interest rates on City debt."

Boston's high bond ratings allow the City to borrow at lower interest rates. The Treasury Department estimates that the City has saved approximately \$40 million in interest over the past 10 years from bond rating upgrades.

Strong management is key to our continued ability to provide essential public services," Menino said. He added that careful management of spending allowed the downsizing of the workforce without sacrificing the levels of key basic city services. Proceeds from the bond issue will be used to fund a portion of Boston's \$1.5 billion 5-year capital plan, which includes the new police headquarters in Roxbury. The projects in the capital plan enable Boston to maintain and expand its infrastructure. These projects have an important economic impact on the City, both in terms of providing jobs and in providing the economic building blocks for job growth. "To grow the city's economy, we must go forward with infrastructure investment," Menino said.

DORCHESTER COMMUNITY CELEBRATES MILESTONE IN NEIGHBORHOOD REVITALIZATION

Residents of the St. Mark's Area of Dorchester welcomed a new neighbor last week during a celebration marking the reconstruction of a former bank-owned abandoned property on Florida Street.

Members of the St. Mark's Area Civic Association, the Florida Street Development Subcommittee and City officials gathered at 60 Florida Street to celebrate the building's renovation now under way.

"For too long, Florida Street has stood as a text book example of how the excesses of the real estate and banking industries, profit-driven speculators, poorly designed federal housing policies, absentee landlords, and a few problem tenants can combine to destabilize neighborhoods," said Thomas M. Menino, Acting Mayor of Boston.

With assistance from the City of Boston Public Facilities Department (PFD), Boston resident Brad Owens purchased the property and will live in the building which he will convert into a three-family dwelling. The rehabilitation of 60 Florida Street represents the beginning of a plan to introduce permanent owner-occupied and family units to the 60-80 block of Florida Street.

"This renovation project signifies the community spirit of this neighborhood," said PFD Director Mary Nee. "The Florida Street community has displayed a strong and sincere commitment to bring homeownership opportunities and stability to the neighborhood."

Since the early 1900s, most of the houses on Florida Street were used for investor-income purposes, many suffering from vandalism, arson and disinvestment. In early 1992, the St. Mark's Area Civic Association and the Florida Street Development Subcommittee began working toward a goal of building a strong neighborhood with the help of City agencies, religious groups, youth organizations and community activists.

The 60 Florida Street property was included in a 1992 task force report on the City's Subsidized Housing and Absentee Landlords commissioned by former Boston Mayor Raymond L. Flynn. Chaired by PFD Director Mary Nee, the task force recommended legislative, regulatory and administrative changes to the present Section 8 and state rental voucher programs. The task force also recommended greater cooperation between city agencies which oversee the management of subsidized properties and called for more community-based support services for families who receive housing assistance.

"These are new and changing times for this neighborhood," said Larry Hurley, President of the newly formed St. Mark's Neighborhood Association. "PFD and the community are working toward changes in attitude, a new direction of community work and pulling together for a better quality of life for all."

DORCHESTER COMMUNITY ...

(Continued from Front Page)

"We welcome Brad Owens to our neighborhood," said Jennifer Evans, Chair of the Florida Street Development Subcommittee. "We look forward to working with Brad and PFD to ensure the long-term stability and beautification of the 60-80 block of Florida Street."

Mr. Owens' new home was once a well known drug house which was seized under the "Ten Most Wanted" program, an initiative which brings federal, state and city agencies together to seize properties known for drug activity. Last Spring, the building was boarded up by the City's "Project Pride" program which uses prison inmate labor to install ornamental boarding onto properties secured under the "Ten Most Wanted" program.

"My administration will work hard to correct federal, state and local housing policies that hurt and destabilize neighborhoods, rather than help and strengthen them," Acting Mayor Menino added. "In addition, this administration will demand greater accountability and responsibility — not only from the banking and real estate industries but from tenants and landlords as well."

The City of Boston Public Facilities Department provided Mr. Owens with a \$148,000 loan and a second mortgage of \$37,000. Dime Savings Bank of New York provided this project with a purchase loan of \$57,000.

"Dime has a long record of supporting affordable housing," said Dime Bank Senior Vice-President Frank Wright. "We are delighted with the progress that has been made in restoring this property."

Admission: adults, \$2; seniors, \$1.50; children, \$.50, located at 19 North Square, North End, 523-1676.

At the Foley Apartments in South Boston, Acting Mayor Thomas M. Menino, Commissioner on Affairs of the Elderly Diane Watson joined BHA officials and others to announce a new senior safety plan.

ACTING MAYOR MENINO ANNOUNCES \$1 MILLION PLAN FOR ELDERLY SAFETY

Acting Mayor Thomas M. Menino this week announced a \$1 million plan to beef up security in Boston's elderly public housing developments, saying that "seniors have the right to live without the fear of violence."

Menino and Boston Housing Authority Director David Cortiella said Wednesday that the \$1 million security plan is part of a five-year, \$16 million capital improvement project in the city's elderly housing developments.

"It is my sincere hope that the steps we are taking today will convince people that they no longer need to hide indoors, that it's all right to step outside and visit a friend or a neighbor," Acting Mayor Menino said.

Among the physical improvements to be made at elderly developments across the city are the installation of intercom systems to give tenants greater control over who is allowed to enter a building, and improved lighting to eliminate dark corners and to make public spaces in each development usable and safe.

Further, roof access will be eliminated to help police and public safety personnel prevent illegal activity, and public entranceways will be redesigned.

BHA officials also said they will reduce the number of entries into each building and install more secure doors and locks.

Menino said that BHA police officers will adopt the "neighborhood policing" approach to its patrol of elderly developments — a way of patrolling that greatly strengthens cooperation between residents and the police. The Boston Police Department recently adopted neighborhood policing, with "beat cops" working closely with neighborhood residents to prevent crime.

The \$1 million investment in safety for the elderly comes from existing federal public housing modernization funds and from Community Development Block Grants, Menino said. "This is a common sense approach to increase the safety and confidence of our elderly neighbors," the Acting Mayor added.

A GOOD NEIGHBOR

New homeowner Brad Owens signs a membership card officially making him a member of the St. Mark's Area Civic Association. Owens purchased a four-family building on 60 Florida Street, once a bank-owned abandoned property, with help from the City of Boston Public Facilities Department (PFD).

With Owens (left to right) is Senior Vice-President of the Dime Savings Bank of New York; City of Boston Public Facilities Department Director Mary Nee; Acting Mayor of Boston Thomas M. Menino and President of the St. Mark's Area Civic Association Larry Hurley.

COMMITTEE ON EDUCATION TO HOLD HEARINGS RE EFFECTIVENESS OF CONTROLLED-CHOICE STUDENT ASSIGNMENT PLAN AND DETERMINE IF MODIFIED "NEIGHBORHOOD-BASED SCHOOL PLAN" CAN OR SHOULD BE ADOPTED IN BOSTON (DOCKET NO. 0379)

Coun. BOLLING offered the following:

Whereas, The primary concern of most parents regarding their child's educational development is that

their child receive a quality education in a safe, academically challenging environment; and

Whereas, In 1989, a "controlled choice plan" was introduced in Boston to give parents more discretion as to which public school their children could attend; and

Whereas, There have been recent discussions concerning a modified "neighborhood-based school plan" in which parents are given greater choice in determining where their children attend schools; and

Whereas, The concept of a neighbor-based school plan has raised issues concerning the adequacy and number of existing school facilities, the potential need for new schools, the cost of transporting students and the need to assure all children to have equal access to quality education; and

Whereas, While the issue of neighborhood schools should not take precedence over the need to improve the quality of education in Boston's classrooms, the general public should be afforded the opportunity to offer comment on the implications of a neighborhood-based school plan; therefore be it

Ordered: That the Committee on Education hold hearings to discuss the effectiveness of the controlled choice student assignment plan and to determine if a modified "neighborhood-based school plan" can or should be adopted in the City of Boston.

Referred to the Committee on Education.

URGING STATE INSURANCE COMMISSION TO REVIEW BIDDING PROCESS RE PROVIDERS OF PHARMACEUTICALS (DOCKET NO. 0380)

Coun. HENNIGAN CASEY, for all the Councillors, offered the following:

Whereas, An organization of independent pharmacists, EPIC, represents approximately 450 independent pharmacists in the state, performing all billing, contracting and negotiations for the independent pharmacists; and

Whereas, EPIC was the lowest bidder in a November sealed bid which would result in independent pharmacists becoming Baystate providers, resulting in an increase of approximately 390,000 customers in need of prescriptions; and

Whereas, After meeting with representatives from the EPIC organization of independent pharmacists, Baystate determined that the bidding process would be reopened, claiming that small independent pharmacists would be unable to handle the increase in volume even though EPIC assured Baystate this could be done; and

Whereas, After reopening the bidding process, the CVS pharmacy bid was slightly lower than EPIC bid, but was based on a program change of which EPIC was not informed but CVS was informed; and

Whereas, It was determined that there were not enough CVS locations in Massachusetts, so Osco and Brooks joined forces with CVS to provide enough pharmaceutical retail stores to customers; and

Whereas, This decision by Baystate to reopen the bidding process and its subsequent failure to apprise EPIC of the changes in the program upon which the bid was based effectually reduces customer choice as well as sets the stage to squeeze out the small, independently owned pharmacy; and

Whereas, Small business is the cornerstone of the United States economy, and must be allowed to compete and survive in an open market on an even playing field; now therefore be it

Resolved, That the Boston City Council, in meeting assembled, strongly urges the State Insurance Commission to review this bidding process with special attention

to the apparent orchestration of selecting chain stores to be Baystate providers, excluding small, independent pharmacists, and effectually not allowing small business to compete in Massachusetts.

The resolution was adopted under suspension of the rules.

**WAYS AND MEANS COMMITTEE TO HOLD
HEARING RE HAVING ANNUAL APPROPRIATION
AND TAX ORDER SUBMITTED IN LINE-
ITEM FORM (DOCKET NO. 0391).**

Coun. KELLY offered the following:

Whereas, In order for the city council to fulfill its constitutional and statutory responsibility relative to authorizing expenditures for the city budget, the city council feels it is imperative that the Annual Appropriation and Tax Order be submitted in a more detailed form for review; and

Whereas, In furtherance of this objective the city council feels that it would be in the public interest to review the Annual Appropriation and Tax Order in a line item, rather than general departmental format; and

Whereas, In view of this compelling need, the city council believes that an Annual Appropriation and Tax Order submission in any other format other than that which the city council believes is sufficient to accomplish its constitutional role, would be an incomplete submission; Therefore Be It

Ordered, That the Ways & Means Committee is respectfully requested to direct Mr. Thomas Snyder, Director of Administrative Services, to prepare a new method of submission for the Annual Appropriation and Tax Order and be it further

Ordered, That all general appropriation submissions from whatever source and for whatever purpose be line itemed and detailed sufficiently so that the city council may exercise as much oversight and control over appropriation for every purpose in every division which the administration wish to expend monies; and be it further

ORDINANCE RE WORKPLACE SMOKING POLLUTION CONTROL (DOCKET NO. 0414)

Couns. YANCEY, McLAUGHLIN, BOLLING, NUCCI, SALERNO, HENNIGAN CASEY, CRAYTON and SCONDRA offered the following:

City of Boston

In the Year Nineteen Hundred and Ninety-Three
Workplace Smoking Pollution Control Ordinance

Be it ordained by the City Council of Boston, in accordance with the provisions of Massachusetts Gen-

eral Laws Chapter 43B, Section 13, and any other applicable law, as follows:

Legislative Intent — The use of tobacco for smoking purposes is found to be increasingly dangerous and life-threatening, not only to the person smoking, but also to the non-smoking person who is required to breathe air contaminated by environmental tobacco smoke. The most pervasive intrusion of the non-smokers' right to a healthy, unpolluted air space is the uncontrolled smoking in the workplace. The Boston City Council's intent, by the passage of this Ordinance, is to protect the health and welfare of the non-smoker by regulating smoking and the discomforting effect it creates in the confined environment of the work place.

Title — This Ordinance shall be known as the Boston Workplace Smoking Pollution Control Ordinance.

Purpose — Because the smoking of tobacco or any other weed or plant is extremely dangerous to health and is a cause of material annoyance and discomfort to those employees who are exposed to it and have, of economic necessity, to work in the confines of a workplace, the City Council hereby declares that the purposes of this act are (1) to protect the public health and welfare by regulating smoking in the workplace, and (2) to minimize the toxic effects of smoking in the workplace by requiring an employer to adopt a policy that will accommodate, insofar as possible, the preferences of non-smokers and smokers, and if a satisfactory accommodation cannot be reached for all employees, to prohibit smoking in the workplace.

This Ordinance does not prevent an employer from totally prohibiting smoking in the workplace. If an employer allows employees to smoke in the workplace, this Ordinance requires (1) that the employer make reasonable accommodation for the preferences of both non-smoking and smoking employees, and; (2) that the employer must give particular preference to employees who, as a result of either a cardiovascular illness, pulmonary illness, or any other physical condition affecting the eyes, nose and throat, are sensitive to the discomforts of tobacco smoke, and; (3) that if an accommodation satisfactory to all affected non-smoking employees cannot be reached, the employer must prohibit all smoking in the workplace, and; (4) that all non-smoking areas be designated and conspicuously marked with signs, and; (5) that employers be prohibited from terminating, without due cause, or discriminating against any employee solely because the employee exercised his or her right under the act.

Definitions — As used in this Ordinance:

(1) "City Council" means the law-making body of the community of Boston in the Commonwealth of Massachusetts;

(2) "Board of Health" means the municipal department, division, unit, or body of the municipality charged with regulating and/or enforcing the health laws or regulations in the Massachusetts community of Boston;

(3) "Person" means any individual person, firm, partnership, association, corporation, company, organization, or legal entity of any kind;

(4) "Employer" means any person who employs the service of an individual person;

(5) "Employer" means any person who is employed by any employer in consideration for direct or indirect monetary wage or profit;

(6) "Workplace" means any enclosed area of a structure or portion thereof intended for occupancy by any private or public business entities which will

provide primarily, but not exclusively, clerical, professional or business services of the business entity, or which will provide primarily, but not exclusively, clerical, professional, or business services to other business entities or to the public, at that location. The workplace includes, but is not limited to, office spaces or work spaces in office buildings, office spaces or work spaces in all municipal office buildings, office spaces or work spaces in all federal office buildings where other than federal employees are employed and the federal regulations restricting smoking in federal buildings are not applied, medical office waiting rooms or areas and other medical treatment facilities, all manufacturing plant office spaces or work spaces not under the control of the federal government regulations restricting smoking in federal buildings or the General Service Administration (GSA) regulations restricting smoking in federal buildings;

(7) "Office Space" or "Office Spaces" or "Work Space" or "Work Spaces" means any area occupied by an employee during the course of his or her employment, including, but not limited to, hallways, waiting areas, rest rooms, lounges, eating areas, as well as enclosed motor vehicles, ships, boats, and airplane;

(8) "Smoking" or "to smoke" or "smoke" means the inhaling, exhaling, burning or carrying of any lighted cigarette, cigar, pipe, or other article, or paraphernalia for tobacco or any other weed or plant, and;

(9) "Enclosed" means an area, other than a public lobby, which is closed in by a roof and four walls or sides or partitions, either complete or partial, with appropriate openings for ingress and egress.

Regulation of Smoking in the Workplace—

(1) Each employer who operates a workplace in Boston must implement, maintain, and conspicuously post for all employees to see, a written smoking policy which will contain, at a minimum, the following provisions and requirements:

(a) Any employee may object to his or her employer about the smoke hazard or discomfort in his or her workplace. Using existing means of ventilation or separation or partition of the work space, the employer must attempt expeditiously, within thirty (30) days of the initial date of objection, to reach a reasonable accommodation, insofar as possible, between the preferences of all the non-smoking and smoking employees. However, an employer is not required by this Ordinance to make any expenditures or structural changes to accommodate the preferences of non-smoking or smoking employees.

(b) If an accommodation which is satisfactory to all affected non-smoking employees cannot be reached in any given workplace, the preference and right of the non-smoking employees to work in a healthy atmosphere free from the hazards or discomforts of tobacco smoke shall prevail and the employer must prohibit all smoking in the workplace. Where the employer prohibits smoking in either the entire workplace or in any portion therein, the area(s) in which smoking is prohibited must be clearly and conspicuously marked with signs.

(2) The employer's smoking policy must be announced to all employees and posted conspicuously in all workplaces under the employer's jurisdiction in Boston.

- (3) Anyone who becomes an employer in Boston after the passage of this Ordinance must, within three (3) months of becoming an employer, adopt, implement, maintain, and conspicuously post for all employees to see, a written smoking policy with all the provisions mentioned herein.

Where Smoking Not Regulated — This Ordinance is not intended to regulate smoking in the following places and under the following conditions within Boston:

- (1) A private home which may serve as a workplace;
- (2) Any office space leased or rented by a sole independent contractor for his or her own use; or,
- (3) A business used exclusively for the sale of tobacco products.

Penalties and Enforcement —

- (1) The Boston Board of Health, having received a written and signed letter of complaint from an employee citing a violation of this Ordinance, must enforce, within thirty (30) days, the entire Ordinance against violations by either of the following actions:
 - (a) Serving written notice to comply to an employer, with a copy of the notice to the complainant, requiring the employer to correct, within ten (10) days, any violation of any section of this Ordinance. The employer must also be sent a copy of this Ordinance at the time notice is served. Upon receiving a second signed complaint at the Boston Board of Health for the same or continued violation by the same employer, and failing all other attempts by the Boston Board of Health to expeditiously, and within thirty (30) days, mediate the complaint, the complaint must be resolved by;
 - (b) Calling upon the attorney for Boston to maintain promptly an action for injunction to enforce the provisions of this act, to cause the correction of such violation or section, and for assessment and recovery of a civil penalty for such violation;
- (2) An employer who violates this act shall be liable for a civil penalty, not to be less than fifty (\$50) dollars or exceed five hundred (\$500) dollars, which penalty shall be assessed and recovered in a civil action brought by the attorney for Boston in any court of competent jurisdiction. Each day such violation is committed by an employer or permitted to continue by an employer shall constitute a separate offense and must be punishable as such. Any penalty assessed and recovered in an action brought pursuant to this paragraph shall be paid over to the treasury of Boston and become part of the general fund.
- (3) In undertaking the enforcement of this Ordinance, the City of Boston is assuming an undertaking only to promote the health and general welfare of the working public. It is not assuming, nor is it imposing on its officers and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury.
- (4) If any provision of this Ordinance is declared invalid or unenforceable by a court of competent jurisdiction, the other provisions of the act shall not be affected thereby, but shall continue in full force and effect.

THIS ORDINANCE SHALL TAKE EFFECT 90 DAYS AFTER PASSAGE.

Referred to the Committee on Government Operations.

ORDER AUTHORIZING COUNCIL PRESIDENT TO APPOINT LEGAL REPRESENTATION TO SEEK DECLARATORY JUDGMENT RE MAYOR'S COMPLIANCE WITH ORDINANCES PASSED OVER HIS VETO (DOCKET NO. 0415)

Coun. SCONDRAS offered the following:

Whereas, The Corporation Counsel for the City of Boston has the legal responsibility to represent both the City Council and the Mayor, and the ability to do so when conflict between the City Council and the Mayor arises, by appointment of Special Counsels or by other means; and

Whereas, The Corporation Counsel for the City of Boston has the legal responsibility to assure the enforcement of the city of Boston's ordinances and to assure that the City of Boston is administered in compliance with its ordinances, including those which become law when the Boston City Council overrides a Mayoral Veto; and

Whereas, During the administration of Mayor Raymond L. Flynn, the City Council has overridden thirty-eight Mayoral vetoes of ordinances and orders, however, ordinances made law in such manner are rarely enforced by the Flynn administration; and

Whereas, Ordinances made law through overrides of Mayoral vetoes would have a significant impact upon the lives of Boston residents and upon the administration of city government by the Flynn administration, were they enforced; and

Whereas, The material interests of the City of Boston are put at risk, and the checks and balances established in Boston's city charter are undermined when the Corporation Counsel's office refuses to represent the Boston City Council or to enforce ordinances made law through overrides of Mayoral vetoes, and when the Flynn administration also refuses to enforce such ordinances; Now Therefore, Be It

Ordered, That the Boston City Council, in meeting assembled, hereby authorizes President Menino to appoint legal representation to seek a declaratory judgment on the question:

"Must the Mayor obey and enforce ordinances passed in conformity with the city charter by override of a veto unless and until such a time as a court of competent jurisdiction overturns such ordinances?"

Unless the results of the meeting between Councilors Byrne and Scondras and the Corporation Counsel are satisfactory to the City Council as to the Corporation Counsel's willingness and ability to assure legal representation when it is desired by the City Council and to enforce and to assure enforcement by the Mayor and his administration of ordinances made law by City Council overrides of Mayoral vetoes.

Referred to the Committee of the Whole.

RESOLUTION SUPPORTING EFFORTS OF MASSACHUSETTS LEGISLATIVE CENTRAL ARTERY RAIL LINK CAUCUS TO OBTAIN DIRECT PASSENGER RAIL LINK BETWEEN NORTH AND SOUTH STATIONS (DOCKET NO. 0422)

Coun. TRAVAGLINI offered the following:

Whereas: Undue reliance upon particular modes of passenger transportation and the neglect of others leads to inefficiencies, delays and wasteful allocation of resources, and an efficient transportation system is ultimately important to the future economic vitality and stability of the City, the Commonwealth and the Northeast Region as a whole; and

Whereas: The lack of a direct passenger connection between North and South Stations in Boston impedes the use of passenger rail services in the Northeast; and

Resolved: That the Boston City Council supports the efforts of the Massachusetts Legislative Central Artery Rail Link Caucus to obtain a direct passenger rail connection between North and South Stations sufficient to provide through passenger-rail service between the Boston rail hub and points north and south along the Northeast Corridor; and Be It Further

Resolved: That the City Clerk be authorized and directed to send a copy of this resolution to the Governor of the Commonwealth, the Governors of the States of Maine, New Hampshire, Rhode Island, Connecticut, Vermont, and New York, and to the U. ORDER AUTHORIZING BORROWING OF
FUNDS AND ISSUANCE OF REFUNDING
BONDS IN AMOUNT NOT TO EXCEED
\$95,000,000 (DOCKET NO. 0432)

The following was received:

City of Boston
Office of the Mayor

February 9, 1993.

To the City Council.

Dear Councillors:

I hereby submit an order authorizing the borrowing of funds and the issuance of refunding bonds. The amount of this authorization shall not exceed \$95 million.

This action is being requested due to the recent declines in interest rates the City can realize savings by refunding some of its outstanding debt.

I recommend that you adopt this order promptly as the savings associated with a refunding bond issue are linked to current bond market conditions.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Whereas, Due to current favorable conditions in the municipal bond market, the City could realize significant savings in debt service costs by refunding certain of its outstanding general obligation bonds; and

Whereas, Section 13 of Chapter 643 of the Acts of 1983 of The Commonwealth of Massachusetts (the "Act") allows the City to issue refunding bonds when authorized by a two-thirds vote of the City Council; and

Whereas, It is likely that the City will need to enter into a refunding trust to effectuate such refunding; and

Whereas, Section 9 of the Act allows the City to enter into a trust agreement when authorized by a two-thirds vote of the City Council; and

Whereas, The viability of, and the debt service savings associated with, a refunding bond issue are extremely sensitive to bond market conditions and, therefore, prompt approval by the City Council is critical;

NOW, THEREFORE, BE IT ORDERED THAT:

1. Pursuant to the provisions of Section 13 of the Act, the Collector-Treasurer, with the approval of the Mayor, is hereby authorized to borrow such amounts as may be necessary, not to exceed \$95,000,000, and issue refunding bonds, the proceeds of which and earnings thereon shall be used to pay such portion of the outstanding bonds of the City as the Collector-Treasurer, with the approval of the Mayor, may select, at maturity or upon redemption prior to maturity, together with interest and premium, if any thereon and related expenses.
2. Pursuant to the provisions of Section 9 of the Act, the Collector-Treasurer and the City Auditor be, and hereby are, authorized to execute and deliver, on behalf of the City, with the approval of the Mayor, a refunding trust agreement in such form as determined by the Collector-Treasurer and the City Auditor with the approval of the Mayor.

Referred to the Committee of the Whole.

NO. 36

— KIDS CAN'T FLY —

Preliminary Report, Boston Department of Health and Hospitals

Introduction

Injury is the leading cause of death and disability for children between the ages of 1 and 19 years. The cost of injuries resulting from auto crashes, fires, poisoning and falls can be measured in terms of lives lost, direct medical expenses, loss of productivity, time lost from school and employment, and the physical, psychological and emotional trauma to the child, family and friends. Falls by children from windows are one of the most clearly preventable types of unintentional injury.

Scope of the Problem: Mortality and Morbidity

Injuries result in both mortality (death), and morbidity (illness and disability). In 1986, Massachusetts had lower rates of injury death than the U.S. average for all causes *except falls*. On average there were 2,695 injury deaths per year in Massachusetts. Injury mortality data are relatively complete and available at both the state and local levels — morbidity data are not.

However, mortality is only a small part of the total injury picture. For each injury death it has been estimated there are 42 hospitalizations and 1,200 emergency room visits. Among E coded discharges¹ from selected hospitals, falls were the leading cause of hospitalization from an injury, accounting for 35.7% of all injuries in 1985. There is an average of 60,269 hospital admissions due to injury each year in Massachusetts. Deaths due to falls are most prevalent among males under 5 years old and between the ages of 15-19 years. Among toddlers, fatal falls occur most often from windows and on stairs. Most falls however do not result in death, but more often result in serious injury and permanent disability.

Each year in Boston, usually during the spring and summer months, a young child dies falling from a window and city area hospitals treat, on average, 30 children for window fall injuries.

While remaining committed to its ongoing mission to reduce the rate of

all injuries suffered by Boston's children, the Childhood Injury Prevention Program periodically focuses on particular types of injury. Children falling from windows has been of concern to the program since its inception.

The High Cost of Injury Due to Falls

Nationally, the direct and immediate care costs of non-fatal injuries to children have been estimated at \$5.1 billion annually in 1987 dollars, while total injury cost are estimated at \$158 billion in 1985 dollars. Falls account for the highest proportion of costs through age 15.

The treatment and procedure required at a *minimum* for each injured due to a window fall are: admission to a hospital bed for at least 24 hours; chest x-ray; cervical spine x-ray; pelvic x-ray; intravenous fluids; blood tests; and, particularly if the child is less than 3 years old, a CAT scan. If the child is more seriously injured the length of stay in hospital is greater and the treatment required is more involved and complex. Last

year in Boston a child who fell from a window was hospitalized for 9 months with the expectation of even longer-term hospitalization, medical treatment and therapy.

The cost per child with the minimum of an overnight admission is \$6,800. In 1987 the mean initial inpatient cost per childhood fall injury was estimated at \$4,254. Nationally, it has been estimated that the direct cost for falls is \$528.4 million for in-patient treatment and \$607.1 million for outpatient treatment in 1987 dollars. The cost of injury fatalities is measured in terms of years of life lost and for 1985 was estimated as being \$47.9 billion, nationally.

Possible solutions

New York City set the precedent for preventing falls from windows by establishing the model "Children Can't Fly" program which has, since 1976, required by law the installation of protective window guards in all multiple dwellings with children under 10 year of age.

The New York City window falls prevention program, "Children Can't Fly", clearly demonstrates that when window guards, which cost as little as \$7-10 each, are installed there is a significant decline in the number of falls by children from windows. Prior to the enforcement of the New York City window guard law in 1976, the number of preventable falls was 161 per year. By 1987 the number of preventable falls was 49 and between 1988 and 1990 the average annual number of preventable falls was 28 per year. This translates to a savings of more than \$890,000 per year in direct medical costs alone.

KIDS CAN'T FLY . . .

(Continued from Front Page)

With window guards being 90% effective in preventing falls in high-rise buildings, for the City of Boston the initial saving in direct medical costs would be more than \$180,000 each year. These figures do not include the cost of long-term care and special services that injured, especially brain-injured, children require. Similarly, these figures do not account for increased insurance premiums, loss of family income and productivity, or pain and suffering. The legal implications and costs of window falls are substantial: currently two window fall cases are being litigated in Boston that are potentially multi-million-dollar suits.

Recommendations for Action

1. A Public Service Announcement video is now available for television as a public education tool. The State of New York Department of Health has been extremely cooperative in our effort. I recommend that you urge all local television stations to broadcast this Public Service Announcement widely.
2. Work with public health experts from Boston University, Harvard and Tufts to develop a multimedia community education effort that promotes awareness and safety tips, modeled on the highly successful *Children Can't Fly* information campaign in New York City.
3. Conduct a broad-based advertising campaign in community newspapers in neighborhoods throughout the city.
4. Integrate outreach efforts aimed at families with preschool-age children. Immunization, Healthy Baby and Healthy Child, Lead Poisoning screening and prevention and child nutrition outreach programs can promote awareness of the dangers young children face from injuries and how parents can protect their children from these risks.

5. Convene a meeting of City departments involved in children's and housing issues — including the Department of Health and Hospitals, Inspectional Services Department, the School Department, Boston Housing Authority, Public Facilities Department, Boston Redevelopment Authority, Emergency Shelter Commission, Fire Department, Neighborhood Services, Boston Community Centers and Office of Jobs and Community Services — to develop a coordinated strategy and implementation plans to address this issue immediately and long term.
6. Meet with housing development and management corporations, neighborhood health centers, preschool programs, community-based organizations, Greater Boston Legal Services, churches and community leaders to increase awareness of the problem and what can be done to protect children in their community.
7. Assist and inform all hardware stores in Boston neighborhoods

about how and where to get low cost but effective window guards and urge them to make these devices, which cost about \$7-10 more widely available. Making window protection devices readily available throughout the City is a vital step in helping to protect children from avoidable injuries.

8. Use the Mayor's 24-hour Hotline to inform people about where they can get window guards or have them installed.
9. Work with the DH&H Childhood Injury Prevention Program and the Healthy Boston Initiative to bulk purchase window guards and make them available in housing where the risk of injury is greatest.
10. Work with City Year and other community-based organizations to train volunteers to install window guards in transitional housing and family shelters.
11. Review all zoning, fire and building codes with the appropriate departments to identify potential amendments that would provide security and protection for young children and incorporate these amendments into the City housing code.
12. Work with the appropriate state regulatory agencies such as the State Board of Building Regulations and Standards and the Massachusetts Department of Public Health to expand building and sanitary codes to provide window guards or equally effective protective devices in new construction, with the ultimate goal to legislate window guards in multiple dwellings.
13. Work with the Boston delegation and Boston City Council to gain support for legislation requiring window guards in multiple dwellings in the City of Boston and the Commonwealth.

KIDS CAN'T FLY

Falling is the leading cause of injury to children under the age of five. Falls from heights can cause serious injury or death. The heartache and terrible sense of loss for the families of these children are overwhelming. The cost per child for treatment is estimated to start at \$6,800; nationally, hospital costs for falls are more than \$1.1 billion a year.

Here are five important ways you can prevent young children from falling out of windows:

- **Lock** all unopened **windows**.
- **Keep furniture**, or anything a child can climb on, **away from windows**.

- **Open windows from the top**, not from the bottom.

- **Use screens** to keep insects and bugs out of homes. Don't depend on screens to keep a child from falling.

- **Install window guards**. When properly fitted, they prevent children from falling out of windows. But do not install window guards on a window that is a fire exit. Window guards are available in most hardware stores and cost as little as \$6 each.

For more information on how you can prevent children from falling out of windows, or where you can obtain window guards, call us (534-5197) (635-4500). We're here to help.

SKIN CANCER

When the Sun Is No Longer Fun

The sun gives life — but it can also be a deadly force. Exposure to the sun is responsible for more than 90 percent of skin cancers. This year more than 500,000 Americans will develop some form of skin cancer, and between 7,000 and 8,000 will die from it. In fact, one out of every seven Americans will develop the disease during his or her lifetime.

Recent research indicates that both consistent, long-term exposure to the sun and intense periods of exposure can be equally harmful. The good news, however, is that almost every type of skin cancer is preventable.

Proceedings of City Council

Wednesday, February 24, 1993.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 3 p.m., President MENINO in the chair. Absent, Councillors BYRNE, TRAVAGLINI, and YANCEY.

INVOCATION

Reverend Dr. Michael E. Ellis, Columbus Avenue African Methodist Episcopal Zion Church, Boston, delivered the invocation, and the meeting was opened with the pledge of allegiance to the flag.

DISAPPROVING ORDINANCE RE "THE FAMILY PROTECTION ACT" (DOCKET NO. 0211)

The following was received:

City of Boston
Office of the Mayor

February 12, 1993.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an ordinance passed by your Honorable Body on January 27, 1993, Docket No. 0211, the so-called "Family Protection Act."

The proposed ordinance, which focuses upon health benefits for city employees, is reflective of a large and very serious problem in this country. As I have followed this matter, I have come to understand the discussion is not so much about "alternative lifestyles" as it is about access to universal health care.

I have been in the forefront of the call for universal health care, and many City Councillors have raised that same cry. Meanwhile, our city has shown great compassion and creativity not only in the benefits we extend to our city employees, but with the care we provide through Boston City Hospital to anyone who walks in, regardless of their ability to pay — and, as you know, we are rebuilding that hospital so that future generations of Bostonians will continue to have excellent health care available to them. Through our sustained efforts, infant mortality rates in Boston have declined dramatically. Our newly instituted "Healthy Boston" program is a farsighted effort to intervene in a preventative way at a variety of levels to make this a healthier city. And, as I announced at the State of the City speech, it is our intention to see that every child in this city is vaccinated. The health care crisis cannot be resolved at the local government level but our city has been in the forefront of caring for our residents where we can while continuing to press for a true comprehensive solution on the national level.

The "Family Protection Act" proposed by the Council has provoked considerable debate and discussion, not only on the Council floor, but in the media and in the neighborhoods and in the Mayor's office. I

have listened to that debate and I have been involved in those discussions and I have come to understand that it raises fundamental issues of common concern about denial of access to health benefits. I have learned that, despite the generous health care benefits we provide to city workers and their families, present programs exclude some household members and can leave them denied the ability to obtain adequate coverage even where they are willing and able to pay all of the additional costs.

We have great expectations that President Clinton will fulfill his promise of a reform of our health care system to provide for universal health care. He already has demonstrated his concern for the American family by signing the Family Leave Act.

While we await the reform that can only be achieved at the national level, however, there may be more that we, as a city, can do to help our employees — not by expending more scarce city funds, but by challenging the health care providers to lift the barriers that deny the household members access to health coverage. Therefore, I have asked Irene Carrington, Director of the City's Health Benefit and Insurance Division, to aggressively challenge the health care providers to lift these barriers. Her mission is to devise a Pilot Program which could extend access to health insurance benefits to household members dependents of City of Boston employees; the household member would pay the full cost of the extended coverage. This Program must have no adverse financial consequences for the City and, consistent with state law, there would be no government employer contribution towards this coverage.

By Executive Order, I am also acting to bring our personnel policies within the spirit of the Family Leave bill recently signed by the President. My Executive Order will extend sick, bereavement, and family leave benefits to household members of non-union City of Boston employees. I shall also direct the Office of Labor Relations to engage in impact bargaining to extend the same benefits to the household members of union employees.

We will move forward on this effort. But while I thank the Council for bringing attention and greater clarity to this issue, I am compelled to veto the ordinance presented to me for several reasons.

First, we are prohibited by state law from doing the things called for by the proposed ordinance. The principal legal obstacle is the state law governing municipal employee health insurance, General Law chapter 32B which does not permit the extension of health insurance benefits to dependents other than those specifically delineated in that statute (see May 1, 1992, Corporation Counsel opinion, a copy of which is attached). As this legal issue can only be addressed at the state level, we have filed a bill with the legislature which puts the issue in the proper forum for its debate and resolution. Advocates for extending municipal health benefits to domestic partners, such as the Boston Gay & Lesbian Political Alliance and the Massachusetts Gay & Lesbian Political Caucus, have also filed their own bills in an effort to remove the prohibition contained in state law, G.L. c.32B.

Second, it is extremely important that we reflect carefully at this time about the fiscal consequences of new initiatives. State cuts in local aid and other declines in the City's revenue require that we be cautious in pursuit of new initiatives at this time. The true cost to the taxpayers if this ordinance were to be implemented is unknown, but all who have ventured an estimate speak in terms of several million dollars in the first year alone. We simply must act with fis-

cal responsibility and we do a disservice to the taxpayers if we were to enact this ordinance without having the necessary hard data and hard cash.

There are other legal impediments to the Council's proposed ordinance as well, of which I will cite only a few. The provisions of the proposed ordinance also conflict with the Commonwealth's present privacy and confidentiality laws, including the Student Records Law, G.L. c. 71, s. 34D, 34E (1990 ed.) limiting student record access to parents and guardians; the Public Records Law, G.L. c. 66, s. 10, 950 C.M.R. 32.05(5) (city cannot require an individual to disclose identity as a condition to accessing public records; the proposed ordinance requires that the City Clerk create a record identifying those individuals who access certain records under this ordinance); as well as some Home Rule and City Charter provisions. Even the language of the proposed ordinance itself would make implementation nearly impossible since many of the terms used are so ambiguous and contradictory.

In summary, as I have discussed with a number of people including people I met with just yesterday at the Fenway Community Health Center, this issue is about access to quality health benefits, not about choice of lifestyle. Therefore, I am disapproving this proposed ordinance while moving forward in pursuit of a program that will address the injustice that occurs when our employees' household members are denied the right to purchase adequate health insurance.

Very truly yours,

Raymond L. Flynn,
Mayor of Boston.

DISAPPROVING ORDER RE POSTING OF OFFICIAL SPEED LIMIT SIGNS IN BUSINESS DISTRICT ON CENTRE STREET, WEST ROXBURY (DOCKET NO. 0323)

The following was received:

City of Boston
Office of the Mayor

February 12, 1993.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on January 27, 1993, Docket No. 0323, concerning the posting of official speed limit signs in the business district on Centre Street in West Roxbury.

My reason for disapproval is because the posting of official speed limit signs is governed by Chapter 90, Section 18 of the Massachusetts General Laws. This law provides that before posting an official speed limit sign a study of actual vehicle speeds must be made at each proposed location and the official speed limit must be set at 85 percent of actual vehicle speeds.

Rather than conduct this study which is costly and could result in the posting of an official speed limit greater than 30 miles per hour, the Transportation Department has recommended that warning signs be posted at several key locations on Centre Street in West Roxbury reminding motorists that in thickly settled areas the speed limit is 30 miles per hour. I have directed the Transportation Department to take this step, which complies with the spirit of the order.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

RESOLUTION REQUESTING ZONING COMMISSION TO CONSIDER MOTION TO SUSPEND PROVISIONS OF ARTICLES 26A AND 26B RE PAYMENTS TO NEIGHBORHOOD HOUSING AND JOBS TRUST FUNDS UNTIL 1/1/96 (DOCKET NO. 0462)

Coun. BYRNE offered the following:

Whereas, Payments to the Neighborhood Housing and Jobs Trust Funds required by Articles 26A and 26B of the Boston Zoning Code were intended to mitigate the effects of large-scale development in the City; and

Whereas, Since the imposition of Proposition 2 1/2 in 1981, increases in the City's property tax levy have been due in large part to new growth in the form of downtown development; and

Whereas, At the time of the adoption of Articles 26A and 26B large-scale downtown development was proceeding at a rapid pace with new growth representing 71.1% of the levy limit increase; and

Whereas, In FY92 new growth represented 49.8% of the levy limit, the lowest the City had recorded in the past seven years; and

Whereas, It is imperative that the City take all steps necessary to ensure that there are no disincentives to development during these difficult economic times; and

Resolved, That the Boston City Council requests the Boston Zoning Commission to consider a motion to suspend the provisions of Articles 26A and 26B until January 1, 1996.

Referred to the Committee on Planning and Economic Development.

APPOINTMENT OF TEMPORARY EMPLOYEE (DOCKET NO. 0463)

COMMITTEE ON NEIGHBORHOOD SERVICES TO HOLD HEARING RE SAFETY AND LIVING CONDITIONS OF ELDERLY RESIDENTS OF ELDERLY HOUSING DEVELOPMENTS (DOCKET NO. 0472).

Couns. SALERNO and O'NEIL offered the following:

Whereas, The Massachusetts Senior Action Council (MSAC) is a highly respected, membership-based, senior advocacy organization; and

Whereas, MSAC has been active in numerous housing issues affecting residents of public and private elderly housing developments; and

Whereas, The Boston Chapter of MSAC played an important role in developing and passing the Elderly Security Ordinance of 1989, and has continued to monitor the implementation of the Ordinance; and

Whereas, The Boston Chapter of MSAC has recently conducted a survey of ten public elderly housing developments located in Dorchester, West Roxbury, South Boston, Roxbury, Mattapan, and East Boston; and

Whereas, The results of the survey have been published in a report entitled, "Report on Site Visits to Boston Housing Authority Elderly Housing Developments"; and

Whereas, This Report documents serious public safety and public health conditions, a lack of regular

and timely maintenance, probable housing and building violations, and incomplete implementation of the Elderly Security Ordinance; therefore be it

Ordered, That the Committee on Neighborhood Services hold a public hearing to review the report prepared by MSAC, the implementation of the Elderly Security Ordinance, and relevant information regarding the safety and living conditions of elderly residents living in elderly housing developments; and further be it

**COMMITTEE ON NEIGHBORHOOD SERVICES
TO HOLD HEARING RE ROAD AND TRAFFIC
CONDITIONS IN JAMAICA PLAIN
(DOCKET NO. 0473)**

Couns. BOLLING, HENNIGAN CASEY, SALERNO, NUCCI and O'NEIL offered the following:

Whereas, Many Boston residents and commuters are complaining that the main thoroughfares in Jamaica Plain are in a state of utter disrepair, resulting in damage to vehicles, a slowed flow of traffic, and unsafe and unsightly roads; and

Whereas, The streets and traffic problem in Jamaica Plain will be exacerbated in March, 1993, when repairs to the Jamaica way will begin causing Centre Street, South Huntington Avenue and Huntington Avenue to be used as alternate routes; and

Whereas, The MBTA is responsible for maintaining the streets within trolley tracks from the Arborway to Brigham Circle; and

Whereas, The Public Works Department is responsible and has made a commitment to repairing and maintaining the street surface adjacent to the trolley route along South Street, Centre Street, and South Huntington Avenue and Huntington Avenue; and

Whereas, Despite the Public Works Department's commitment to repairing the streets, they remain in dire condition; and

Whereas, Traffic problems in Jamaica Plain will be further complicated when the Washington Street reconstruction project commences in July, 1993; therefore be it

Ordered, That the Committee on City and Neighborhood Services conduct a public hearing on road

and traffic problems in Jamaica Plain; and be it further

Ordered, That the Public Works and Transportation Commissioners be requested to testify at said hearing.

Referred to the Committee on Neighborhood Services.

RESOLUTION CALLING FOR BOYCOTT OF

ALLSTON-BRIGHTON COALITION RECEIVES FIRST HEALTHY BOSTON PROJECT GRANT

Allston-Brighton Healthy Boston Coalition receives grant. In ceremonies at the Jackson-Mann Community Center, 500 Cambridge St. in Allston, Acting Mayor Thomas Menino and Health & Hospitals Commissioner Lawrence Dwyer presented a check for \$225,000 from Healthy Boston. The grant will fund a program to increase health care access for Allston-Brighton's diverse ethnic communities. (left to right), Ted Landsmark, Director of Healthy Boston; Rev. Young Bok Rah, Community United Methodist Church; Judith Kurland, Former Commissioner, DHH; Lawrence A. Dwyer, Commissioner of Health & Hospitals (holding his daughter, Katie); Laurie Sherman, Director, Allston-Brighton Coalition; Catalina Montes (holding check), co-chair, Allston-Brighton Coalition; Mark Gemo, co-chair, Allston-Brighton Coalition.

The Allston-Brighton Healthy Boston Coalition has been awarded a \$225,000 grant from Healthy Boston. Boston's initiative to improve the health of its communities. The grant will fund an innovative program that improves access to health and social services for the diverse ethnic groups in Allston and Brighton. Acting Mayor Thomas Menino and Boston Health & Hospitals Commissioner Lawrence A. Dwyer made the award on the steps of the Jackson-Mann Community Center, 500 Cambridge Street in Allston, on August 21.

"The Allston-Brighton Healthy Boston Coalition has made great progress in reaching out and organizing diverse groups in the community," said Commissioner Dwyer. "It is my hope that these efforts will lead to improved service to residents and ultimately a healthier community. The process of community development

and neighborhood empowerment will strengthen all of the City's neighborhoods as Boston moves forward. Laurie Sherman, Catalina Montes and everyone involved deserve our gratitude and support."

Called LINC'S (Leadership to Improve Neighborhood Communication and Services), the Allston-Brighton

project will combine English as a second language (ESL) and outreach worker training for 45 community residents. Through LINC'S, the trainees will improve their English communication skills and will serve as 'Cultural liaisons' between their native cultural community and health care and social service agencies. The project will also produce a referral guide in a variety of languages for all neighborhood residents and local service providers.

According to Catalina Montes, co-chair of the Allston-Brighton coalition, "Allston-Brighton has undergone tremendous change in the past decade to become one of the most diverse neighborhoods in the city. Almost one-third of our residents are immigrants or refugees; 36% of the city's Russian population and 25% of its Chinese population live here. The Latino and Haitian population has doubled over the past 10 years. We have met as a coalition for over a year, involving over 200 community members speaking 9 different languages, in developing this plan. This exciting project demonstrates how a whole community can come together and build upon this diversity." Speakers at the press conference included representatives from the Latino, Korean and Russian communities.

Allston-Brighton is one of 21 coalitions citywide funded by Healthy Boston, a new city program to improve the health of Boston residents. Healthy Boston works to empower communities, by involving residents in defining and resolving their own

community concerns, and by improving coordination between communities and government, as well as among agencies that provide health, economic development, education, housing, human services and public safety services.

According to Ted Landsmark, Executive Director of Healthy Boston, "This first implementation grant is a prime example of how a local community can creatively plan to mobilize residents and improve the delivery of care." More residents, especially those from newcomer populations not connected to services, will receive primary and preventive health care. As the earlier visit to Hyde Park by Senator Kennedy and Mayor Menino showed in support of the Clinton health plan, improving health and making the human service system work has to start at the neighborhood level."

Healthy Boston will fund at least seven additional innovative implementation projects from its community coalitions over the next year.

For further information about the Allston-Brighton project, contact Laurie Sherman, coalition coordinator, at 789-5092. For further information about Healthy Boston contact the central office at 635-3140.

HEALTH COMMISSIONER DWYER MEETS WITH HOMELESS ADVOCATES

*Tours Long Island Shelter and
Jamaica Plain's McInnis House*

Boston Health and Hospitals' Commissioner Lawrence A. Dwyer recently made site visits to Long Island Shelter and to the Barbara M. McInnis House in Jamaica Plain to reinforce the city's commitment to providing quality health services for the homeless. Kelly Cronin, director of the city's Emergency Shelter Commission, visited the facilities with Commissioner Dwyer.

"The Department of Health and Hospitals is committed to preserving the dignity and respect of the homeless in Boston by providing beds, hot meals, quality health care and social services to those in need, whether that be job skill training, medical or mental health services," said Commissioner Dwyer. "Often, homeless people have lost contact with any network of personal support they may have had in the past. By providing a comprehensive array of services we can help these people lead productive lives once again."

The Barbara McInnis House located at 461 Walnut Ave., Jamaica Plain, is one of the nation's first respite programs for the homeless. The house is operated by the Boston Health Care for the Homeless Program, which also provides primary care clinics five mornings a week at Boston City Hospital.

Boston's shelter system provides a broad range of critical services at three separate sites to more than 600 homeless men and women each day. In addition to the Long Island Shelter, Boston's shelter system includes the Woods-Mullen Shelter and the Long Island Annex Shelter at St. Francis House in downtown Boston.

The city, in partnership with the Friends of Boston's Long Island Shelter, a non-profit fundraising group, operates two transitional programs. The Wise Street Transitional House located in Jamaica Plain, and a 20-bed program called Safe Harbor, located on Long Island, which

opened in 1992 for homeless men and women who are symptomatic with AIDS or AIDS-related complex who continue to struggle with addiction.

For more information on shelter services across the city, contact the Emergency Shelter Commission at 635-4507.

WEIU TO WELCOME NEW YORK DANCE TROUPE, LeMASQUERADE TO BROADWAY TO BOSTON GALA

On Saturday, October 2, from 8 p.m. to 1 a.m., the Women's Educational and Industrial Union (WEIU) will host *Broadway to Boston*, a gala celebrating the diversity of Boston through music, to be held in the Essex Ballroom of the Westin Hotel Copley Place.

Hosted by WBZ-TV4's *Eyewitness News* Co-Anchor Liz Walker, *Broadway to Boston* will feature entertainment from *Le Masquerade*, an exciting and creative dance troupe from New York. With their elaborate costumes, special-effect lighting and top-notch dance moves, the troupe will bring "Broadway to the ballroom" and party-goers onto the dance floor as they perform adaptations of popular Broadway musicals.

Featured at numerous Fortune 500-company parties around the country, as well as having performed at Trump Tower, Radio City Music Hall, and on the "Live with Regis and Kathie Lee Show," *Le Masquerade* is scheduled to perform scenes from "Phantom of the Opera," "Crazy for You," "Tango Argentina," "Dream Girls," and "A Chorus Line" at the WEIU gala.

In addition to the entertainment, *Broadway to Boston* also features a silent auction, where guests can take part in a bidding war for the chance to win exciting prize packages such as trips, tickets to sporting events, gifts from Boston's finest retail shops, and dinner at some of the area's best restaurants.

Broadway to Boston not only celebrates the diversity of Boston, but also takes place in a year when Broadway is commemorating its 100-year anniversary. It was in 1893 that the American Theater, Broadway's premiere theater on 42nd Street, first opened its doors to the public who paid as little as 25 cents to see "The Prodigal Daughter." Several theaters opened up after this, and today of course, the area is best-known as Times Square.

Proceeds from the gala will benefit the WEIU's service programs, which assist job hunters and career changers, the elderly and disabled, teenage mothers, and homeless and battered women with children. Located in Boston's Back Bay, the Union also operates a retail shop in support of its services, and offers educational programs and cultural outings to the public.

Tickets to *Broadway to Boston* are \$100 per person, which includes a sit down dinner. For more information, call the WEIU at (617) 536-5651, ext. 135, or stop by its 356 Boylston Street location.

The Twelfth Biennial Redmond Symposium on the health and hazards associated with the fire service was held at the Hynes Convention Center during the week of August 8th through the 14th.

My sincere thanks and appreciation are extended to all the members of this department who assisted Local 718 in co-hosting this valuable informative symposium.

The effort and selfless acts of assistance that were extended to the delegates and their families were of the finest quality and reflected well upon the Local Union and all members of the Boston Fire Department. The hospitality and friendship demonstrated to all of the delegates was without question first class.

Again, my gratitude to all of the many volunteers who worked so hard in making this conference so enjoyable and memorable for everyone who attended. All of you are to be commended for representing the Boston Fire Department so well and with such dignity and respect.

LOAN ORDER AUTHORIZING BORROWING OF
FUNDS AND ISSUANCE OF REFUNDING
BONDS FOR BOSTON CITY HOSPITAL IN
AMOUNT NOT TO EXCEED \$200 MILLION
(DOCKET NO. 0547)

The following was received:

City of Boston
Office of the Mayor

March 2, 1993.

To the City Council.

Dear Councillors:

I transmit herewith for your approval a loan order authorizing the borrowing of funds and the issuance of refunding bonds for Boston City Hospital. The amount of this authorization shall not exceed \$200 million.

This action is being requested because of recent declines in interest rates in the municipal bond market. The City will realize significant savings by refunding its outstanding debt.

Because the savings associated with a refunding bond issue are extremely sensitive to current bond market conditions, I urge your Honorable Body to pass this order as expeditiously as possible.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Whereas, The City has issued its Revenue Bonds, Boston City Hospital (FHA Insured Mortgages) Series A (the "Prior Bonds") under the authority of Chapter 659 of the Acts of 1986 (the "Act") and Chapter 643 of the Acts of 1983 (the "Bond Procedures Act") for the purpose of the construction, equipping and furnishing of a structure as a replacement for all or a portion of the current facility of the acute care community hospital known as Boston City Hospital and the demolition, renovation, equipping and furnishing of all or a portion of the current hospital facilities, including any costs necessary or incidental thereto or to the financing thereof;

Whereas, Due to current favorable conditions in the municipal bond market, the City could realize significant savings in debt service costs by refunding the Prior Bonds; and

Whereas, Section 13 of the Bond Procedures Act and Section 2 of the Act allows the City to issue refunding bonds when authorized by a two-thirds vote of the City Council; and

Whereas, It is likely that the City will need to enter into a refunding trust agreement to effectuate such refunding; and

Whereas, Section 9 of the Bond Procedures Act allows the City to enter into a trust agreement when authorized by a two-thirds vote of the City Council; and

Whereas, The viability of, and the debt service savings associated with, a refunding debt issue are extremely sensitive to bond market conditions and, therefore, prompt approval by the City Council is critical;

NOW, THEREFORE, BE IT ORDERED THAT:

1. Pursuant to the provisions of Section 13 of the Bond Procedures Act and Section 2 of the Act, the Collector-Treasurer, with the approval of the Mayor, is hereby authorized to borrow such amounts as may be necessary, not to exceed \$200,000,000, and issue refunding bonds (the "Refunding Bonds"), the proceeds of which and earnings thereon to be used to pay all or such portion of the Prior Bonds as the Collector-Treasurer, with the approval of the Mayor, may select, at maturity or upon redemption prior to maturity, together with interest and premium, if any thereon and related expenses and the other costs permitted by said Section 13 and said Section 2.

2. Pursuant to the provisions of Section 9 of the Bond Procedures Act, the Collector-Treasurer and the City Auditor be, and hereby are, authorized to execute and deliver, on behalf of the City, with the approval of the Mayor, a refunding trust agreement in such form as determined by the Collector-Treasurer and the City Auditor with the approval of the Mayor.
3. The Collector-Treasurer be, and hereby is authorized, with the approval of the Mayor, to issue the Refunding Bonds in any one or more of the forms described in Section 3(a) of the Act, including without limitation, special obligation bonds described in Section 8 of the Bond Procedures Act secured by a mortgage of certain real and personal property.
4. In connection with the issuance of the Refunding Bonds, under the provisions of Section 4 of the Act, the Collector-Treasurer be, and hereby is, authorized to execute and deliver, on behalf of the City of Boston, with the approval of the Mayor, a mortgage and an assignment of interest in property, in such forms as determined by the Collector-Treasurer with the approval of the Mayor and mortgaging and assigning the City's interest in such real and personal property as authorized by law and determined by the Collector-Treasurer with the approval of the Mayor; and, if determined to be advisable by the Collector-Treasurer with the approval of the Mayor, the Collector-Treasurer be, and hereby is, authorized to assign, consent to the assignment of and/or reaffirm the existing mortgage and assignment of interest in property originally delivered in connection with the issuance of the Prior Bonds for the benefit of the holders of the Refunding Bonds.
5. In the discretion of the Collector-Treasurer and the Mayor, the Refunding Bonds may be secured by one or more trust or security agreements in accordance with the provisions of Section 9 of the Bond Procedures Act.
6. In connection with the issuance of the Refunding Bonds, under the provisions of Section 4(c) of the Act, the Collector-Treasurer be, and hereby is, authorized to obtain insurance from the federal housing administration and to execute and deliver, on behalf of the City of Boston, such documents, contracts and instruments, including without limitation, an application for such insurance, a regulatory agreement, a building loan agreement, a servicing agreement and a mortgage note, including any assignment of the foregoing, as the Collector-Treasurer, with the approval of the Mayor, may deem necessary or appropriate in connection with obtaining said insurance, in such forms as determined by the Collector-Treasurer with the approval of the Mayor; and, if determined to be advisable by the Collector-Treasurer with the approval of the Mayor, the Collector-Treasurer be and hereby is, authorized to assign, consent to the assignment of, and/or reaffirm the agreements of the nature described above originally delivered in connection with the issuance of the Prior Bonds for the benefit of the holders of the Refunding Bonds.
7. In connection with the issuance of the Refunding Bonds, under the provisions of Section 9 of the Bond Procedures Act, the Collector-Treasurer be, and hereby is, authorized to procure such letters or lines of credit or other credit facilities ("Credit Facilities"), including the amendment and restatement of any existing Credit Facilities, as the Collector-Treasurer, with the approval of the Mayor, may deem necessary or appropriate, and to execute and deliver reimbursement agreements, including amendments and restatements of any existing reimbursement agreements, with the issuers of such Credit Facilities in such forms as determined by the Collector-Treasurer with the approval of the Mayor.

UNITED WAY OF MASSACHUSETTS BAY ALLOCATES MORE THAN \$20 MILLION TO 123 AGENCIES IN GREATER METROPOLITAN BOSTON AREA

BOSTON — In pursuit of its mission to strengthen families, build a future for our youth, and move people from dependency to self-sufficiency, the United Way of Massachusetts Bay has announced it will be distributing more than \$20 million to 123 health and human care agencies, initiatives and direct service programs covering 22 Greater Metropolitan Boston cities and towns.

"In the face of an economy which continues to show signs of distress, our 1992 fund-raising campaign declined by 7.4 percent," said William C. van Faasen, Chairman of the Board at the United Way, and President and Chief Executive Officer of Blue Cross and Blue Shield of Massachusetts, Inc. "Despite the shortfall, we were able to minimize reductions in community funding to 4.6 percent.

"Doing more with less summarizes our present situation. We are working towards quality within our limited resources. Through continued cost-cutting and greater administrative efficiencies, the United Way of Massachusetts Bay was able to maximize the dollars available for agencies and initiatives," added Van Faasen.

For more than 50 years, the United Way of Massachusetts Bay has been a good friend in your neighborhood, a network you can depend on in time of need. The United Way works quietly and steadily 365 days a year, giving people with various problems a chance to reach their full potential and become productive members of our society.

"The United Way must play a leadership role in meeting the human service needs of our community," said United Way board member and volunteer Luisa Medrano, a Greater Metropolitan Boston resident who is the newly appointed Clinic Director of the Massachusetts Society for the Prevention of Cruelty to Children (a United Way supported agency). "We must continue to act as a catalyst in

community problem solving, and work in partnership with our agencies to define current priorities and find the best ways to address them.

"Throughout our service area, we see agencies and funders, both public and private, working in partnership to promote effective community-building strategies. Without abandoning services for those most in need, people are solving problems through strategies which emphasize personal empowerment, self-sufficiency, prevention, and which build on the assets already existing within the community."

"People should realize that their generosity makes a positive impact in the lives of all those individuals who depend on United Way-funded agencies and services each day to survive and move forward," said Marian L. Heard, President and Chief Executive Officer at the United Way of Massachusetts Bay. "We strive not only to solve problems, but to prevent them from happening, and we leverage donor dollars to do this as efficiently and effectively as possible."

Heard went on to talk about the impact of donor dollars. "When people give to the United Way, they're really making a difference in other people's lives," said Heard. "Their dollars provide food and shelter for the homeless; programs for substance abuse prevention; services for abused women and their children; day care services for working parents; youth development programs; home health care for the elderly; and efforts to eliminate racism and discrimination. These are only a few examples of what the United Way is all about — people helping people to help themselves."

For example, in the City of Boston, 36 percent of all students who entered the 9th grade in 1989 will drop out before graduation, including 45 percent of all Hispanic students. In Boston Public Schools, Hispanic students have the highest dropout rate and Asians have the lowest. Research indicates that school dropouts are three times more likely to be arrested and six times more likely to be unwed parents.

In order to help young people to better themselves, Jobs for Youth — Boston, an agency supported by the United Way of Massachusetts Bay, has developed an aggressive education and jobs training program. In 1992, 68 youngsters earned high school diplomas/GED certificates, 12 returned to high school, 20 entered post-secondary schools, 70 had job placements, 137 completed career skills training and 31 entered job training programs.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

LAW DEPARTMENT

C. 1853-94
July 13, 1993

Computer Training Services

Dear Mr. Mayor:
I respectfully request your permission to dis-
pense with public advertising and to award a con-
tract to Digital Equipment Corporation, a corpo-

ration located at 150 Federal Street, Boston, MA 02110, for on-site employee training in the operation and use of the Law Department's new computer system. This contract is exempt from the provisions of G.L. c. 30B and is awarded under the authority of the City Charter.

Under the terms of the contract, Digital Equipment Corporation will provide expert user training and initial support and assistance for the Department's computer system administrator. Digital Equipment Corporation is uniquely qualified to perform this function, because they designed and installed the system.

Compensation under this contract shall not exceed thirty-two thousand dollars (\$32,000), to be paid at the rate of one hundred dollars (\$100) per hour, an amount which I have determined to be reasonable.

The term of this contract shall be from July 12, 1993, to June 30, 1994. This contract is being submitted late due to administrative difficulties in acquiring all papers necessary for contract processing.

Because of the professional nature of the services to be performed, I believe that public advertising would serve no useful purpose.

Sincerely,

Albert W. Wallis,
Corporation Counsel.

EDIC/BOSTON

C. 19056-94
June 16, 1993

Professional Services

Dear Mr. Mayor:

Pursuant to the vote of the Public Facilities Commission (PFC), dated May 28, 1993, stating that the Chief Executive Officer of the Economic Development and Industrial Corporation of Boston (EDIC) is authorized to request from the Mayor, in the name of and on behalf of the Commission, written authority to enter into contracts with service providers funded under the Community Development Block Grant (CDBG) program, I respectfully request your Honor's permission to award a contract to Quincy School Community Council, Inc./Community Management Assistance Corporation (CMAC), a non-profit corporation, located at 885 Washington Street, Boston, Massachusetts 02111, for the purpose of providing professional services in support of the Community Development Block Grant (CDBG) program. This contract is exempt from the provisions of G.L. c. 30B as it represents a grant agreement with a non-profit entity.

Under the terms of the contract, the Contractor will provide financial management services in support of CDBG-funded public service programs at the following Community Centers at the funding amounts listed:

Blackstone Community Center, . . .	\$21,000.
Boston Community Centers,	\$27,500.
Condon Community Center,	\$36,100.

Hyde Park Municipal Center,	\$18,000.
Jamaica Plain Community Center, . .	\$31,255.
Joseph Lee Community Center,	\$20,500.
Joseph Lee Community Center/Collab.,	\$75,000.
Madison Park Community Center, . .	\$40,000.
Mattahunt Community Center,	\$20,500.
Mission Hill Community Center, . .	\$30,461.
Nazarro Community Center,	\$20,000.
Ohrenberger Community Center, . .	\$10,000.
Roslindale Community Center,	\$19,000.

Shelburne Community Center,	\$15,000.
Tynan Community Center,	\$28,302.
Total,	\$436,368.

Total compensation under the terms of this contract shall not exceed four hundred thirty-six thousand, three hundred and sixty-eight dollars (\$436,368.00), payment being made from the Community Development Block Grant (CDBG) program. The Contractor will receive a fee which is a percentage of the amount, and this percentage (10%) will be subtracted from each of the individual program awards, totaling \$43,636.80. The period of performance shall be from July 1, 1993, until June 30, 1994. The submission of this request has been delayed due to the length of time involved in finalizing the program budgets, and the time involved in the funding and program review process.

The Contractor has acted as fiscal agent for a variety of Community Center programs for a number of years, and has had contracts with this agency for these services for the previous three (3) fiscal years at the following funding amounts: FY 91-\$346,562; FY 92-\$356,461; FY 93-\$436,368. The services provided have been excellent, and this contract represents a continuation of those services. The Contractor has also been selected through an open and competitive procurement process by the Boston Community Centers to manage its external grants.

As this is a negotiated contract for professional services at a reasonable cost, based upon a review of the Contractor's past performance, and for the reasons cited above, I believe that public advertising would serve no useful purpose.

Sincerely,

Paul L. Barrett,
Chief Executive Officer.

GROUPS URGED TO APPLY FOR YOUTH FUND GRANTS

Grossroots organizations are invited to apply for a City of Boston Safe Neighborhoods Youth Fund grant to support educational and violence-prevention programs for youths. The deadline for submitting grant applications has been extended from September 21 to Tuesday, October 5, Acting Mayor Thomas M. Menino recently announced.

The Safe Neighborhoods Youth Fund fosters and supports a growing number of grassroots organizations dedicated to working with young people and families in the city's neighborhoods.

"There are many deserving groups and programs in Boston's neighborhoods that work hard to better their communities," said Acting Mayor Menino. "The Youth Fund grants are a great opportunity for the City to continue supporting their efforts."

Ted Landsmark, Director of the Safe Neighborhoods Program, said the Youth Fund mini-grants are awarded in amounts of up to \$7,000, and added that applicants must meet a series of criteria and priorities established by the Youth Fund.

In fact, a "prebidders conference" for those interested in applying will be held on Tuesday, September 28, at 6 p.m. in the Piemonte Room, Boston City Hall, on the fifth floor. Marcus DeFlorimonte, Deputy Director of the Program, will be on hand to answer any and all questions about the application process and about funding priorities.

Programs must support implementation of specific goals identified in the Safe Neighborhoods Plan, and priority will be given to programs that promote violence prevention, life skills training, educational enhancement and parenting skills.

More than 300 groups have already received grants from the Youth Fund over the past three years. For more information on grant applications, please contact the Safe Neighborhoods Office at 635-4495, or stop by the fifth floor of City Hall to check up an application.

"BUY BOSTON" BUSINESS LEGISLATION IS PASSED UNANIMOUSLY BY THE CITY COUNCIL

Acting Mayor Thomas M. Menino's "Buy Boston" plan received a boost recently when the Boston City Council unanimously passed home rule legislation offered by the Mayor creating a Boston-based business preference for City contracts. The legislation would allow the City to award contracts to Boston businesses that bid within five percent of the lowest non-Boston bidder.

In introducing the legislation to the City Council, Acting Mayor Menino cited the fact that because of the existing restrictive state bidding law, the City had to award over \$20 million to businesses located outside of Massachusetts in fiscal year 1993. In comparison Boston-based businesses were awarded less than \$5.5 million in City contracts during the same period. A similar Boston-based business preference was in place under the White Administration but was superseded by the state law.

Menino praised the City Council's quick action on the bill, under the leadership of the Ways and Means Chairman Anthony Crayton, saying, "It is important that we create incentives for

businesses to locate and stay in Boston. Local businesses provide jobs for our neighborhood residents and produce revenue to support vital city services. This legislation sends the message that if you locate your business in Boston, the capital city and economic engine for the Commonwealth and the region, then we will use the resources of the city to help you prosper and grow."

Menino added, "This legislation is a significant first step in my Buy Boston plan in which we will call on big downtown businesses to buy goods and services from neighborhood merchants. I urge the City's large corporations to follow our lead and support other Boston-based businesses."

Menino said the legislation now needs State House approval. He said his office is lining up support for the bill in the Legislature.

"GREEN ON BLUE" GRADS CELEBRATE

Public Facilities Department (PFD) Director Mary Nee (second from right) stands with the "Green On Blue" III interns at the Roxbury Multi-Service Center following a ceremony which gave each intern a certificate of recognition for completing an eight-week horticultural training course funded by PFD's Grassroots Program. PFD has funded the program since its inception in 1991. The program employs local youth who spend the summer cleaning and cultivating vacant lots along Blue Hill Avenue. The Roxbury Multi-Service Center has been the co-sponsor of the program recruiting youth and finding community organizations to adopt vacant lots for the interns to work in.

"GREEN ON BLUE," A SUMMER SUCCESS

As summer draws to a close, more than a dozen Roxbury teens are celebrating their successful completion of an eight-week horticultural training course funded by the City of Boston Public Facilities Department (PFD).

At the end of August, fourteen interns participating in Phase III of the "Green on Blue" program received certificates of recognition for their work in landscaping 14 sites along Blue Hill Avenue in Roxbury's Grove Hall section between Savin and Maywood Streets. PFD awarded the project's co-sponsor, Roxbury Multi-Service Center an \$89,400 grant from its Grassroots Program. The Grassroots Program makes land grant funds and technical assistance available to community groups for the creation of permanent play areas, community gardens and beautification projects.

This summer, Phase III of "Green on Blue" was awarded in-kind contributions from the Greenspace Alliance in the form of small grants from the Boston Foundation and Talbot's Clothing Stores. The Greenspace Alliance received 500 cherry trees from Talbot's, 100 of which will be planted along Blue Hill Avenue during the Spring of 1994. The remaining 400 trees are being planted at various greenspaces throughout Boston.

Since the summer of 1991, the Roxbury Multi-Service Center has worked with 15 neighborhood associations and churches to adopt and create designs for the vacant lots involved in the "Green On Blue" project. PFD also funded Phases I and II of "Green On Blue" which provided support for community needs assessment, outreach and educational programs offering students environmental awareness and landscape training classes. To date PFD has awarded the "Green On Blue" program close to \$300,000.

THOMAS M. MENINO
Acting Mayor of Boston

OFFICIAL CHRONICLE. MUNICIPAL AFFAIRS

THOMAS M. MENINO
PRESIDENT, CITY COUNCIL

DL. 85 MONDAY, OCTOBER 4, 1993 NO. 40

MENINO, BRATTON, APPOINT 50 NEW POLICE RECRUITS

Acting Mayor Thomas M. Menino last week joined Police Commissioner William Bratton at Faneuil Hall to appoint 50 new police recruits — the first of 100 to be trained this year.

Acting Mayor Thomas M. Menino recently joined Police Commissioner William Bratton at Faneuil Hall in appointing 50 new police recruits — the first of 100 to be trained this year.

"While training new recruits is a very important step towards making the residents of Boston feel more safe and secure, the fact of the matter is that more police officers represent only one aspect of our City's continued commitment to public safety," Mayor Menino said.

"In addition to increasing the number of police officers, I am committed to getting deadly guns off the streets. Three weeks ago, I announced that my administration would file legislation that will allow the Boston Housing Authority to evict any tenant who is arrested for carrying or possessing an illegal firearm."

Mayor Menino has also demanded water enforcement of the Bartley-Pol Gun Law, saying that there will be no misunderstanding — here in Boston, if you violate the gun laws, you will face swift and severe punishment.

In addition, under the leadership of Police Commissioner Bratton, the City has begun to implement community policing. "This represents a dramatic change from old practices,"

Menino said. "Gone are the days when the police were simply there to pick up the pieces after a crime was committed. Community policing means greater cooperation between the police and neighborhood residents and businesses — getting the entire community involved to prevent crimes before they happen."

Earlier this summer, Mayor Menino brought together the leaders of the Boston Police Department,

State and MBTA Police, the District Attorney's Office and other law enforcement agencies to develop a summer deployment plan.

"Together," he said, "we made a commitment to eliminate costly and unproductive turf battles and instead focus all of our combined energies and resources on the only thing that really matters — getting criminals off the streets. This cooperation must continue."

BUSINESS RETENTION CENTER

Sept. 14, 1993.

Dear Boston Business:

Since becoming Acting Mayor of Boston, I have made economic development a priority of my administration because I understand the importance of retaining and creating jobs. I also understand the importance of having a City Hall that works closely with the business community, listens to its concerns, and helps to cut the red tape. That is why I have opened the Business Retention Center, a one-stop shopping hotline and office in City Hall. The Business Retention Center will provide assistance and coordinate the City's services to Boston's business community. Businesses now have an advocate in City Hall to respond to their concerns.

To ensure that the Business Retention Center provides the services that you need, we are surveying businesses city-wide to help identify their primary concerns. If these concerns have caused you to consider expanding or relocating outside of Boston, it is especially important that we hear from you. The more we know about your needs, the better we will be able to serve you.

MARSTON BALCH ARENA THEATER PRESENTS:

Ghetto

by Joshua Sobol

Directed by Laurence Senelick
October 28-30, November 3-6, 1993

The Marston Balch Arena Theater is proud to announce its first departmental production of the year, *Ghetto*, directed by Laurence Senelick. The show begins at 8:00 p.m. and runs from Thursday, October 28, through Saturday, October 30, and Wednesday, November 3, through Saturday, November 6.

Joshua Sobol's *Ghetto* brings us into the daily lives of a Jewish theater troupe in the Vilna Ghetto in 1944. Sobol explains, "Vilna occupies a special place of honor in the history of Jewish culture in Europe. It was called the "Jerusalem of Lithuania," and it was a center of Jewish culture in Europe, Jewish political movements and education . . . All the reactions of Jewish communities to the Nazis are found in a concentrated form in Vilna." The play provides an often harrowing, sometimes humorous, and always thoughtful depiction of the ghetto and imagines the artistry created there.

Ticket prices are \$5 on Wednesday and Thursday, and \$6 on Friday and Saturday. Tickets are on sale beginning Tuesday, October 5, 1993. Mastercard and Visa are accepted. Group rates are also available. As the theater is a small space, tickets do sell quickly, so we encourage you to buy your tickets as soon as possible. The Balch Arena Theater is located on Tufts' Medford campus, about 7 miles north of Boston. For more information, please contact the Balch Arena Theater Box Office at 627-3493, weekdays, 9:00 to 5:00 p.m.

An awards ceremony will close the Jamboree at about 6:00 p.m. Mayoral and City Council finalists are being invited to stop by throughout the Jamboree.

*There will be no information on individual candidates/party slates dispensed at the Jamboree.

Acting Mayor Thomas M. Menino throws a bundle of old newspapers into the new City Hall recycling bin in the building's lobby, as Recycling Director Rick Innes looks on. While City Hall has long had a white paper recycling program Acting Mayor Menino ordered that City employees be able to recycle their newspapers, as well.

It is the policy of the City of Boston to award at least 15 percent of the City's contract dollars to minority-owned businesses and at least 5 percent to women-owned businesses.

ALEXANDER-MAGNOLIA COOPERATIVE NEARS COMPLETION

(Photo: George Vasquez)

City and state officials along with community residents cut the ribbon at the entrance of a new home at the Alexander-Magnolia Cooperative located between the Uphams Corner section of Dorchester and the Dudley neighborhood of Roxbury. The twenty, one-and two-family homes for low-and moderate-income families are being developed by the Dorchester Bay Economic Development Corporation (DBEDC). The City of Boston Public Facilities Department (PFD) helped fund the \$6 million project. Built on 3.5 acres of formerly vacant land, the 38 units of housing scattered along Alexander, Oleander and Magnolia Streets are being constructed under the Boston Cooperative Initiative (BCI) sponsored by PFD, the Metropolitan Boston Housing Partnership (MBHP) and five area community development corporations. The Alexander-Magnolia Cooperative is scattered along Alexander, Oleander and Magnolia Streets between Up-

hams Corner and the Dudley neighborhood in Roxbury. PARKS DEPARTMENT IMPROVES PLAYLOT EQUIPMENT

(photo Terri Davis)

In a city-wide effort to maintain the many Boston parks and playgrounds renovated over the past five years, the Boston Parks and Recreation Department has launched a program to update and restore children's playlot equipment in various parks throughout the city. "Consistent maintenance, safety and ensuring the city's 110 playlots stay in optimum condition are the goals of the playlot initiative," explained Parks Commissioner Patrick S. Harrington.

The program has started with replacing and updating \$10,000 worth of playlot equipment such as railings, slides and bridges, followed by an additional \$30,000 in spare parts installed by spring 1994, according to Parks Department Director of Planning Justine Liff. Park partners and neighborhood residents will be encouraged to get involved in the initiative later this fall with a city-wide PLAYLOT CLEANUP program.

Pictured here are (L-R) Parks Department Regional Administrator for Dorchester Joseph Curran, Carpentry Foreman Frank Wigmore and Parks Department Engineer Jef Foley installing a new bridge at Walsh Park in Dorchester.

This day-long conference on the problems, challenges and potential solutions for the nation's youth is aimed at creating real strategies for change.

Boston and other cities face tough challenges in helping youth to grow into productive members of the community. Youth need to be motivated, educated and empowered to make their lives better. As one of the city's oldest youth organizations, BGC is committed to participating in the solution.

Moderated by Lisbeth B. Schorr, author of *Within Our Reach: Breaking the Cycle of Disadvantage*, the Symposium is divided into three segments: Chil-

dren & Their Families; School, Neighborhood & Community; and Funding.

Also be aware that during a luncheon address by Eli Segal, assistant to the president and director of the Office of National Service, BGC will announce a major collaborative youth initiative with several other Boston organizations.

Fire Fighter Brian Hussey, Engine Co. 53 (Aide to District Chief) to Ladder Co. 16.

II. HIGH COMMENDATION

On July 18, 1993, at 0345 hours, incident #25890, companies responded to Box 2311 (2 alarms) for a fire in a five-story brick building at 469 Commonwealth Avenue, District 5.

Fire Fighter William O'Sullivan of Ladder Company 26 ascended the aerial to the roof and commenced ventilation. Within moments, an occupant trapped by intense heat and smoke appeared at a top-floor window, calling for assistance. Fire Fighter O'Sullivan had Ladder 26's aerial re-positioned to the fifth floor where he removed the occupant down the aerial to safety. Simultaneously, members of Ladder Company 15 were ordered to attempt an interior rescue. Fire Fighter O'Sullivan returned via the aerial to the roof and continued ventilation.

Fire Lieutenant Robert J. Crawford, Fire Fighters Michael T. Pass and Richard K. Callow of Ladder Company 15 proceeded to the fifth floor encountering extreme heat and a heavy smoke condition. Upon receiving notification of the rescued occupant, they vented the upper floor and started down the stairway. The increasing heat and smoke conditions forced them back to the fifth floor. Unable to locate another exit, and their air supply nearly exhausted, they proceeded onto the rear fire escape which was engulfed in heat and smoke.

Upon hearing calls for assistance from the members of Ladder Company 15, Fire Fighter O'Sullivan proceeded to the edge of the roof. Unable to see them, he removed his mask and passed it down through the smoke. He radioed a request for a ladder to the rear. With all members' air supply nearly exhausted and because of the hazardous situation, including obstacles in raising a ladder at the rear, he laid prone on the roof with his upper torso over the edge, reached with his hand through the smoke and was able to pull each member from the top rail of the fire escape.

Because of his actions in rescuing the occupant, assisting and removing fellow members from a precarious position, therefore averting serious injury while at great personal risk, the Fire Commissioner is pleased to highly commend Fire Fighter William O'Sullivan of Ladder Company 26 and refers his case to the Board of Merit for further consideration.

who should be available and ready to either show the visitors around the station and to answer the questions regarding the department or to have a suitable person assigned to that duty. Handouts will be distributed prior to October 3, 1993, so that they may be given to the public when they visit the firehouses.

The officer in charge of quarters shall see that the Fire Prevention Week plywood sign issued to all stations is displayed during the week. It is the responsibility of company officers to see to it that these signs are kept in good condition from year to year. Signs should be displayed from Sunday to Saturday. Signs shall be checked daily by the officer in charge of quarters to assure that they are firmly affixed to the building in a proper manner.

District Fire Chiefs are directed to take active interest in Fire Prevention Programs in the following manner:

By making arrangements with the various plants and industrial enterprises within the district to hold fire drills during the week, grading these drills as good, fair, or poor and making a report of same to the Fire Prevention Division, indicating the name of the enterprise, the date of the drill and the grade. Same should be forwarded promptly. Each concern should be requested to acknowledge participation in Fire Prevention Week activities via written correspondence. These drills should be conducted by a company officer after arrangements are made. At plants where there are special or company fire brigade, particular attention should be given to assignments and/or response procedures. It is requested that the name of the company officer conducting the drill be furnished. It is anticipated that not less than three drills be conducted in each district.

Company officers will contact school officials in the schools in their sub-district and make arrangements to hold the required fire exit drills during Fire Prevention Week. The fire exit drill shall be so arranged that it will be held prior to the end of the school day.

The District Fire Chief should compile a list of fraternal, social, civic and professional organizations within the district and convey them the willingness of the Fire Department to provide company officers for the purpose of lecturing on fire prevention at any time. District Fire Chiefs should make a concerted effort to bring the activities of the department before these organizations and arrange for lectures to be given. The name of any organization so participating should be reported to the Fire Prevention Division, specifically if the organization can be urged to forward on its own stationery a notation of the event. It would be to the greater advantage of the Fire Department.

Firefighters are to pay special attention to the observance of fire hazards and to the duty of observing and locating fire hazards along the route followed by them in their coming and going from daily work. All buildings being erected, demolished or significantly remodeled require permits, as do storage areas use of flammable gases. Notify your District Chief and/or Fire Prevention Division at extension 3620. Dilapidated buildings, rubbish accumulation and other hazards should be reported in accordance with abatement procedure as outlined in S.O.P. 25. The public expects uniformed members of the Fire Department to know something about fire pre-

FIRE DEPARTMENT ORDERS

September 24, 1993.

General Order No. 43

I. FIRE PREVENTION WEEK

Fire Prevention Week will be observed in the City of Boston from October 3 to October 9, 1993, inclusive.

During Fire Prevention Week, company officers and all members shall review the smoke detector laws so that people visiting the fire houses can get the correct answers to smoke detector laws.

Fire stations shall be open to the public between the hours of 1200 and 1700 hours for inspection of the premises and for the conveyance of information concerning the Fire Department functions and fire prevention matters. When citizens come to a station during Fire Prevention Week, the man on house patrol shall summon the commanding officer

ention work and to have an interest in this subject since they are public employees engaged in this field. Firefighters, therefore, during Fire Prevention Week, should have this subject uppermost in their minds and they should not pass a fire hazard at any time without making a note of it for reference to the Fire Prevention Division. In short, every informed man in the Fire Department is a fire prevention inspector at all times.

Company commanders, on receipt of the fire prevention posters, will post these items in a suitable location at the front of each fire station where they will be visible to the public. They will remain posted through October 1993.

A list of all fire prevention activities and their locations will be forthcoming.

REPORT SHOWS BANKS MAKING REAL PROGRESS

With representatives from the city's banks at his side, Acting Mayor Thomas M. Menino announced recently that a City study of lending practices to Boston's neighborhoods shows that banks are doing better in helping inner-city residents.

Statement of Acting Mayor Thomas M. Menino on the Issuance of the City's Linked Deposit Banking Report, September 29, 1993.

Today, I am pleased to release the City's long awaited second Linked Deposit Banking Report. I am also pleased to announce that the report — which rates banks' records in providing financial services to Boston's neighborhoods — shows that many banks are making real progress in meeting the needs of under-served communities.

Reinvestment by the City's banks will help us reestablish neighborhood confidence, when people see new banks, new supermarkets, and other new businesses coming into our business districts. We want to chase out the expensive check cashing facilities and bring in the new branches and ATMs that our people deserve.

The Linked Deposit Report reveals that banking services are expanding in minority and low-income neighborhoods, although more branches are still needed. The report also finds that mortgage opportunities have expanded for communities of color, although there remain some

discrepancies in approval ratings. And, three banks received "outstanding" grades — Bank of Boston, Boston Bank of Commerce and Shawmut Bank.

With the release of this report, it is important to send two strong messages:

First, under my administration, the Linked Deposit Program will be administered in a consistent and thorough manner, with reports being released annually and on time.

Second, although we will continue to carefully monitor the lending practices of banks, the program will not be used to unfairly malign banks who are doing good work. It will function as a constructive tool for bank service evaluation, and for rewarding those institutions which are doing an outstanding job of meeting the investment needs of our neighborhoods.

To accomplish these goals, I am announcing the following:

To strengthen the program, I will support City Council legislation to codify the Linked Deposit Program, which was established by executive order. Councillor Anthony Crayton has agreed to pursue such legislation on the City Council.

To recognize the outstanding work of Bank of Boston and Shawmut Bank, I have directed the Collector-Treasurer's Office to deposit some \$5 million in City funds into Bank of Boston's Grove Hall Branch and Shawmut Bank's forthcoming branch at the Washington Park Mall in Roxbury. Boston Bank of Commerce is currently receiving the maximum amount of city deposits allowable by law and, as Mayor, I will ensure that they continue to receive these deposits as long as their performance is outstanding.

In conclusion, under my administration the Linked Deposit Program will be result-driven. Our key goal will be to create community banking competition where all players — neighborhood residents, community advocates and banks — can win by reinvesting in Boston.

FIRE DEPARTMENT WILL SEND DRAMATIC SIGNAL TO RESIDENTS TO "CHANGE"

One day before the fall time change, the Boston Fire Department will send a dramatic signal to local residents to make a potentially life-saving change.

At NOON, on Saturday, October 30, 1993, emergency sirens of all kinds will sound in unison to urge residents to change their smoke detector batteries when they change their clocks back from daylight saving time that weekend.

It's all part of the annual "Change Your Clock, Change Your Battery" campaign, a national home fire safety program sponsored by the Boston Fire Department, the International Association of Fire Chiefs and Energizer batteries.

Working smoke detectors cut the risk of dying in a home fire by nearly half by providing an early warning and critical extra seconds to escape. Although smoke detectors are in 82 percent of American homes nearly one-third don't work because of worn or missing batteries.

"We hope the sounding of emergency sirens serves as a symbolic warning about the need to maintain your home's smoke detectors," says Fire Commissioner Martin Pierce. "Tragically, many of the deaths and injuries caused each year by home fires could be prevented by the simple act of installing a fresh smoke detector battery."

When the Boston Fire Department activates its emergency sirens, it will join thousands of fire departments nationwide that are participating in the "Change Your Clock, Change Your Battery" National Fire Safety Drill to sound the alarm literally on smoke detector neglect.

In addition to changing smoke detector batteries, Commissioner Pierce recommends that residents take a few fire safety measures including, checking the smoke detector itself by pushing the test button, changing flashlight batteries, planning "two ways out" and practicing those escape routes with the entire family.

For more information about fire safety and conducting a home fire safety drill, call the Boston Fire Department/Fire Prevention Division at 725-3620 or write "Change Your Clock, Change Your Battery," c/o Energizer Batteries, 9711 Fuessler Road, Mascoutah, IL 62258.

"CHANGE YOUR CLOCK, CHANGE YOUR BATTERY"

Although 82 percent of American homes have smoke detectors, nearly one-third don't work because of worn or missing batteries.

This is tragic because a working smoke detector cuts the risk of dying in a home fire by nearly half by providing an early warning and critical extra seconds to escape.

To reduce and prevent fire tragedies in our community, the Boston Fire Department has joined forces with the International Association of Fire Chiefs and Energizer batteries for a national home fire safety campaign called "Change Your Clock, Change Your Battery." Our message is simple and potentially lifesaving: change the batteries in your smoke detector when you change your clock back from daylight saving time.

Remember, "Change Your Clock, Change Your Battery." It could save your life.

FBI STATISTICS

The Federal Bureau of Investigation announced on October 3, that crimes reported to law enforcement agencies declined 3 percent in 1992 compared to 1991.

FBI Director Louis J. Freeh said "Any reduction in reported crime is welcome but the amount of violent crime and other grave offenses nationwide remains intolerable.

"Crime is shockingly high in this country where the rule of law should prevail," Freeh said. "Permanent and major crime reductions must be achieved as swiftly as possible."

Freeh said violent crimes increased 1 percent last year. Murder and robbery decreased but forcible rape increased 2 percent and aggravated assault 3 percent. All major property crimes dropped.

Despite the overall 3-percent decline, the amount of crime was 1 percent higher than in 1983.

An estimated 14.4 million offenses were reported to law enforcement agencies across the nation in 1992, an average of 5,660 crimes for every 100,000 inhabitants.

The statistics are based on a Crime Index of selected violent and property offenses reported to the FBI Uniform Crime Reporting (UCR)

program by over 16,000 law enforcement agencies, covering 95 percent of the nation's population. Estimates are included for nonreporting areas. The 1992 data appear in the FBI's annual publication, *Crime in the United States*.

Some highlights from the 1992 publication are:

Crime Volume Trends

- The 3-percent decrease in overall crime was the first annual decline since 1984.
- All regions of the nation except the west showed decreases in the total number of Crime Index offenses reported from 1991 to 1992. The northeast registered a decline of 6 percent; the midwest, 5 percent; and the south, 3 percent. The west showed a less-than-1-percent increase.
- Like the nation as a whole, the cities and suburban counties experienced 3-percent declines in the number of Crime Index offenses reported; the rural counties reported a percent decrease.

Crime Rate Trends

- The 1992 Crime Index rate, 660 per 100,000 inhabitants, was 4 percent lower than in 1991. For 5- and 10-year intervals, the 1992 rate showed virtually no change from the 1988 rate and was 9 percent above that of 1983.
- Geographically, the total Crime Index rate showed declines in all regions of the nation from 1991 to 1992. The declines ranged from 6 percent in the northeast to 1 percent in the west.
- Crime Index rates ranged from 272 per 100,000 inhabitants in metropolitan Statistical Areas (MSAs) to 2,026 per 100,000 rural county inhabitants. The Crime Index rate was 5,317 for cities outside of MSAs.

Violent Crime

- Total violent crimes (murder, forcible rape, robbery, and aggravated assault) reported to law enforcement exceeded 1.9 million offenses during 1992, a rate of 758 for

every 100,000 United States inhabitants.

- From 1991 to 1992, the number of Index violent crimes increased by 1 percent. Murder was down 4 percent and robbery down 2 percent. Forcible rape and aggravated assault showed increases of 2 and 3 percent, respectively.

- Last year's violent crime rate, 758 per 100,000 inhabitants, was unchanged from 1991. The murder rate was down 5 percent; the forcible rape rate, up 1 percent; the robbery rate, down 3 percent; and the aggravated assault rate, up 2 percent.

- Data on weapons showed that firearms were used in 31 percent of all murders, robberies, and aggravated assaults, collectively. Personal weapons (hands, fists, feet, etc.) were used in another 31 percent.

- Aggravated assaults accounted for 58 percent of all violent crimes reported to law enforcement in 1992.

Property Crime

- The estimated property crime total in 1992 was 12.5 million offenses, and the rate was 4,903 for every 100,000 U.S. inhabitants.

- From 1991 to 1992, the number of Index property crimes declined 4 percent overall. All of the property crimes showed decreases. Burglary was down 6 percent, while both larceny-theft and motor vehicle theft declined 3 percent.

Murder

- Murder counts for 1992 totaled 23,760, a 4-percent drop from the record-setting 1991 level. The murder rate was 9 per 100,000 inhabitants.

- Based on supplemental data received, 78 percent of the murder victims in 1992 were males, and 88 percent were persons 18 years of age or older. By race, 50 of every 100 victims were black, and 48 were white.

- Offender data based on a 1992 total of 25,180 murder offenders showed 90 percent were males, and 86 percent were over 18 years of age. Fifty-five percent of the offend-

ers were black, and 43 percent were white.

- Almost half of the murder victims in 1992 were related to or acquainted with their assailants. Among female murder victims, 29 percent were slain by husbands or boyfriends.

- By circumstance, 29 percent of the murders resulted from arguments and 22 percent from felonious activities such as robbery, arson, etc.

- Firearms were the weapons used in approximately 7 of every 10 murders.

Forcible Rape

Forcible rapes reported to law enforcement in 1992 totaled 109,062.

- In Uniform Crime Reports, the victims of forcible rape are always female, and in 1992, an estimated 84 of every 100,000 females in the country were reported rape victims.

Robbery

- Law enforcement agencies recorded 672,48 robberies in 1992, for a rate of 264 robberies per 100,000 population nationwide.

- The monetary value attributed to property loss in connection with this offense was estimated at \$565 million. Bank robberies resulted in the highest average losses, \$3,325 per offense; convenience store robberies the lowest, \$402.

- Robberies on streets or highways accounted for more than half (56 percent) of the offenses in this category.

- In 1992, 40 percent of all robberies were committed through the use of strong-arm tactics and another 40 percent with firearms.

- The 1992 property crime rate, 4,903 per 100,000 inhabitants, showed a 5-percent decrease compared to 1991. All of the property crime rates showed declines from their 1991 levels; the burglary rate was down 7 percent; and the larceny-theft and motor vehicle theft rates were each down 4 percent.

- Total dollar losses due to property crime (burglary, larceny-theft, and motor vehicle theft) were esti-

ated at \$15.2 billion for 1992, or \$1,217 per reported offense.

- Larceny-theft accounted for 63 percent of all property crimes reported in 1992.

Crime Clearances

Law enforcement agencies nationwide recorded a 21 percent Crime Index clearance rate in 1992. The clearance rate for violent crimes was 45 percent; and for property crimes, 18 percent.

- Among the Crime Index offenses, the clearance rate was highest for murder, at 65 percent, and lowest for burglary, at 13 percent.

- Offenses where offenders were all under 18 years of age resulted in 20 percent of the overall Crime Index clearances, 13 percent of the violent crime clearances, and 23 percent of the property crime clearances.

Arrests

- During the year, law enforcement agencies made an estimated 14 million arrests for all criminal infractions other than traffic violations. The highest arrest counts were for driving under the influence, 1.6 million; larceny-theft, 1.5 million; and simple assault and drug abuse violations, each 1.1 million.

- Relating the number of arrests to the total U.S. population, the rate was 5,566 per 100,000 inhabitants.

- The total number of arrests declined less than 1 percent from 1991 to 1992. Overall Crime Index arrests dropped 2 percent. While arrests for violent crimes rose by 2 percent, arrests for property crimes declined 3 percent.

- Of all persons arrested in 1992, 45 percent were under the age of 25, 81 percent were male, and 68 percent were white.

- Larceny-theft was the offense resulting in the most arrests of persons under age 18, while adults were most often arrested for driving under the influence.

- A comparison of 1991 and 1992 robbery totals by weapon showed those committed with firearms were up by 2 percent; all other weapon categories showed decreases.

Aggravated Assault

Aggravated assaults, with a total of 1,126,974 offenses reported, comprised 58 percent of the violent crimes in 1992. The aggravated assault rate was 442 per 100,000 inhabitants.

- Blunt objects or other dangerous weapons were used in 31 percent of these offenses in 1992. Assaults by firearm accounted for 25 percent of the total, while those involving personal weapons such as hands, fists, and feet accounted for 26 percent; knives or cutting instruments accounted for the remainder.

Burglary

- Three million burglaries were reported to law enforcement in 1992, with 2 of every 3 being residential in nature.

- Sixty-nine percent of all burglaries involved forcible entry. Offenses were evenly divided between day and night.

- Burglary victims suffered losses estimated at \$3.8 billion in 1992.

- According to a special study appearing in *Crime in the United States - 1992*, 1 of every 3 residences in the U.S. will be burglarized at least once in a 20-year period.

Larceny-theft

- Larceny-theft, with an estimated total of 7.9 million offenses, comprised 55 percent of the Crime Index total.

- Total losses nationally were estimated at \$3.8 billion in 1992, with the average value of property stolen due to larceny-theft \$483 per incident, up slightly from 1991.

- Thefts of motor vehicle parts, accessories, and contents made up the largest portion of reported larcenies, 37 percent.

Motor Vehicle Theft

In 1992, over 1.6 million motor vehicle thefts, or an average of 1

theft for every 120 registered motor vehicles, were reported.

- The estimated monetary loss due to these crimes was nearly \$7.6 billion, for an average of \$4,713 per vehicle.

- Eighty percent of all motor vehicles reported stolen in 1992 were automobiles.

- According to a special study appearing in the 1992 edition, there is a 9-percent chance that a car owner will have his or her car stolen at least once in a 10-year period; the likelihood of having a car stolen increases in direct proportion to the number of vehicles owned.

Arson

- A total of 102,009 arson offenses was reported during 1992.

- As in previous years, structures were the most frequent targets of arsonists in 1992, comprising 54 percent of the total. Residential property was involved in 59 percent of the structural arsons during the year.

- The average dollar loss per reported arson was \$16,649 in 1992, a substantial increase from the 1991 average of \$11,980. Large losses resulting from arsons during the Los Angeles riots greatly influenced the 1992 average.

- Of the arsons cleared during the year, 42 percent involved only young people under age 18, a higher percentage of juvenile involvement than for any other Index offense.

Law Enforcement Employees

- A total of 13,032 city, county and state police agencies reported employing 544,309 officers and 205,521 civilians in 1992. Nationally, males comprised 91 percent of all sworn employees, and civilian employees comprised 27 percent of the law enforcement employee force.

- The average rate of 2.3 full-time officers for every 1,000 U.S. inhabitants was up slightly from the 1991 average of 2.2.

- Geographically, the highest rate of officers to population was recorded in the southern States, with 2.5 officers per 1,000 inhabitants.

Data users are cautioned against hasty comparisons of crime trends presented in the Uniform Crime Reporting (UCR) Program's publication, *Crime in the United States* and those estimated by the National Crime Victimization Survey (NCVS), administered by the Bureau of Justice Statistics. Because of differences in methodology and crime coverage, the two programs examine the nation's crime problem from somewhat different perspectives, and their results are not strictly comparable. The definitional and procedural differences can account for many of the apparent discrepancies in results from the two programs. The Department of Justice fact sheet, "The Nation's Two Crime Measures," contains a detailed description of the NVS and UCR.

Coun. KELLY offered the following:

ORDER THAT COUNCIL NOT TAKE ACTION UNTIL ADMINISTRATION FURNISHES ANSWERS TO CERTAIN QUESTIONS RE OPERATING BUDGET (DOCKET NO. 0652)

Coun. SCONDRAS offered the following:

Whereas, Decisions on the FY 1994 capital and operating budgets will be especially significant because of the reduction in revenues faced by the City of Boston; and

Whereas, It is crucial that the City Council have suffic-

ient information to make wise and compassionate decisions on the capital and operating budgets; Now, Therefore, Be It

Ordered, That the Boston City Council will either take no action upon, or reject without prejudice the proposed FY 1993 loan orders, capital and operating budgets until the administration produces, and the City Council considers, a full cost-benefit analysis integrating the following issues:

1. Which items will increase future operating budgets and the amounts of additional costs?
2. Which items are neutral from an operating budget point of view?
3. Which items will save operating budget dollars, and how much?
4. What is the reason for each of the requested capital budget items, in sufficient detail to provide a clear understanding of them? Such reasons might include the impact upon public education, public safety, public health, job creation, state mandates, urgent large scale repairs without which the city in short order would be faced with far higher costs, or the generation of future tax revenue. If future revenue generation is claimed, what is the estimated annual amount, and what is the basis for the claim that the expenditure will create future revenue?
5. What is the rationale leading to the request for the particular items in the capital budget, including the opportunity costs of items were not included?
6. What potential capital budget items are there which might reduce the operating budget, how much would they cost if included in the capital budget, and what are the reasons for and against including them?
7. How many permanent city employees have been paid for out of borrowed money, in which departments do they each work, what functions are they each responsible for, and what is the justification for paying for them with borrowed money in each case?
8. How much previous borrowing for permanent employees has added to the current annual cost of debt service, and how much has borrowing since 1984 for this purpose added to the total cost of debt service?
9. How many new permanent employees will be hired out of the proposed \$225 million capital budget request, in what departments will they work, what will their functions be, and what is the justification in each case?
10. Does the administration plan to eliminate the essentially unsound practice of paying for permanent employees with capital budget funds? If so, how? If not, why not?
11. What portion of the capital budget pays for deferred maintenance?
12. What items in the operating budget assure that new capital expenditures have adequate maintenance budgets attached so that we are not faced with an endless stream of requests to borrow money as a result of our not having enough maintenance capacity?

Referred to the Committee on Ways and Means.

APPROPRIATE CITY COUNCIL COMMITTEE TO HOLD HEARING WITH PARKS COMMISSIONER AND "FOOD NOT BOMBS" ORGANIZATION TO AVOID FURTHER EMBARRASSING COURT ORDERS AGAINST CITY (DOCKET NO. 0653)

Coun. SCONDRAS offered the following:

Whereas, Police resources are being used to break up volunteers serving lentil soup to the hungry and homeless; and

Whereas, Food not Bombs has both a First Amendment right to protest hunger and homelessness in a land of plenty; and

Whereas, Parks Commissioner Larry Dwyer compared the serving of food to the homeless as inappropriate, drawing an analogy between the serving of food to the hungry to the playing of lacrosse; and

Whereas, The City has admitted that permits were sought by the organization; and

Whereas, It is not the business of the City to discriminate against one kind of protest versus another, having sanctioned groups as diverse as the Ku Klux Klan, proselytic work including the distribution of food by the homophobic Hare Krishna sect, protesters of a religious movie at the defunct Paris Cinema, all on public land in places frequented by tourists and many kinds of residents and having repeatedly been reminded by federal courts that it simply does not in a democracy have the right to curtail free speech simply because it does not like the message; and

Whereas, It makes much more sense to have "Food not Bombs" work out an agreement with the City to do what they have the legal right to do in a way that accommodates everyone else's rights; Now, Therefore Be It

Ordered, That the appropriate committee request that the Parks Commissioner and the organization "Food not Bombs" attend a public hearing held by the appropriate City Council Committee to explain their various rationales for their behavior and that such hearing be held as soon as possible to avoid another embarrassing court order against the City to obey the First Amendment.

Referred to the Committee on Neighborhood Services.

DISAPPROVING ORDER FOR MORATORIUM ON
ANY ACTIONS LEADING TO CLOSING
BOSTON SPECIALTY AND REHAB HOSPITAL
(DOCKET NO. 0573)

The following was received:

City of Boston
Office of the Mayor

April 12, 1993.

To the City Council.

Dear Councillors:

I return herewith without my signature and disapproved an order passed by your Honorable Body on March 24, 1993, Docket No. 0573, which would impose a moratorium on any actions that would lead to the closing of the Boston Specialty and Rehabilitation Hospital and order that the Boston Specialty and Rehabilitation Hospital not be closed down.

My reason for disapproval is that the special act governing the Board of Health and Hospitals clearly empowers the Board to exercise exclusive control over all public health facilities in the City, including the Boston Specialty and Rehabilitation Hospital, and to organize and reorganize the Department of Health and Hospitals as the Board may from time to time deem necessary. St. 1965, c. 656. Therefore, the City Council is precluded from establishing by order its own authority over the operation of the Boston Specialty and Rehabilitation Hospital. See, *James Baxter, et al. v. Board of the Department of Health and Hospitals of the City of Boston*, Memorandum and Order, Suffolk Superior Court, Civil Action No. 91-2041D (May 3, 1991).

Also, as you are aware, Health and Hospitals Commissioner Judith Kurland recommended on March 11, and the Trustees of Health and Hospitals passed, a vote to close the facility unless three conditions are met by no later than May 31, 1993: one, reduce costs to industry standards; two, gain revenue enhancements; and three, acquire guaranteed contracts that ensure a minimum of 120 patients per day at a reimbursement rate sufficient to cover costs. These steps are essential if the hospital is to reverse last year's \$7.1 million operating loss. Managers at the hospital are working diligently to meet these condi-

tions. But in the final analysis, we cannot afford to subsidize a facility that state policy does not support.

Sincerely,

Raymond L. Flynn,
Mayor.

(Annexed hereto is the documentation referred to.)

Assigned for further action.

ORDER FOR PETITION FOR SPECIAL LAW RE
MOTOR VEHICLE INSURANCE FOR SCHOOL
COMMITTEE (DOCKET NO. 0657)

The following was received:

City of Boston
Office of the Mayor

April 8, 1993.

To the City Council.

Dear Councillors:

I transmit herewith a proposed Home Rule Petition to permit the School Committee to purchase less expensive motor vehicle liability insurance for its school buses. This Home Rule Petition permits the purchase of motor vehicle liability insurance providing for a deductible amount of coverage for which the City would be self-insured.

It is not feasible for the School Committee to self insure the school bus fleet wholly because the transportation vendor would either purchase its own motor vehicle liability insurance, the cost of which would be charged to the City, or expect the City to indemnify or hold it harmless. Either approach, if permitted by current law, would prove costly.

The School Committee's proposed budget for FY '94 is predicated in part on savings of approximately \$400,000 in insurance premiums. That savings can only be realized if the School Committee is able to purchase insurance providing for a deductible coverage.

I respectfully recommend adoption of this Petition by your Honorable Body.

Very truly yours,

Raymond L. Flynn,
Mayor.

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an attested copy of this order be, and hereby is, approved under Clause (1) of Section eight of Article two, as amended, of the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:

Section 1. Chapter 231 of the Acts of 1905, as most recently amended by Chapter 613 of the Acts of 1987 is hereby further amended by adding the following new Section 2(c):

Section 2(C). Notwithstanding the provisions of any general or special law to the contrary, the City of Boston, acting through its school committee and in accordance with applicable law, is hereby authorized to incorporate in any contract for the procurement of school bus transportation services, or by a separate contract for insurance, a clause providing for the procurement by the City of a motor vehicle liability insurance naming as insured parties itself and its school bus transportation contractor. Under the terms of any such policy, the City is hereby authorized, in its discretion, to agree to be solely responsible for the payment of specified deductible amounts and to assign any or all insurance claims administration and duty to defend responsibilities to the insurer; provided that the settlement of claims within such deductible

amounts may, in the discretion of the Corporation Counsel of the City of Boston, be subject to the written approval of said Corporation Counsel.

This act shall take effect upon passage.

Referred to the Committee on Education.

ORDER THAT FY94 BUDGET BE REJECTED UNTIL ADMINISTRATION, WORKING WITH CITY COUNCIL, RESTORES FUNDS FOR NEW CLASS OF POLICE CADETS (DOCKET NO. 0677)

Coun. NUCCI offered the following:

Whereas, The Mayor has indicated that the FY1994 budget will include no funds for additional police officers, and

Whereas, In 1993, the administration and the Boston Police Department utilized funds for management and technology improvements and not for hiring of any new police officers; and

Whereas, Funds voted in the FY1992 budget for a full class of cadets to be trained and appointed were channeled for other uses, depriving the public of needed patrol presence in the neighborhoods; and

Whereas, The FY1993 budget similarly contained no funds for additional police officers, and

Whereas, Acts of violence continue in the streets and buildings of Boston with innocent citizens becoming the victims; and

Whereas, The hiring of additional police officers, to supplement any additional police presence created by planned management improvements should be a primary goal of the City Council and Mayor; and

Whereas, Community policing cannot be implemented without adequate police staffing; now therefore be it

Ordered, That it is the judgment of the City Council that the FY1994 budget be rejected until such time as the administration, working with the City Council, restores funds for a new class of police cadets.

APPROPRIATION AND TAX ORDERS FOR FISCAL YEAR COMMENCING JULY 1, 1993, AND ENDING JUNE 30, 1994 (DOCKET NO. 0679)

The following was received:

City of Boston
Office of the Mayor

April 14, 1993

To the City Council.

Dear Councillors:

I transmit herewith my proposed Fiscal Year 1994 operating budget for the City of Boston and County of Suffolk. I am submitting a \$1.318 billion operating budget, balanced for the ninth consecutive year.

This will be the last budget I propose to the City Council as Mayor of Boston. I commend it to you confident in the knowledge that I am leaving Boston with its books balanced, with 'A' - rated credit on Wall Street — the highest ever — and with its parks, roads, and public buildings in their best physical shape in decades.

Ten years ago this month, I transmitted to the City Council my first operating budget. Together with the City Council, we have used those ten years to put in place sound financial management practices that are now

deeply rooted and have allowed us to rebuild this great City of Boston.

A decade ago, Boston was weighed down by a tradition of red ink. Now, we are buoyed by a tradition of balanced budgets. Then, our infrastructure was crumbling because of a drought in capital investment. Now, we are in our eighth year of a comprehensive capital investment program. Then, Boston was effectively shut out of the capital markets, burdened by below investment grade credit. Now, Boston is a regular issuer of credit and enjoys an 'A' rating. Then, Boston's pension system was funded on a pay-as-you-go basis. Now, the City is adhering strictly to a fully funded pension schedule.

Because my Administration and the City Council have demonstrated discipline in managing the city's fiscal affairs, we have been blessed with the capacity to improve the quality of city life for residents and visitors alike. We can be justifiably proud of the qualities we have brought to the people we serve: compassion for the less fortunate, better services for homeowners and tenants of the neighborhoods, greater access to city decision-makers, and spending within our means.

But, while I am proud that we have restored Boston to the top ranks of well-managed cities, I am troubled by the service delivery and revenue problems up ahead. Boston is not alone in facing these problems. Consider the following. During 1991 and 1992, communities across the Commonwealth, rich and poor alike, suffered 24 credit rating downgrades. That is a rate of one per month, an unprecedented trend. The service reductions we are seeing in community after community are unacceptable. We recently issued a study showing that 38 of the state's 40 cities have endured reduced police and fire protection since 1990, with many suffering uniformed staffing level cuts in excess of 20 percent.

I have said repeatedly and say again: these problems are not of our own making. So long as state leaders insist that municipal government rely on level funded state aid (after a \$600 million cut) and restricted property tax revenues, city and town residents will experience reduced service levels. State policy is all the more unsound given how rapidly state spending is rising today. Governor Weld's last three budget submissions have seen state spending go up by \$2.2 billion, a 17 percent hike. This compares with Boston's 1.3 percent increase over the same period of time, well below rising costs.

There is some reason for hope. I have met twice recently with the Governor and expressed my concern that he address this festering problem. Perhaps my departure holds out a new opportunity for this issue to be resolved absent political overtones.

Since FY 1989, only police and fire protection, public health, public education and youth services have avoided expenditure reductions. We can take pride in having done our best to protect these essential services from the sharp cuts experienced in all other areas of government operations.

My proposed FY 1994 spending plan continues these priorities. Unavoidably, scarce resources in the coming year mean that service levels must again be reduced. Police and fire staffing levels will fall. Fewer resources will be available to clean city streets and maintain city parks and playgrounds.

Funds for summer jobs will be reduced. But the anticipated continuation of stepped-up state and federal government funding of summer youth jobs means Boston will continue to have one of the nation's best summer jobs programs. For example, Boston stands to gain \$40 - 50 million in new federal funds if President Clinton's economic stimulus package is approved by the Congress. Included in this figure is \$14 million in Block Grants and \$5 million in programs such as summer jobs.

Our support for the homeless shelter at Long Island will be maintained at current levels. The Department of

Health and Hospitals will be provided with funds sufficient to maintain its \$4 million in general support grants to neighborhood health centers.

Most city employees have endured three hard years of waiting for a new collective bargaining agreement. One of the toughest budget challenges I have faced as Mayor is striking the proper balance between meeting the service needs of the neighborhoods and the compensation needs of hard-working city employees.

It is no longer realistic or fair to expect city employees and their families to continue to shoulder the burden of scarce resources. The FY 1994 budget allows for a modest, but well-deserved, collective bargaining increase. Reaching an affordable agreement which balances fairness to employees with essential services for the neighborhoods is a necessary component of prudently managing Boston's long term finances.

We have realized many economies and improved productivity through careful management during tough fiscal times. There are 1,238 fewer city employees working today than when I first took office. The three year cumulative impact of spending and service reductions has now reached \$260 million. This represents a significant structural downsizing in the cost of city government. Further reductions threaten to undo the solid service and fiscal foundation we have built with so much effort in the last decade. The state must act before it is too late.

Three and half years ago, the Commonwealth sponsored a comprehensive re-examination of the state and local government fiscal relationship. Known as the Hamill Commission, it found that the system of financing local government was in disrepair. Today, if anything, the situation is worse. Boston needs an additional \$40 million in recurring revenues in order to maintain current service levels, cover the cost of inflation, and rebuild depleted public safety staffing and equipment levels.

The weeks and months ahead will test our ability to move toward the shared goal of financial independence, fiscal restraint, and responsible service delivery. I look forward to your constructive analysis and support.

Sincerely,

Raymond L. Flynn,
Mayor.
